

# JOY RIDE ENDS WITH DOUBLE MURDER

## SHOOTS HUSBAND, THEN SELF

### MRS. KREDS IN DOUBLE TRAGEDY

Creeps Upon Sleeping Man and Mortally Wounds Him  
Locks Herself in Bedroom and Defies the Police

CREeping to the basement of their Antioch home, after having shot her sleeping husband, Mrs. Lucinda Kreds, wife of Alvinus Kreds, a Pittsburg machinist, hearing the police approaching her hiding place, and preferring death to arrest, shot herself with the revolver she had turned on her husband and fell, senseless and bleeding, as the police battered in the door.

The tragedy occurred at 4 o'clock this morning and was the culmination of a furious dispute between the man and wife, when, following his refusal to withdraw a divorce suit filed against her, she accused him of leading a double life, of having a wife and child in the East, and, finally, when he shut himself in an adjoining room and went to sleep, she entered on tip-toe and fired a revolver at him.

POLICE BREAK DOOR.  
Terrified at her act, she fled to the basement of the cottage which had been their home, and there, hearing herself in, locked the door, bearing the shots, burst into the house, and after finding the wounded man sought her hiding place.

The man will die, according to the physicians, but the woman has a fighting chance for life.  
Mrs. Kreds had been separated from her husband and for some time lived in San Francisco, at 1845 O'Farrell street. Wednesday she went to Antioch, where her husband was taking with her the revolver. She pleaded suit which had been brought at the time the couple separated and he

### Sentenced to Two Years in County Jail

Charles W. A. Arens of Livermore, who was convicted of assaulting F. D. Burr, a real estate man, with a deadly weapon, was sentenced to serve two years in the county jail this morning by Superior Judge Wells in passing sentence the court criticized the jury for the verdict, stating that in his opinion Arens had been guilty of assault with intent to commit murder and should have been found guilty of that charge. The jury recommended leniency and the jury recommended in sending the defendant to the county jail instead of to state's prison.

Arens entered the office of Burr in the Security bank building last July armed with an automatic revolver which he snapped at the real estate man twice. The weapon failed to explode as it had been jammed in its loading. In a panic Burr fled from the assault and called the police. Arens claimed that he had been provoked by Burr's conduct.

### Mrs. Vaughn Escapes Arrest Till Tuesday

SAN FRANCISCO, Sept. 19.—Mrs. Mary C. Vaughn, a member of the Women's Political League, who, it is claimed, tried to obtain \$500 from Judge R. M. Widney of Los Angeles, and who was indicted for attempted grand larceny by the grand jury last night, was not arrested today. The jury will not return the true bill before Presiding Judge Dunne until next Tuesday. Mrs. Vaughn today made a strong appeal for her son's release.

### GOV. SULZER LOSES FIRST FIGHT

Playful Chaps, These Modern College Boys

A COLLEGE EDUCATION.  
SEATTLE, Wash., Sept. 19.—Two students at the University of Washington were taken to hospitals suffering from serious injuries resulting from the annual freshman-sophomore fight last night. Vishno Pingley was taken unconscious to a hospital by fellow students who said he had been run over by an automobile during the class mixer. The attending physician said he could find no marks of an automobile accident and believed Pingley had been left unconscious to a telephone pole until he became unconscious from exhaustion. Frank Plump, the other student who was taken to a hospital, has a broken collarbone, said to have been sustained when he fell down a shaft at an open grain elevator in the university district where 100 freshmen were imprisoned by their opponents.

### BIXBY HEARS GIRL TELL OF HIS DEED

Cleo Barker Scores a Point for the Prosecution

LOS ANGELES, Sept. 19.—Testimony regarding alleged acts of demerit on the part of George H. Bixby, the Long Beach millionaire, on trial in the Superior Court, on the charge of having contributed to the delinquency of two minor girls, was given today by Cleo Helen Barker, one of the girls directly involved. The Barker girl, who has been an inmate of the home of the general Shepherd since her arrest, gave a police raid on the Joplin resort, where she testified she met Bixby, gave the evidence during her cross-examination. Although her recital was of the most revolting nature, none of the women in the courtroom, among them many prominent club members, left, while the long line of waiting men outside leaned forward in efforts to hear through the open courtroom doors.

LeCompte Davis, one of Bixby's attorneys, precipitated that of Bixby's testimony by bringing into the case, in connection with other allegations, that attempts had been made to blackmail Bixby in a suit for \$50,000 damages which the girl recently filed against the millionaire on the ground that he had "assaulted" her.

The prosecution seized upon the opportunity to have the girl explain just what she had meant by "assault" in this case.

Revolving as her story was, the opportunity for her to tell it in court at the expense of Bixby was considered a small triumph by the prosecution.

### GOVERNOR'S CHALLENGE IGNORED

Objection to Senators Who Prosecuted Not Entertained  
Garrison Remanded to Penitentiary for Contempt

BULLETIN.  
ALBANY, N. Y., Sept. 19.—Governor Sulzer today for the first time formally recognized the right of Lieutenant Governor Glynn to exercise the prerogatives of the chief executive of the state pending the determination of the impeachment charges. On the advice of counsel a request for the extradition of a prisoner, received by the impeached executive, was turned over to Acting Governor Glynn.

ALBANY, N. Y., Sept. 19.—Governor Sulzer's latest loss in their fight in the high court of impeachment today, when the four senators challenged by the defense, were permitted to retain their seats. The vote, which was on the question of whether the court should entertain the challenge, was 4 to 3 against the challenge.

Immediately following the vote of the court the reading of the long articles of impeachment was begun.

Although Presiding Judge Cullen had the right to decide the question of the qualifications of the senators for holding their seats, he did not take advantage of this prerogative. He first expressed his opinion that the objections were not well grounded and then permitted the entire court to vote on the issue.

In addressing the court Judge Cullen said that no court had the right to sit in judgment on any act of its members. In this, he said, a court differed greatly from a jury the qualifications of whose members must be decided by the court.

LEARNED JUDGES ARGUE.  
The vote came after a morning of legal argument between Judges Herlick and Parker, representing the defense and the prosecution, respectively. Judge Herlick's first argument was that no man might sit behind a prosecutor and judge in reply, Judge Parker said the members of the court were here as representatives of the whole people, that the people established the court of impeachment in the beginning and that none other than the people had a right to remove their representatives.

The scene within the courtroom this morning was vastly different from that presented yesterday. Less than half the seats in the gallery were occupied at the opening of the arguments. Throughout the morning spectators moved in and out, but at no time were all the seats filled. Prospects of a witness being sworn soon after the articles of impeachment.

(Continued on Page 2, Col. 4)

### Youths Forbidden To Motor Alone

Adding to the strange court sentences on the calendar Judge George Samuels this morning passed upon the cases of William Magee Jr., aged 18 years, and Harry Magee, aged 16 years, sons of W. A. Magee, a wealthy resident of Alameda, Redwood road, this morning, sentencing them to drive their fathers' automobile, for six months, only when accompanied by one of their parents. The sentence was imposed after the boys had been arrested for the second time for

### AMAZON IN FIGHT FOR HAYSTACK

Woman Holds Off Three Deputy Sheriffs on Lonely Ranch  
Opposes Levy for Debt of Husband; Finally Overcome

Battling against three deputy sheriffs to protect haystacks on her lonely ranch in Redwood canyon above Hayward from being "levied" on for her husband's debts, Mrs. Josephine Piet, after three attempts on the part of Hayward constables, made during the week, was taken into custody and lodged in the county jail this morning charged with resisting the law and is being held on \$1000 bail.

Armed with a large club, Mrs. Piet successfully stood off Constable Manuel Borges and his deputies for several days, in hand-to-hand encounters the others away with a warning that she was not responsible for the debt of \$200 that Joseph Piet owed R. C. Rosenberg of San Francisco for borrowed money.

After their unsuccessful efforts to levy the attachment the Hayward officials appealed to Sheriff Barnett and he sent Deputy Sheriffs Jack Collier, Dave Jones and Al Kinn to the scene this morning. They were victorious in the end but were given an exhibition of Amazonian prowess that they will not soon forget.

SCRATCHES, KICKS AND FIGHTS.  
Scratching, kicking and swinging with full force of muscles ranged from many years, Mrs. Piet again sought to beat off the representatives of the law. She was finally forced into an automobile and with difficulty restrained from doing bodily harm to her custodians.

During the night one of the haystacks was burned, the fire originating in a mysterious manner. At the jail this morning Mrs. Piet declared that she knew nothing of the circumstances.

"I got my husband to come to his children and then borrowed the money to buy the seed. I own the property and they cannot take it away from me for his debts. I did not mean to do anything wrong but felt that I had a right to guard my haystacks."

### Falls Two Stories; Injuries Are Slight

Falling two stories from a building under construction at Fourteenth and Jefferson streets, Martin Macer, an ironworker living in the Howard House, San Francisco, escaped today with but slight injuries. His right knee was contused and his face bruised, but he was able to walk to the emergency hospital for treatment.

Mrs. M. P. Golden, 2116 Geary street, San Francisco, was run down last night at Twelfth avenue and East Fourteenth street, by an eastbound Hayward electric car and seriously injured. Mrs. Golden is at the Providence Hospital under the care of Dr. O. D. Hamilton and is in a precarious condition.

### C. A. R. Encampment To Be in Detroit

CHATTANOOGA, Tenn., Sept. 19.—Detroit, Mich., today was selected as the meeting place of the 1914 National Encampment of the Grand Army of the Republic and allied organizations.

### Lights Disturb Observations Chabot Landmark Doomed

PROFESSOR CHARLES BURCKHALTER, AT WORK ON THE TELESCOPE OF THE CHABOT OBSERVATORY, OF WHICH HE HAS BEEN IN CHARGE FOR THE PAST TWENTY-FIVE YEARS, AND WHICH MAY BE MOVED TO AVOID THE STRONG LIGHTS OF THE CITY STREETS. THESE LIGHTS HAVE MADE ACCURATE OBSERVATIONS IMPOSSIBLE.

### STEALS AWAY AND WEDS ON THE QUIET

Gladys Underhill of San Mateo, Missing; Married

The mystery of the disappearance of beautiful Gladys Underhill, daughter of W. H. Underhill, auditor of San Mateo county, was explained today when the details of a wedding ceremony performed in Oakland last night, that united her with Robert von Pertz, an insurance agent of this city, were revealed.

The couple procured a license in Oakland and were married in the parlors of a hotel, and after the marriage had been performed they came over to San Francisco and were married at the Hampshire, 1020 Post street. They denied themselves to all guests this morning, confining themselves to a search instituted by her sister, Mrs. R. H. Chapman of Belmont, and Mrs. A. H. Walker, a chemist, who is the wife of a San Mateo aviator. The sisters were very nervous over her disappearance.

For some time the girl has been engaged to von Pertz, but the marriage had been postponed from September 15, the day set, by reason of the illness of the bride's father. The couple, however, decided to take things into their own hands and to hurry the ceremony.

### STAR-GAZING NO LONGER POSSIBLE

Electric Haze From the Myriad of Lamps Is Detriment

Oakland has outgrown its oldest scientific institution, and as a result it is only a matter of time when the Chabot observatory, one of the best-known astronomical landmarks on the coast, must be moved from its present site. The growth of the city has meant lights. The blaze in the sky caused by the reflection from Oakland's many electric lights, electric lights, the new city hall's high tower with its illumination, sending several thousand candle power gleams into the atmosphere, have made impossible the accurate work of the observatory. Star photography is nearly prevented and accurate results rendered impossible save in the small hours of the morning when only certain stars are visible, and already the city is planning to move the observatory to some out-of-town spot.

Feeling with the astronomical work, declared Superintendent of Schools A. C. Parker, executive director of the observatory, "but can hardly say when it will be possible to move the observatory. With the present stringency in the school funds it is impossible. The observatory will have to remain where it is for another year, and perhaps more. Of course if the work cannot be done where the lights are, and the lights cannot be moved, the observatory must."

than an unofficial discussion relative to moving the apparatus declared charge of the observatory. "I have consulted with members of the board of education and all agree that some means of overcoming the present difficulty is imperative."

(Continued on Page 2, Col. 5)

### WOMAN ALSO FATALLY SHOT

Mrs. Kate Coulson Falls Wounded by Man Said to Be Husband

George Kovack and W. Ackner Dead; Murderer at Large

BULLETIN.  
SAN FRANCISCO, Sept. 19.—Mrs. Coulson, in a statement to Charles White, a friend of the family, this morning said that it was her husband who shot her. She repeated this assertion when speaking to Eugene Reiss, a clerk in Coulson's store, and then qualified it by saying, "I think Arthur shot me."

The police have been unable to get any trace of Coulson and one theory is that if he did commit the crimes he has taken his own life.

Eugene Reiss, Coulson's clerk, later said that Mrs. Coulson had said to him: "Yes, Arthur shot me. He came over and kissed me and I turned away. I didn't see him again, but I heard more shots. He then came out of the garage and brushed past me."

SAN FRANCISCO, Sept. 19.—As the climax of an all-night joy-ride, Mrs. Kate Coulson, 35 years old, was shot in the neck and probably will die; George Kovack, night watchman in the Atlas Garage, 70 Oak street, was shot dead in the garage office, whither he had fled, and William Ackner, chauffeur of the car, was shot dead, leaning against the car. The police are scouring the city for A. P. Coulson, proprietor of a local hutchery and feed store, who is the husband of the wounded woman.

About 4 o'clock this morning Jack Rick, night watchman in a neighborhood garage, heard uncertain footfalls outside his office window and then the fall of a limp body on the pavement. He found Mrs. Coulson, barely conscious, lying on the sidewalk, with blood pouring from her neck. W. Scott, a mail man, had already gone to the woman's aid.

"What's your name? Who shot you?" Rick asked.

Mrs. Coulson told her name, muttered that she knew who shot her and lapsed into unconsciousness without telling more. She resided with her husband at the Raymond apartments, 32 Franklin street.

Ricks followed the trail of blood to the Atlas garage, a room and a half away. On the floor of the shed stood a machine, evidently just in. The motor was still warm. Hunched against the running board was Ackner, the chauffeur, dead in the office. Flat on his back, was Kovack, also dead. Half a dozen bottles of beer, some of them opened and partly empty, showed how the party had been engaged when interrupted.

Coulson did not show up for business at his usual hour, and was not to be found in his apartment.

SEATED IN AUTO.  
As nearly as can be learned, Mrs. Coulson was sitting with William Ackner in the latter's taxi cab, which had been driven about half-way along the drive in the interior of the garage. Ackner had invited Kovack to have a drink and had advanced to the running board of the machine. This was at 4:30 a. m.

A man entered the place, drew a revolver, aimed at Mrs. Coulson. She did not fall then, but jumped from the car, screaming, and ran around the side of the closed compartment. Ackner was a close competitor, trying to hide behind the automobiles in the place. Kovack started to run toward the door.

He kept his pistol. The murderer fired at him, the bullet striking him behind the left shoulder and penetrating his heart. He then turned his attention to Ackner, chasing him in and out among the automobiles, the

## CHICAGO AUTHORITIES MAY PUT BAN ON 'MOVIE' GUNS

CHICAGO, Sept. 19.—Moving picture plays in which there is a display of revolvers are to be barred from exhibition in Chicago is a campaign begun by judicial and reform authorities is successful. The elimination of even the suggestion of firearms is sought.  
Major M. L. C. Fankhouser, second deputy superintendent of police, believes that what he terms "gun play" in motion pictures has a bad influence upon boys.  
His opinion is supported by Judge Merrill W. Pinckney of the juvenile court, who has questioned many youths brought before him, and asserts he has learned from them they secured the ideas for their crimes from motion pictures.  
"In the pictures a man draws a revolver because he is in a temper and the thought of a pistol is bad for a boy," declared Judge Pinckney. It is planned to have an ordinance passed which will prohibit the use of the revolver in film dramas.

with him. She was still sitting there when the murderer entered.  
Inquiry at the Raymond apart-  
ments, where the Coulsons resided, re-  
sulted in the information that Coul-  
son had returned after work as usual,  
but had left home at 10 p. m. No  
one has seen him since. A police  
guard was placed at the apartment  
house and also at his place of busi-  
ness. An examination of his books  
and papers at his office showed nothing  
wrong and no information could  
be had as to where he might be.

...a woman at Oak street and Van Ness  
avenue, and noticed the woman fall.  
She also notified the police. Whether  
the man was the murderer or not is  
yet to be determined. It is believed,  
however, that it was Scudder or  
Ricks, who went to Mrs. Coulson's  
assistance.  
The tragedy at the garage follow-  
ing Mrs. Coulson's exit therefrom was  
discovered by John Fagen, who drove  
...over Kovack, who had staggered from  
behind the machine where he had  
...William Acker resided at the Hotel  
Fillmore, 1027 Fillmore street, and  
leaves a widow and one child. George  
Kovack lived at the Atlas garage. He  
leaves a widow and two children.  
The records of the Atlas Taxi Cab  
Company show that Acker was as-  
signed to a call received from Mrs.  
Stafford at 5:30 last night and that  
he returned to the garage at exactly  
2 o'clock this morning. He took out  
Mrs. Stafford and Mrs. Coulson, and  
for the records of the concern  
tally with the story of Mrs. Coulson.  
Mrs. Curtis, wife of W. H. Curtis,  
who was also employed by the Atlas  
Taxi Cab Company, was expecting her  
husband home at 2 a. m. when she  
heard the shots. Her apartment on  
the fourth floor of the Raymond  
overlooks the garage, nearly a block  
distant.

...SAW MAN HURRY AWAY.  
"I heard the firing and I ran to  
the window," said Mrs. Curtis. "I  
was nervous because I was expecting  
my husband. I saw a woman stand-  
ing in front of the garage. A man,  
whom I am certain was the murderer,  
rushed past her and hurried down  
Oak street toward Van Ness avenue.  
I couldn't see whether he had a gun  
or not. The woman stood swaying a  
moment. It seemed as though she  
was there quite a while, but I guess  
it couldn't have been five minutes at  
the outside. She staggered down to  
Van Ness avenue and then fell. That  
is all I know about it."  
At 9:30 this morning Charles  
White, a pressman on a morning

...I had a quarrel with my husband  
two or three days ago. He told me  
I would have to stop drinking. I left  
the house and went to a saloon. I  
back night last night I went to Mrs.  
Coulson's. I had met her at the  
...I had been employed at  
the Niagara Insurance Company. She  
suggested that she knew a good  
chauffeur, named Acker, and asked  
that we go out and take a ride.  
I gave her an order for my pay  
and she collected it. I ordered the  
automobile. We went out to the  
beach and finally at 1 o'clock this  
morning I was tired and had been  
drinking and insisted upon taking a  
room at the Claremont. We went up-  
stairs and I went to bed.  
...I wanted Mrs. Coulson to stay with  
me, but she was afraid and said she  
had to get home. Acker took her  
back and promised to return for me  
at 10 o'clock this morning."  
Mrs. Stafford was then told of the  
shooting and hurried out to the hos-  
pital to comfort Mrs. Coulson. It is  
said that Stafford was going to move  
from his hotel and had his trunks al-  
packed. Mrs. Stafford knew nothing  
of this.

...Mrs. Stafford was then told of the  
shooting and hurried out to the hos-  
pital to comfort Mrs. Coulson. It is  
said that Stafford was going to move  
from his hotel and had his trunks al-  
packed. Mrs. Stafford knew nothing  
of this.

paper, who had been drinking, called  
at the Central Emergency hospital  
and asked for Mrs. Coulson. He was  
detained by the officials until the  
police could be summoned and was  
closely questioned by Detectives Be-  
langer and Gallagher, who were  
closeted with him for an hour.  
Mrs. Coulson lapsed into uncon-  
sciousness this morning. She was  
shot at close range, as was evidenced  
by powder marks which cover her  
face.

White had had an opportunity to  
...Mrs. Coulson before the

...that she had said to him, "I think  
Arthur must have been waiting in the  
neighborhood and expecting me to  
come in in the machine. He probably  
saw us enter the garage and waiting  
his chance came in and shot me. That  
is the only way I can explain it."  
The detectives hesitated about in-  
terviewing the woman themselves, be-  
cause she gave them no information.  
She protested that she did not know  
who shot her, but she talked to  
Detectives Jackson and Caspel, earlier  
in the day. They therefore encouraged  
...to question her and in the presence  
of a nurse she said, "I think Arthur  
shot me all right. I don't seem to  
remember very clearly."

...HAD BEEN DRINKING.  
The haziness of Mrs. Coulson's  
recollection is believed to have been  
due to the fact that she had had a  
number of drinks before the shoot-  
ing. It is claimed that when she  
was first picked up on the street she  
said to Jack Ricks, who ran up as  
Scudder was trying to revive her,  
"Who shot me? But I am not  
going to tell you or anybody else."

Detectives went in search of Mrs.  
Stafford and she was found by Motor-  
cycle Officer Pidgeon at the Claremont  
Hotel, thirty-sixth avenue and Pul-  
ton street. She was brought to head-  
quarters and gave her name as Mrs.  
Mary I. Stafford, 640 Turk street.  
She had been drinking considerably,  
but made the following statement:  
"I had a quarrel with my husband  
two or three days ago. He told me  
I would have to stop drinking. I left  
the house and went to a saloon. I  
back night last night I went to Mrs.  
Coulson's. I had met her at the  
...I had been employed at  
the Niagara Insurance Company. She  
suggested that she knew a good  
chauffeur, named Acker, and asked  
that we go out and take a ride.  
I gave her an order for my pay  
and she collected it. I ordered the  
automobile. We went out to the  
beach and finally at 1 o'clock this  
morning I was tired and had been  
drinking and insisted upon taking a  
room at the Claremont. We went up-  
stairs and I went to bed.  
...I wanted Mrs. Coulson to stay with  
me, but she was afraid and said she  
had to get home. Acker took her  
back and promised to return for me  
at 10 o'clock this morning."  
Mrs. Stafford was then told of the  
shooting and hurried out to the hos-  
pital to comfort Mrs. Coulson. It is  
said that Stafford was going to move  
from his hotel and had his trunks al-  
packed. Mrs. Stafford knew nothing  
of this.

packed. Mrs. Stafford knew nothing  
of this.

## WOMAN WREAKS TRAGIC VENGEANCE

Threatened With Divorce She  
Shoots Husband; He  
Will Die.

(Continued From Page 1)

refused. Following a furious quarrel  
the man went into an adjoining room  
and retired. After he was asleep his  
wife, drawing the revolver, crept into  
the room and shot him as he slept,  
later creeping into the basement,  
where she hid.

Police, hearing the shot, rushed into  
the house, and finding the injured  
man on the bed, began to search the  
house. Hearing them approach the  
woman shot herself through the left  
breast. The bullet lodged in her  
spine, paralyzing the lower portion of  
her body.

...SHOT THROUGH STOMACH.  
The man was shot through the  
stomach. His injuries were pro-  
nounced fatal by the physicians hur-  
riedly summoned to the scene of the  
tragedy.

The couple were removed to a hos-  
pital, where both were operated upon  
in an attempt to remove the bul-  
lets. After the operation the physi-  
cians decided that the woman had  
a fighting chance for life.

The tragedy follows domestic in-  
felicity of some standing. Some time  
ago, following a dispute, the woman  
went to San Francisco to live and the  
man filed a divorce suit. Reporting  
the woman came to Antioch in order  
to induce her husband to withdraw  
his complaint and live again with her.  
Arriving Wednesday, she brought him  
to "make up," and later returned to  
make the same plea. When he re-  
fused to take him with leading a  
double life, declared that she knew  
he had another wife and a child in  
the East, and finally when he slammed  
the door of the other room and went  
to bed she seized the revolver and  
fired.

The couple have one son, Earl, 16  
years of age. Mrs. Kray has been em-  
ployed as a cook or maid in Pitts-  
burg for some time and was well  
known in Antioch.

...DEPUTY SHERIFF ARRESTED.  
James Owens, a deputy sheriff, was  
arrested at an early hour this morn-  
ing on a charge of drunkenness and  
was released on \$5 bail. When ar-  
rested Owens had his loaded revolver,  
handcuffs, star and whistle in his  
possession. The arrest was made at  
Twenty-second and Grove streets by

## SULZER'S AIDE LODGED IN JAIL

Remanded to Penitentiary by  
Assembly for Refusal to  
Answer Questions.

(Continued From Page 1)

ment were read brought a crowd this  
afternoon.

...IMPEACHMENT ARTICLES READ.  
After the vote Judge Cullen directed  
Clerk McCabe to read the articles of im-  
peachment. The motion by Senator Pol-  
lock of New York that the reading be  
dispensed with was lost and the clerk  
began slowly the reading of the lengthy  
articles.

...What answer does the respondent in-  
terpose to the articles of impeachment  
filed by the Assembly?" queried Judge  
Cullen, when Clerk McCabe had finished  
his reading. Herrick stated that, pursuant  
to the notice of yesterday that objection  
would be made to the validity of the im-  
peachment, he is opposed to the proceed-  
ing.

Attorney Marshall, reading from a pre-  
pared brief, first asked that the entire  
proceedings be dismissed on the ground  
the "court is without jurisdiction and  
the charges are null, void and of no  
effect."  
The principal attack was directed  
against the constitutionality of the ac-  
tion of the Assembly in adopting the im-  
peachment articles during an extraordi-  
nary session, when the subject matter  
was not on the calendar of the govern-  
ment.

...Governor Sulzer did not recommend  
the subject of his impeachment," said  
Mr. Marshall, "nor did he in any way  
suggest the consideration of any against  
himself."  
RECESS TO CONSIDER.  
When Attorney Marshall concluded  
Judge Cullen asked if counsel for the  
prosecution contemplated taking issue  
with any of the facts as distinguished  
from the points of law raised by the gov-  
ernor's counsel. Judge Parker asked for  
a five-minute recess while he and his  
colleagues considered the matter.  
However, Judge Cullen ordered the  
usual noon recess and adjournment was  
taken until 2 p. m.

The rules adopted by the high court  
provide for daily sessions, except Sat-  
urday, from 10 a. m. to 12:30 p. m. and  
from 2 to 5 p. m. On Mondays the  
court will convene at 2 p. m. and sit un-  
til 6 p. m. and on Fridays the hour of  
final adjournment will be 9:30 p. m. The  
hours may be changed from time to time  
by the court. The conduct of the trial is  
to be governed by the rules prevailing  
in the Supreme Court of the state.

...FRIEND IN JAIL.

Governor Sulzer's personal friend and  
special graft investigator, James C. Gar-  
rison, was arrested at a cell of the  
Albany county penitentiary. He was re-  
manded to that institution by the ser-  
geant-at-arms of the State Assembly  
for refusing to answer questions put to  
him by the speaker after an arrest on  
a charge of contempt. The charges were  
that four legislators sold their  
votes on the resolution impeaching Gov-  
ernor Sulzer.

Plans by the Sulzer faction today were  
to obtain a writ of habeas corpus from  
the Supreme Court for the release of  
Garrison.

...HABEAS CORPUS IMPOSSIBLE (7).  
Majority Leader Levy said this morn-  
ing, however, that such action would be  
impossible, as the Assembly had no  
power to punish for contempt. "The  
appeal is a mere technicality in a simi-  
lar case several years ago. If the courts  
should hold this view Garrison might be  
kept in prison until next January, when  
a new legislature convenes. The offense  
is unbillable, it is said."

The arrest of Garrison came as a cli-  
max to a weary evening spent by the  
Assembly in an attempt to round up the  
seventy-six votes necessary to pass ad-  
ditional articles of impeachment against  
Governor Sulzer. The body finally ad-  
journed at 2:30 o'clock this morning af-  
ter an impassioned plea from Majority  
Leader Levy for a better attendance  
when the Assembly convened at noon to-  
day. Telegrams were rushed to anti-  
Sulzer assemblymen who were out of  
the city, urging them to return here im-  
mediately. Tammany lieutenants were  
ordered not to permit a single man al-  
ready in Albany to leave. The assem-  
blymen are therefore virtually prisoners  
in the city.

...ARREST IS SURPRISE.

Garrison's arrest was almost as great  
a surprise to many members of the leg-  
islature as it was to him. Threats were  
made several weeks ago to arrest him,  
but nothing was ever done and he made  
no attempt to exit secretly. He has  
been around Albany continuously since  
the impeachment proceedings began, and  
a few minutes before his detention last  
night was strolling about the halls of  
the Capitol. Then out of curiosity to  
see what the Assembly was doing he  
strolled into the chamber. The doors  
were swung inwardly easily for him, but  
he attempted to depart here im-  
mediately. He was seized by the ser-  
geant-at-arms. While Majority Leader Levy was  
presenting a resolution calling for the arrest  
of Garrison he was held a prisoner in a  
cloakroom. When called before the  
Speaker Garrison was without counsel,  
and he refused to answer questions put  
to him.

Meantime numerous and widely vary-  
ing predictions were made as to what  
would be done with Garrison. Again  
Levy took the initiative and presented  
a resolution remanding the prisoner to  
the penitentiary until the close of the  
session, unless otherwise ordered by  
the Assembly. The vote for the resolution  
was 39 to 3.

A short time later Garrison was be-  
ing rushed to the penitentiary. An at-  
tache of the institution today said that  
the prisoner was shown no special fa-  
vors and that the prison authorities had  
no order other than to hold him as an  
ordinary prisoner.

Garrison incurred the enmity of Gov-  
ernor Sulzer's political opponents by his activi-  
ties during the pending impeachment  
proceedings. He was called the govern-  
or's press agent by many.

...ADAMS SUBPENAED  
TO GIVE DEPOSITION

Superior Judge Murphy today issued a  
subpoena directing Elson P. Adams,  
capitalist, to appear before Attorney W.  
S. Wells Jr. on September 23 and 24 to  
make deposition in the suit brought by  
Adams against Samuel D. Prather, Walter  
P. Newbert and the Merced River Electric  
company, also the suit brought by Samuel  
D. Prather against Elson P. Adams as  
special administrator of the estate of the  
late Thomas Prather.

...ORDERED TO APPEAR.

Carlton B. Herrick of Berkeley was  
summoned into Superior Judge  
Brown's court this morning to show  
why he had failed to pay his wife,  
Mary Ellen Herrick \$113.80 alimony  
in compliance with the terms of her  
interlocutory decree of divorce. The  
matter was continued until September

## CITY LIGHTS TOO BRIGHT FOR WORK

Astronomers of Chabot Cannot  
Carry on Observations  
Under Conditions.

(Continued From Page 1)

advantages should be favored. The  
simplest way seems to move. There  
are many good sites, some on other  
parks in the city, where we would be  
able to perform our duties ac-  
curately.

The observatory was founded in  
1884, when Anthony Chabot, one of  
the city's earliest pioneers, equipped  
the building and presented it to the  
Oakland schools. It contains an  
eight-inch telescope, a transit, where  
the city's astronomical time is com-  
puted, and much other scientific ap-  
paratus, including chronographs, sid-  
ereal and mean time clocks, meteoro-  
logical apparatus, a seismograph, and  
all accessories to these instruments.  
The Chabot observatory, among the

wires carry the three strokes of mid-  
day, the sidereal and mean time  
clocks, checked by the astronomical  
transit, doing the work.  
Here, also, the educational lantern  
slides are made for the schools, popu-  
lar lectures on astronomy given high  
school and grammar school students,  
and much original research is done.  
The observatory is also open on even-  
ings to the public, admittance, to  
be determined by the board of educa-  
tion.

Professor Barnabier, in charge of  
the observatory for the past 25 years,  
is one of the country's best known  
scientists. Before assuming charge of  
the observatory he conducted a  
private observatory and had made  
several discoveries of note. He is a  
fellow in the Royal Astronomical So-  
ciety of England, a noted body of  
scientists, and is the inventor of popu-  
lar star photography, originating the  
star slides used for elementary educa-  
tional work in the subject.

Members of the board of education,  
under whose direction the observa-  
tory is, are considering the problem  
confronting the institution, and a re-  
port will be made at an early meeting  
of the board on the matter.

## 'Unfair' Books Cause Pupils to Join Strike

DUBLIN, Sept. 19.—Fifteen of the  
transporters who joined the Irish trans-  
port strike were hurt in a riot near  
Dublin today. They struck because the books  
used in the pro-Catholic school are sun-  
dried by a firm with which the transport  
workers have a quarrel.

## LAD'S CONFESSION LEADS TO ARREST OF GANG

SAN FRANCISCO, Sept. 19.—A boy's  
confession at his mother's knee and the  
latter's determination to bring a half  
dozen boys to justice led to the ar-  
rest this morning of Jack Delino, Duke  
Schlessinger, Ralph McKenna, Barn Kel-  
ly, Harold Kane, and William Attinger,  
aged 15, who made the confession. All  
are in detention at the city prison.  
They are the boys who held up K. S.  
Sawara and A. Maturo, Japanese at the  
corner of St. Francis boulevard and Lake  
street, several nights ago, after beating  
up a Greek restaurant keeper.

# Fall Suits and Overcoats

## \$25

Twenty-five dollars is a safe price  
to pay for a Suit or Overcoat.  
It is the price that the majority  
of men pay, and if they buy from  
reputable dealers they are as-  
sured of lasting satisfaction with  
their purchases.

Our showing at \$25 is extensive  
enough to please the most par-  
ticular men; it embraces every  
new model for this season and  
affords a wide variety of fabrics  
and patterns from which to make  
selection. Be sure to see these  
superior clothes.

### M.J. KELLER Co.

## VOTE FUND FOR COLUMBUS DAY

The city council this morning decided  
to appropriate \$1000 to assist at the Co-  
lumbus Day celebration. The appropria-  
tion will be made by ordinance tomorrow  
morning. The money will be granted at  
the instance of the joint committee from  
the Columbus Day celebration com-  
tee, the Chamber of Commerce, the Mer-

chants' Exchange and the Progress and  
Prosperity Committee.  
Commissioner of Public Health and  
Safety Turner objected to appropriating  
the fund, when the city has been forced  
to cut down on a tax he termed "breal  
and wasteful expenditure."  
Do you think this celebration is more  
important than a drill tower for the fire  
department?  
The query was not answered and the  
resolution was passed.

...SALESMAN ARRESTED.  
Edgar W. Morrison, a salesman  
formerly a deputy coroner in Oak-  
land, was arrested last night on a  
misdemeanor charge of embezzlement charged  
by M. Levy, who alleges the em-  
bezzlement of \$21.

...TO HOLD PICNIC.  
The Anti-Japanese League of Ala-  
ameda county will hold its first annual  
benefit picnic at Lafayette Park, Stegs  
junction, next Sunday.

# Autumn Millinery

Interesting Reminders of the Unequaled  
Advantages at Your Disposal at Gerwin's

Attractive Styles, Broad Varieties,  
Low Prices, Featuring

## Trimmed Dress Hats

**\$7.50 \$10.00 \$12.50**

Included are velvets and plushes, in many cases  
ostrich trimmed. In a skillful manipulation of the  
better style ideas introduced by the leading for-  
eign designers we evolve artistic loveliness,  
clever effects and catchy exclusiveness. Visit the  
Gerwin Trimmed Hat Department, Mezzanine  
Floor.

### Untrimmed Hat Section

It is difficult to imagine the large extent  
of this department, abundant with new ideas,  
and you are sure to find the hat you have in  
mind. Whether you want the last hats from  
abroad or the least expensive kinds, we have  
them and in better assortment than any store  
in town.

### Feathers and Flowers

Our Ostrich Department—Fancy Feather  
and Wing Sections—also trimmings and  
flower departments are complete in their as-  
sortments as well as leading in the import-  
ant matter of price. Ask to see the unusual  
value in Ostrich Plumes we are featuring at  
\$5.00.

## The Most Unique Window Display Ever Made in Oakland at Gerwin's for the Next Few Days

The "Big Hit" during Fashion Show Week in San Francisco was the display made  
by Charles Brown & Son, 871-873 Market street, of an X-Ray diaphanous costume  
and about twenty-five hats fashioned entirely from their complete stock of house-  
hold goods, hardware, sporting goods and similar materials. Through the courtesy  
of this firm we are placing the same on exhibition for a few days in the Gerwin  
arcade windows and we cordially invite you to come and enjoy a good laugh. The  
ideas and originality are really wonderfully clever and well worth while seeing.

## SELECTED AS CHICAGO'S PRETTIEST WORKING GIRL

RAE POTTER WILL AGAIN ASSIST  
IN PUBLIC RECEPTION AT  
KAHN'S SATURDAY.

Selected by Lillian Russell in Beauty  
Contest Conducted by Chicago  
Tribune.

Miss Rae Potter, "Chicago's most beautiful working girl," will participate in public receptions to be given at the "Melrose South" on the main floor of Kahn's Saturday, September 20.

Miss Potter, whom Miss Lillian Russell, the actress, selected as the most beautiful of thousands of women who participated in the Chicago Tribune beauty contest, will receive the women of Oakland from 10:30 to 1 and from 2:30 to 4 o'clock Saturday at drug department, Kahn's. She will give away pictures of herself, dis-

MISS RAE POTTER

pensing them from the booth where the Melrose face preparations are shown.

Although Miss Potter, of course, had known she was far from bad looking, she was surprised, she stated last night, to awake one morning to the fact that Miss Russell had selected her photograph in the contest to discover who was the most beautiful working girl in Chicago.

Miss Potter, who is 18, was a telephone operator at the time she submitted her photograph as much in fun as anything else, she says.

"The photograph was a cheap one," Miss Potter said. "I was wearing a messenger bag. But some of my friends insisted that I should send it in."

"That is the prize—that was the first thing in the world I thought of."

The reception will be held at Drug Department, Kahn's, Saturday (tomorrow).

## BIDS RECEIVED FOR CITY DREDGE

Municipality Plans Doing Own  
Harbor Work on Estuary  
Quay Wall.

Bids were received by the City Council this morning for a dredger to be used in the municipality to do its own harbor work. The plan of having the city do its own work has been tried out by San Diego with success according to statistics received from that city by Commissioner Anderson of the department of public works.

Anderson stated this morning that he had a good basis to work on, as he considered the competition good and the proposals reasonable. The contract for dredging in front of the estuary quay wall had not been let, pending the examination of the dredger bids, and if it is estimated that the city can purchase a dredger and do its own work by approximately the same price, the dredging contract will not be let.

The bids received this morning were referred to Anderson and the legal department as follows:

Standard American Dredging Co., \$65,000; extra, \$35,000 for accessories.  
San Francisco Dredge Co., \$78,450.  
J. R. Parker, \$63,213, for transformers, \$10,000.  
The Tuba Construction Co., \$76,000; first alternate, \$50,000; second alternate, \$71,000.  
United Iron Works, \$55,450.  
Clark & Healee Construction Co., \$55,450.  
George & Scott Iron Works, \$55,450.

## HEAR DISTRICT TRACTION PLANS

Downtown Improvement Club  
Addressed by Mayor Craig  
of Berkeley.

City Clerk Frank M. Smith, Mayor Hugh E. Craig of Piedmont and Charles Gorman were the three speakers last night at the session of the Downtown Improvement Club held in a local restaurant, where the project of the municipal traction district, being agitated by different civic and commercial organizations, was taken up.

Mayor Hugh Craig of Piedmont told of the formation of the present movement to form a district and secure the

building of the street car system, and, like the resolution passed at a recent meeting of this organization, favored the elimination from such proposed purchase of the Key Route system. He stated that this movement was brought about by the trustees of the Smith interests when 16 miles of new streets were ordered to be built in Berkeley and the road was ordered to do its share of the street work. This committee stated that they would not be satisfied until the road replaced it with new, as there was not the means at hand. The new work demanded by Oakland, Berkeley and Alameda would amount to \$570,000. The mayor of Berkeley then said if the road could not keep up its portion of the streets it was time to throw up the sponge, and the result of the meeting of mayors and heads of municipalities on this side of the bay is a

### REPRESENTATIVES IN EUROPE.

Today representatives of the allied companies are in Europe trying to interest capital. The Hanford option holds until December 25. Of the Terminal Railroad Company, the Oakland Traction Company furnishes 70 per cent. The report of the company to the state railroad commission shows that the 255 miles of track cost \$70,000 a mile and a stock value of \$110,000 a mile. During the past three years an average melon of \$50,000 a year has been put in addition to the interest on bonds paid, and the amount has been divided each year. The sworn figures show \$800,000 dividends.

As to the Key Route, it has a wharf 17,000 feet in length and it must be borne in mind that the trolley works day and night and on Sundays, the steamship line is a great one, especially on today's day, and shows that as a collision at good speed on the bay, the Titanic disaster would not begin to equal it, we can get along with the land portion of the car system and let the water part go elsewhere. The report for 1912 and 1913 average \$4,400,000 and the operating expenses \$650,000; now credit the balance. For the year just closed they show \$2,740,000 and put it to bonded indebtedness, but paid no dividends.

As to the price to be agreed upon, that is a question which will require study. One question that will arise is how long have the franchises to run, how long have they run and what has been the deterioration. There are many questions to be considered.

### COMPARATIVE BALANCE.

City Clerk Walker of Sanborn of Berkeley followed Mayor Craig and presented many of those present with a comparative balance sheet, the figures being those sworn to before the state railroad commission. He also stated that the Gates bill provides the means of requirement. He believed the best thing to do now is to wait until Mayor Mott returns to the city next Monday, and then get the mayors and attorneys of all the cities together and go over this balance sheet, and in other ways figure out the best way to attain the end. Referring to the proposed water district, he said that if the city of Oakland side of the bay voted to go in with San Francisco on the Hetch-Hetchy plan it would take at least 10 years to get the water here, and asked what was to be done in the meantime. Asked by G. Walker in what manner the street improvements of the Traction Company appear in the balance sheet to the railroad commission, Mr. Seaborn stated that they were charged in the operating expenses. There is no consideration, however, of depreciation.

A rising vote of thanks was given City Clerk Frank M. Smith, Mayor Hugh Craig and Mr. Seaborn for their excellent talks.

A rising vote of thanks was also accorded the management of the Native Sons of the Golden West for the magnificent dinner which the recent celebration was handled.

## Glad to Be Home Traveled Globe

HARRY MORTON.

Refreshed by his European trip of six and a half months, Harry Morton, a resident of Oakland, returned home Wednesday afternoon with the impression that California has more charms than any place that he visited in his journey of 30,000 miles, through sixteen countries and 55 of the principal cities of the world. Morton was accompanied by his wife, who is now visiting her daughter, Mrs. C. F. Kinsey of Sacramento, and his son, Robert Morton.

In speaking of his travels he outlined the wonders and fame of the largest countries in the world.

"Japan, with her terraced gardens and fields," he said, "with the profusion of cherry and plum blossoms and the great variety of foliage made this the most beautiful country we visited."

"Korea, a dependency of Japan, we also visited. Many of the Koreans are dissatisfied with this condition, yet it seems to be the best for the future of Korea—the progressive spirit of Japan is changing the 'backward' custom of this people."

"China we found most interesting. At Peking we were received cordially and royally entertained by the new President of the young Republic, who expressed great regard for the United States, and referred to our generous treatment of their country in the matter of the refund of the indemnity paid in consequence of the Boxer trouble."

### VISITS RUSSIA.

"After leaving China we visited Russia, the agricultural possibilities of which are immense, as the soil is very rich and when properly worked yielded splendid crops."

"We were greatly impressed with Germany and the Germans. Berlin and Munich are great cities, the well kept buildings and the manifest cleanliness of the streets and the hospitality of the people being their chief attractions."

"Our visit to Amsterdam was a great disappointment, the buildings were in many instances sadly neglected and the streets positively dirty, considering this is one of the chief centers of the diamond industry, such a condition seemed out of keeping. Our stay here would have been very brief had it not been for our desire to investigate the diamond cutting and polishing, and get a line on the best market in connection with this line for our local business."

"The last country we visited was England. London is a world in itself, and the residents are justly proud of the metropolis of the world. Fourteen days was all too short to investigate the wonders of this city and several months could be profitably spent in investigating the many historical spots. We were taken to Westminster Abbey on Sunday the 10th of August, forty or fifty suffragettes at two different times succeeded in interrupting the service to such an extent that the clergyman was compelled to wait while the wardens removed them from the cathedral."

### GLAD TO BE HOME.

"While the trip has been most charming, and from an educational standpoint all that could be desired, yet there is 'no place like home.' California has more charms than any place visited, we have everything in this country that can be found anywhere in the world, except art galleries and cathedrals, and with these exceptions have more than can be found in any other country. Yosemite, Grand Canyon, Big Trees, Mount Shasta, Tamalpais, Lake Tahoe and nooks or other attractions some day will cause the traveler to turn his attention in our direction."

## HOUSE MOVING

## LAW SET ASIDE

Permit Granted by the Council  
on Strength of Court  
Order.

The city ordinance governing house moving and providing that the approval of a majority of the property owners adjoining the lot to be moved before a house could be moved into the proposed location was made void and the city council granted a permit despite the fact that it had not complied with the technical provisions of the ordinance. The council took this action when the house moving ordinance and the petitioners coming before the council this morning.

Commissioner Turner declared that the court order "knocked holes" in a time honored precedent, and asked that the city attorney prepare an opinion as to whether the laundry ordinance and the house moving ordinance should not be amended to conform to the court decision. The permit was granted with the proviso that the park commissioners should approve of the route, and permit, if necessary, the cutting of branches from trees in the route.

### POLYTECHNIC STUDENTS

### PLAIN SPIRIT WAIST DANCE

The first of a series of social affairs to be given by the students of the Polytechnic Business College will be held this evening at the college building, 306 Broadway street. The affair this evening will be strictly informal. Those in charge of the affair are Mrs. N. Allen, Miss Alice Fisher, Miss B. Irwin and Miss O. L. Fowler.

## PERMIT GIVEN

## POLICE FOR BALL

Coppers Can Dance to Their  
Hearts' Content on  
October 14.

Commissioner of Public Health and Safety Turner objected this morning when Chief Peterson filed an application for the dance permit for the annual police ball to be given by the Widows and Orphans Aid Association of the department because it was the first application for an all night dance under the new ordinance.

"I hardly think that is right," said Turner.

"It is on your recommendation," chief, that we turn down other applications for all night dances," commented Commissioner Anderson.

"Well, many of the policemen don't go off duty till midnight, and they want to attend the ball," said Chief Peterson.

"Will the ball be conducted with rigid police regulation?" demanded Anderson.

"Are you going to allow any 'risky' dancing?"

"We'll have a good dance, well conducted," said the chief.

The permit was granted for the night of October 14 after Peterson and Anderson had laughingly asked to be excused from voting.

## SEEKS PLACE ON

## SUPREME BENCH

Superior Judge Murphey to Be  
Candidate for the  
Justiceship.

Superior Judge J. D. Murphey of Mono county, who is at present presiding in the department of the Alameda County Superior Court, assigned to Judge Donahue, the latter being absent attending the annual meeting of the American Bar Association, is being favorably mentioned as a candidate for Associate Justice of the court.

scattered all over the State, and he is held in high repute by the leaders of the bar.

Judge Murphey has not announced his candidacy but his friends take it for granted that he will run and are free in saying that he is an ideal man for a place on the Supreme Bench.

Judge Murphey is well known in Alameda county as he has frequently presided here in place of local judges off on vacations or incapacitated by illness. He is also a familiar figure in the courts of San Francisco and Los Angeles. By designation of the Governor he sat for some time of Appeals in place of Judge Kerrigan who was incapacitated by illness. He is held in high regard by both the Appellate and Supreme Judges.

As the judicial business of his home county takes but a small part of his time, Governor Johnson has frequently designated him in other counties and is known to have a high opinion of his talents, probity and learning. The experience he

has thus gained is, therefore, wide and varied. He has come in contact with the judiciary and leaders of the bar in all the principal counties of the state, and wherever he is known he is regarded with high favor.

Chief Justice Beatty will retire at the close of his present term, and either Justice Shaw or Justice Angellotti will be a candidate to succeed him. Judge Murphey aspires to the place vacated as Associate Justice. He is a Republican, but will run as a non-partisan, the law requiring judicial officers to run without a party designation.

## FRESNO PARTY HELD FOR RUNNING DOWN MAN

Because the party and automobile an-

swered to a telegraphic description sent from Stockton of a party who had run down a motorcyclist between Sacramento and Stockton and had left him in the road without aid, the police last night took P. C. Bigelow and C. M. Fehr, wealthy land agents of Fresno, into custody, and held Mr. and Mrs. George P. Wells of Fresno under surveillance at the Hotel Oakland.

Wells who is a wealthy Fresno rancher, had motored to Oakland, and with Fehr and Bigelow, and a party of some prospective land buyers on the Pennsylvania when it arrived this morning. Fehr and Bigelow were held at the police station all night.

Investigation showed that the party had been miles from the accident when it occurred and they were released with apologies.

## SUPPLY AND DEMAND FORCE SHOE PRICES DOWN

### Tremendous Loss Sustained by Eastern Factories

OAKLAND, Sept. 13.—You might say the high cost of living is knocked down under foot, as it were, for right here in Oakland hand-made footwear—the finest kinds and makes that usually retail at \$3.50, \$4 and \$5, now can be bought for only \$2.50 a pair.

It is wonderful what supply and demand has to do with the price of merchandise, but it is invariably the case that there are times when manufacturers calculate wrong—overproduce—and then are forced to sacrifice, especially among the makers of footwear.

Business has been exceptionally quiet throughout the Eastern markets, and factories anticipating a big business for the coming fall were disappointed, and finding themselves overstocked have been forced to radically cut prices in order to dispose of their surplus stocks.

H. P. \$2.50 Shoes Store, located at 1110 Washington street, took advantage of these conditions and has the shoes change so rapid.

Mr. Blerce, the manager, upon being interviewed, says: "I have sold many pairs of fine shoes at \$2.50 since I have been in business, but not to my knowledge have I ever been able to offer such choice footwear as this, which I place on sale tomorrow—actually \$2.50, \$4 and \$5 shoes, pumps and oxfords for women, and \$5.50, \$4 and \$5 shoes and oxfords for men—embracing every novelty—every leather and every most wanted style—and the price will be \$2.50 a pair."

"It's really a real opportunity to save from One Dollar to Two Fifty on each pair you buy."

"I invite you to come and see what a splendid assortment I am showing. I think tomorrow will be the best time to come, for each lot will be complete, and the choosing will be best."

Don't forget to call on Mr. Blerce, \$2.50 Shoe Store, 1110 Washington st.

## STUDY OF POETRY PROVES POPULAR

### Classes of St. Mary's Tax the Capacity of Room of College.

So popular has become the study of the development of English poetry among the freshmen and sophomore students of St. Mary's college that the regular classroom has been found unable to adequately seat those attending classes and it is now necessary to hold class in the auditorium. "It is the largest class in this branch of study that has ever entered this institution," said Brother Leo, dean of the department in English literature.

The various fraternities and classes are beginning plans for activities during the coming semester.

Students pursuing courses in music are preparing to organize a society, the aim of which will be to bind together in closer ties the young musicians, who are bent upon pursuing music in later years. Professor Schenck and Thomas J. Leonard of the junior class are acting as organizers of this society. One of the most interesting student movements in the local colleges is that of the study of the history of Emmett McNamee, Joseph O'Connor, Theodore Collins and Edward Dreier are the leaders in the movement.

## KIDNEY AND BLADDER TROUBLES DISAPPEAR

### Chronic Sufferers Find Relief After Few Doses of Croxone

If you are bothered with backache—or rheumatism, have disagreeable, smelly bladder or urinary disorders to contend with—or suffer from any other of the many miseries that come from weak kidneys, here is a guaranteed remedy you can depend upon. It is a positive fact that Croxone promptly overcomes such diseases.

It soaks right in and cleans out the stopped up kidneys, makes them filter and sift out the poisonous waste matter from the blood. It neutralizes and dissolves the uric acid that lodges in the joints and muscles, causing rheumatism; soothes and heals the delicate linings of the bladder.

More than a few doses of Croxone are seldom required to relieve even the obstinate, long-standing cases. You will find Croxone entirely different from all other remedies. It is so prepared that it is practically impossible to take it without results. An original package costs but a trifle, and the drug is authorized to return the purchase price if Croxone fails to give the desired results the very first time.

## COLUMBUS KNIGHTS TO PICNIC SUNDAY

### Excursion to Livermore Will Be Featured by the Dedication.

Everything is in readiness for the excursion and picnic of the boy city knights of the Knights of Columbus, to be held Sunday at Livermore. Right Rev. Edward J. Hanna, bishop of the diocese of San Francisco, will hold an open air mass at 11 o'clock in the morning, while Rev. Peter C. York, pastor of St. Anthony's parish, will deliver the oration of the day. One of the features of the program will be the official dedication of Michael's Academy, the new institution in that place. Bishop Hanna will officiate at the dedication services. There will also be free automobile sightseeing trips, as well as a band concert. The Oakland committee in charge consists of Leo J. McCarthy, chairman; D. J. Ahern, W. F.

## POLICE CHIEF AND CITIZEN INDICTED

### Both Face Charges of Bribery in Connection With Franchise.

SANTA FE, N. M., Sept. 19.—A sensational case has been caused by the indictment of Chief of Police George W. Almirio and Nathan Salmon, prominent merchant, on charges of alleged bribery in connection with the application made recently for the renewal of the franchise of the water company. It is alleged that demand was made on the water company officials for \$20,000 to insure favorable action by the city council. The company is owned by New York capitalists. Edgar L. Street of New York is president.

## TAXPAYERS' COLUMN

All Communications to the Editor of THE TRIBUNE must bear the signature and address of the writer.

**SUBJECTS TO APPROPRIATION.**  
EDITOR TRIBUNE: The Oakland Board of Education is demanding \$10,000 for the purchase of new pianos, \$500 for band instruments, and \$2,000 for the purchase of a new piano for the high school. It is a fact that the board of education is not a charitable organization, but a public body, and it is the duty of the taxpayers to see that the money is used for the benefit of the community.

It is a fact that the board of education is not a charitable organization, but a public body, and it is the duty of the taxpayers to see that the money is used for the benefit of the community. The board of education is not a charitable organization, but a public body, and it is the duty of the taxpayers to see that the money is used for the benefit of the community.

**DISCIPLINE AND MUSIC.**  
It has been seriously stated that music has a disciplinary value in the school room, that it is the charm of the school, and that it is the duty of the school to provide for it. It is a fact that the board of education is not a charitable organization, but a public body, and it is the duty of the taxpayers to see that the money is used for the benefit of the community.

**WOULD DENY DEMAND.**  
The average child has but few years in which to get an education; let these few years be devoted to the acquisition of practical knowledge, things useful in life to knowledge that will count when the child has to provide for a family and support himself.

**WHY HIGH TAXES?**  
EDITOR TRIBUNE: Since you are generally maintaining a tax-payers column, in which those unfortunate may, to some extent, express their contempt for the way they are being imposed upon; and since you are a tax-payer, and am a subscriber to your paper, it seems that your generosity might be shared by yours truly.

Realizing, as I do, that any one who dares to oppose the tax-payers' conditions, or parties, responsible for same, is usually considered a "stuntman" and non-progressive, I am perfectly willing to have my efforts to acquire, improve and beautify property in this city for the last six years, compared with the most progressive of my peers.

When I began, the city tax rate was less than one dollar on the hundred valuation (not providing for schools as now). Since then the rate has gone higher, and higher, until year before last it reached the sum of \$1.38, notwithstanding the valuation had been more than doubled in the meantime.

It is claimed that we are making great improvements, building a new city hall, no excuse for such high taxes, as this is all being done on borrowed money, and we are only paying the interest and a small portion of the principal each year. It has been said that if the Traction Company is forced to keep up with the city in improving streets they will go into the hands of a receiver, where will we be? The city has been making improvements, only to be arbitrarily over-

**THANKS TRIBUNE.**  
EDITOR TRIBUNE: The Sacred Heart Improving Society desires to extend its heartfelt thanks for the very nice treatment accorded to it in the matter of publicity concerning the dedication of Sacred Heart Playgrounds, Forty-first and Grove streets, on August Day. The members of the society all appreciate the many acts of kindness accorded by THE TRIBUNE and were especially pleased at Miss Hess coming to the celebration and the subsequent very fine description of the affair in Wednesday's TRIBUNE. We also thank you for cut of playground published in Sunday's TRIBUNE and the descriptive write up. These courtesies are all appreciated by our membership very much. Again thanking you, I remain,  
JAS. GARTLAND, President.

**WHICH SHALL IT BE?**  
EDITOR TRIBUNE: Water supply or transportation system? Which of the public utilities is it to be? Shall we purchase a water supply or take over the traction system? The present writer, during his visits to improvement clubs and other civic bodies has met hundreds upon hundreds all wanting to go on record as favoring public ownership of public utilities without bothering about water, gas, power, transportation and water corporations. He knows, "the laws of our State provide for bond issues to make possible the taking over of light, gas, power, transportation and water corporations. An indebtedness amounting to 15 per cent of the assessed valuation of the city of Alameda county.....  
Bonding capacity 15 per cent.....  
Including coming infirmity bonds.....  
Possible bonding capacity left.....

Approximate value of S. F. Terminal railways in east bay cities.....  
Approximate value of People's Water Co.'s holdings.....  
Total value both utilities.....  
It has been stated by competent authorities, that the holdings of the S. F. Terminal Ry. Co., exclusive of the Key Route system, could be acquired for \$25,000,000, which would sweep away our bonding capacity, unless the assessment could be raised by about 60 per cent, in which case our county would be able to have a necessary water supply, etc. Undoubtedly the acquisition of our transportation system would be a fair business investment, but would it not be wiser to invest first in an absolute necessity like an ample water supply? As long as we cannot acquire both utilities, we are left with a choice. "Which is it to be?"  
DR. C. WALLISER

## Kidneys Baffle Doctors

Warner's Safe Kidney and Liver Remedy  
the world's greatest remedy for the kidneys, liver, bladder and blood will do for you. It will help you from the very first dose. Put up in two sizes, and each size guaranteed to give you relief. ## LEGAL HOLIDAY

## WINS FUTURITY

Columbus Day May Be Gener-  
ally Observed, Is  
Plan.

San Jacinto of Chino Ranch  
Carries Off Leading  
Cash Prize.

BOSTON, Sept. 19.—A movement to  
make Columbus day a generally recog-  
nized Pan-American holiday by joining  
the observance in this country with Dis-  
covey's day already an event in sev-  
eral Latin-American countries, is to be  
launched here during Boston's Columbus  
Day celebration. An announcement to this  
effect was made last night by a commit-  
tee of the citizens' public celebration  
association, which has the affair in  
charge. John Barrett, director of the  
Pan-American Union, will be the prin-  
cipal speaker at a meeting to be held in  
Faneuil hall, and it is expected that he  
will sound the call for general observance  
of October 12 as a holiday by American  
countries.

SACRAMENTO, Sept. 19.—A Southern  
California horse won the futurity of the  
Pacific Coast Gaited Saddle Horse As-  
sociation at the State Fair horse show  
last night. San Jacinto, a beautiful 3-  
year-old stallion, won first place and  
\$250 of the \$500 purse. Its owner is  
Revel L. English, who bred and raised  
the magnificent colt on his Chino ranch  
near Los Angeles.  
Another English colt, Van Dero, half  
brother to the winner, was third. Sec-  
ond place went to Don Pedro, a 3-year-  
old, owned and ridden by Judge E. A.  
Pittsford of Oakland.

## CONGRESSMAN MET BY THE UNDERTAKER

NEW YORK, Sept. 19.—When Congress-  
man Herman A. Metz stepped off the  
Pennsylvania-Washington express at 8:57  
yesterday afternoon he passed two rolling  
chairs, two stretchers, a mattress, pillows  
and four uniformed undertakers' assis-  
tants who had been waiting to take his  
body to their establishment.  
Attendants and stretchers were there  
because some would-be joker called up  
Mrs. Metz at her home in Brooklyn and  
the congressman's office and said that  
he had been stricken with heart disease  
on the train.  
When Metz learned of the rumors, he  
hurried to Brooklyn to reassure his wife  
and thus escaped questioning by twenty  
or more reporters and several under-  
takers.

## A. L. ADAMS RITES TO BE IMPRESSIVE

Funeral Services for Deceased  
Educator at St. John's  
Presbyterian Church.

The funeral of the late Arthur Lincoln  
Adams, who died last Wednesday even-  
ing, will be held tomorrow afternoon  
from the residence, 634 Oakland avenue.  
Rev. George Eldridge, pastor of St.  
John's Presbyterian church of Berkeley,  
and Graham Lee, a missionary of Korea,  
will read the last rites.  
The active pallbearers will be Dr. G.  
Erwin Brinkerhoff, George D. Gray, H.  
H. Gibben, Frank Riffe, J. B. Richard-  
son and Frank Oakley. W. A. Horn, as-  
sistant pastor of the First Presbyterian  
church of this city, and A. W. Kirkland,  
will act as honorary pallbearers.  
Hundreds of messages of condolence  
have been received at the Adams home  
since his death, which has shocked the  
community. The floral tributes, which  
have been arranged in the spacious par-  
lors, have shown the esteem in which  
he was held by his friends in the bay  
cities, where he lived for thirteen years.  
The body will be cremated.

## SKIRTED 'COPS' LOSE IN RACE WITH THIEF

Fall During Pursuit and Fire  
Wildly at Pursued  
Thug.

Mistaken for Burglars, They  
Are Locked in Room by  
Landlord.

KANSAS CITY, Mo., Sept. 19.—Two

hours this morning, disguised as wo-  
men in 1914 model skirts, hoping to  
capture negro purse snatchers "work-  
ing" in the downtown districts, met  
their downfall when it came to a foot-  
race with one of the thieves.

Edgar Wilson and L. C. Morley,  
among the smallest men "on the  
force," garbed in modish feminine ap-  
parel, took their stand at a transfer  
corner and giggled as effeminately as  
they could, waiting for a car. A negro  
purse snatcher, who was seen to enter  
Wilson's near-silver mesh purse contain-  
ing some old keys and washers, and  
dashed up an alley.

The dainty Wilson called halt in  
passo and drew a revolver. The negro  
was oblivious. Wilson and Morley  
gave chase. They had reckoned with-  
out the sprinting limitations of their  
garb and after frequent tumbles  
abandoned the pursuit. Three bullets  
Wilson sent after the negro went wild.  
They stopped in a rooming house,  
hoping to get into man's clothing and  
the proprietor, believing them bur-  
glars, locked them in a room until a  
police sergeant came and unraveled  
the tangle.

## UNEQUALLED VALUES TODAY Paristyle Hair Goods At Very Remarkable Prices

## SUICIDES RESULT OF DEATH PACT

Woman Who Killed Self Wife  
of West Virginia  
Man.

ATLANTIC CITY, N. J., Sept. 19.—  
Information received by the local au-  
thorities is to the effect that Ada  
Bowles, who committed suicide here  
last month and whose body was iden-  
tified as that of Veronica Bishop of  
Brooklyn, was the wife of John P.  
Davis, said to be a resident of Char-  
leston, W. Va. The police say that the  
fact that she was the wife of a man  
shortly before she killed herself  
was Mrs. Zola Fred Pool of New  
York. In this letter Mrs. Pool was  
requested to have the young woman's  
body cremated and to take charge of  
her personal effects.

The police stated today their be-  
lief in the theory that the girl ended  
her life as the result of a death pact  
between herself and Louis Laroque,  
a New York clubman, who drowned  
himself in Long Island sound two  
weeks prior to her suicide.

W. E. Bowles of West Virginia, who  
claims to be the dead girl's father,  
wired the authorities last night un-  
der the name of John P. Davis, that  
he would be unable to come to the  
city, as he had intended, because of  
the serious illness of another daugh-  
ter.

## STEPHEN M. COSTELLO MAY SUCCEED McNAB

WASHINGTON, Sept. 19.—Stephen M.  
Costello, of San Francisco, may soon be  
appointed United States attorney to suc-  
ceed former United States Attorney John  
L. McNab, according to reports yesterday.  
Costello is said to be the candidate en-  
dorsed by Representative Baker a few  
weeks ago, when Baker went to the White  
House and urged President Wilson to ap-  
point McNab's successor. Representa-  
tives Church and Kettner are said to have  
joined Baker in endorsing Costello.

John D. Preston of Utah, who was con-  
sidered some time ago to be heading the  
race for the job and who had been in-  
dorsed by Representative Kent, is re-  
ported to be out of the running.

**OLDEST MEMBER DIES.**  
PLAINFIELD, N. J., Sept. 19.—  
Mrs. Charlotte B. Poucher, said  
have been the oldest member of the  
Daughters of the American Revolu-  
tion, died here yesterday. She was  
92 years old.

Don't suffer longer with weak kidneys.  
You can get prompt relief by taking  
the little, but wonderful, remedy  
prepared by women everywhere. Sta-  
with a bottle today. You will soon be  
like a new woman with ambition to work  
without fear of pain. Mr. John Dowell  
of San Francisco, writes: "I attribute  
the wonderful effect of Electric Bitter  
to the fact that it cures the kidneys  
and all the ailments that flow from the  
urinary system. Nothing better for indige-  
stion, biliousness, Price, 50c and \$1.00.  
Osceola Bros."

## ENGINEER INSPECTING CAISSON CONSTRUCTION

SAN FRANCISCO, Sept. 19.—Com-  
ing the work of Uncle Sam with the  
pleasures of a honeymoon, Lewis A. Ma-  
son, assistant engineer in charge of the

construction in the Panama Canal  
zone, arrived here with his bride on the  
steamship Pennsylvania yesterday.

The bridegroom will spend several  
hours each day at the plant of the Union  
Iron Works, where the largest caisson  
was constructed is being built for the  
government.

This caisson is to be used at the en-  
trance to the various locks of the canal  
leading out of Gatun Lake. It will be  
214 feet long, 36 feet beam and have  
a depth of 55 feet. It will be built en-  
tirely of steel and will weigh 2500 tons.  
Mason expects that the first ship will  
pass through the canal before January  
1 and that this vessel will steam direct-  
ly to San Francisco.

KAHN'S—Children's Department, Second Floor, San Pablo Section.

## BLANK FORMS MAY PROVE PLOT

Death Certificates in Schmidt's Trunk Point to Diabolical Scheme.

Police Think Man Expected to Bury Victim on Forged Orders.

NEW YORK, Sept. 19.—Detectives delving into the past of Hans Schmidt, who murdered Anna Ammiller, sought to learn what he was in his mind.

Death certificate of Robert Smith, one of his parlor boys. Photographs of this certificate and of blank forms issued by the board of health were found in Schmidt's trunk. The police believe that the man either was making preparations to dispose of the Ammiller girl or planned other murders.

**POLICE SEE PLOT.**  
The police say that a skilled forger like the prisoner would have been able to have the bodies of victims buried in any cemetery by using outcast burial blanks and forging the signatures.

Inspector Pauron announced today that he was looking for another woman in the case. He gave no details of what her connection with the matter might be. The only other woman whose name has thus far been associated with Schmidt's is known as Helen Green, from a letter found in Schmidt's trunk, in which she said she could not live without him. Her name was not signed to the letter, but the address and a telephone number led the police to an apartment house where a woman by that name had lived until about a month previously. There it was said that she had gone to Chicago and that several letters had been forwarded to her, none of which had come back.

Despite protestations of both Schmidt and Muret the detectives are convinced that they are relatives and today investigated a report from Aschaffenburg, Germany, Schmidt's native town, to the effect that Muret is really Adolph Muller, Schmidt's cousin.

### HERBERT TOZIER WOODS KILLED IN ACCIDENT

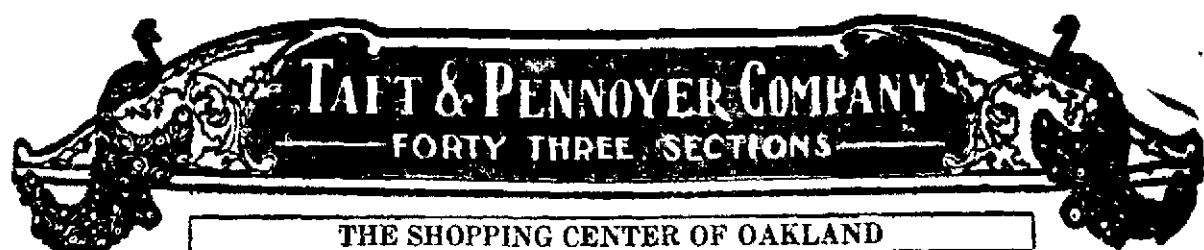

SAN JOSE, Sept. 19.—Herbert Tozier Woods of Cupertino, whose father is a well-known capitalist of San Francisco, was killed yesterday afternoon at Mountain View. Young Woods, who was 27 years old, was visiting the family of Mr. Carter, near Mountain View, and was probably in loading a few boxes of fruit on a wagon. The horses ran away, throwing the bed of the wagon out, and this struck young Woods over the eye, crushing the skull.

### CUDAHY SELL FARM; COMING TO COAST

KANSAS CITY, Sept. 19.—Jack Cudahy, his wife and children are to leave Kansas City and take up their residence in California, probably at San Francisco. A deal is practically closed to sell the 200-acre Cudahy farm near Belton, Mo., to R. M. Creek, vice-president of the International State Bank, for \$225,000. "We probably will be in California by Christmas," Mrs. Cudahy said yesterday.

### MRS. TAFT SURPRISES WASHINGTON SOCIETY

WASHINGTON, Sept. 19.—Society folk are excited over the news that Mrs. William H. Taft, wife of the former president, has written her reminiscences of four years in the White House for a woman's magazine. It is the unwritten law here that no first lady of the land ever permits herself to be interviewed or writes for publication any of her experiences while in the White House.

### BATTLE RAGES

### ABOVE CLOUDS

Alpine Section of Swiss Army Engage in Remarkable Maneuvers.

GENEVA, Switzerland, Sept. 19.—A remarkable program of military maneuvers above the clouds was brought to an end today by 600 mountaineers, forming part of the Alpine section of the Swiss army, who have been engaged for some days in a series of movements among the highest peaks of the Alps. The final maneuver was an attack on an imaginary enemy in occupation of Engishorn, a mountain 10,000 feet high.

The battalion of 600 hardy Alpinists descended this morning from the Jungfrau Joch, 11,140 feet high, where they had bivouacked in the snow throughout the night. They executed a forced march across the perilous Aletsch glacier during a snow storm without the loss of a man from fatigue and ended the feat by storming the Engishorn.

**SAFEST LAXATIVE FOR WOMEN**  
Nearly every woman needs a good laxative. Dr. King's New Life Pills are good because they are timely, safe and so not cause pain. Mrs. M. C. Dunlap of Leadville, Tenn., says: "Dr. King's New Life Pills helped me troubles greatly." Get a box today. Price, 50c. Recommended by Osgood Bros.

### FLORAL SOCIETY

### TO GIVE EXHIBIT

Display of Flowers Will Be Open to Growers of All Varieties.

The first flower show of the Alameda County Floral Society will be held October 8 and 9 at the Oakland Chamber of Commerce. The exhibit will be complimentary in character to the public and every resident of the county is included in the general invitation to visit and examine the first effort of the young organization.

The society announces that the exhibitors will not be confined to the members and that any person who has flowers or plants to display will gladly be given space in the show. It is expected that there will be a good display of dahlias, as these flowers will be most abundant in October, but there is hope also that the autumn crop of roses will be abundant.

Intending exhibitors should communicate with the society or other official. The officers of the society are as follows: President, Dr. J. A. Scannavino; vice-president, Mrs. J. Brannin; secretary, J. M. Carroll; financial secretary, H. T. Fox; treasurer, Mrs. J. Scannavino; directors, Mrs. Theodore Sachau, Mrs. Kern, Mrs. Prosser, Miss Irene Vaughn, Miss Blair.

### RITES ARRANGED

### FOR C. DE YOUNG

Publisher's Funeral to Take Place at St. Mary's Cathedral Tomorrow.

SAN FRANCISCO, Sept. 19.—Arrangements for the funeral of Charles de Young, son of Mr. and Mrs. M. H. de Young, and publisher of the Chronicle, who died on Wednesday night at the de Young country home at San Mateo, were made yesterday. The funeral services will be held at St. Mary's Cathedral tomorrow morning at 9:30 o'clock. From the cathedral the body will be taken to Holy Cross cemetery, where the interment will be private.

At 8:30 o'clock opportunity will be given several hundred employees of the Chronicle to view the body of the late publisher at the family home at 1919 California street. The funeral procession will then be formed and attended by delegations of the fire and police departments. Will attend is Mr. St. Mary's Cathedral. There a requiem mass will be said by Bishop Edward J. Hanna as celebrant, assisted by Father Nathan and Senon.

The body was brought yesterday from San Mateo to the de Young home in California street, where many messages of condolence were received by the family. One of these was from Mrs. Herman Oelrichs of New York City, offering the use of her vault in Holy Cross cemetery until the de Young mausoleum, now in course of construction, can be completed. Her offer was accepted and de Young will be temporarily laid to rest there.

## U. S. RAIDERS TO PAY OWN LAUNDRY

Foes of Moonshiners Refused Reimbursement for Soiled Linen.

WASHINGTON, Sept. 19.—Payment of laundry bills by the intrapud raiders of "moonshiners" and the other guardians of Uncle Sam's internal revenue having been refused, they may in the future appear in public duty with soiled or wilted collars and cuffs and rumpled shirts. Their excuse will be based on the parsimony of the federal government which declines to pay their laundry bills any longer.

In a sweeping decision William H. Osborn, commissioner of internal revenue, today announced that after October 1 he would not pay the laundry bills of his traveling field force, a privilege long enjoyed without specific authority. With economy as the watchword of the commissioner, sustained by the comptroller of the treasury, has further refused to pay traveling expenses of internal revenue store keepers, store keeper gaugers and gaugers while on leave of absence.

### AUTOMOBILE RUNS DOWN MOTORCYCLIST

SAN FRANCISCO, Sept. 19.—Newton Ledesberg, 106 Natoma street, was run down by an automobile in Golden Gate park late last night while he was riding a motorcycle. When he recovered consciousness in the Park emergency hospital he could not tell anything about the accident or how he had been brought from the scene. His right thigh was broken.

Ledesberg was taken to the hospital by a Stork, who made no attempt to conceal his identity and stated he was not sure whether the accident was his fault or that of the drivers of other machines. He said several cars were rounding the curve at the time of the accident and in swerving to get out of the way of the injured man he could not see whether it was his car or some other which struck him.

Law to Prevent Extermination  
ds.

year in California about one hundred and fifty thousand pay a license for the privilege of taking their shot-going out to kill something. It will interest all of those now that the United States Government has passed the Clean bill, taking effect on October first next, looking protection of our birds. "Looking to," is used advisedly. more than legislation, even wise legislation, is necessary the preservation of our fast disappearing wild life. of such laws is measured by the efficiency of their and it is to be seen whether the Weeks-McLean law in on the books merely as a paternal exposition of what thinks should be, or whether the Government will service the army of game wardens—field marshals— to be provided for the enforcement of its regulations.

w authorizes the Department of Agriculture to promulgate regulations for the protection of all migratory, and game birds in the United States. This is done and the country into a northern (or breeding) and a (or wintering) zone, declaring open and closed seasons zones, prohibiting the killing of certain birds for a fixed of years, and of all birds at night, and forbidding such certain migratory birds.

special interest to our California sportsmen are the facts State is in the second or southern zone; that rail, which killed under the State law during the month of November not under Federal restrictions be killed at all until 1, 1918; that ducks, which by State authority may in the various districts from October 1 or 15 until 28 may be killed under Federal regulation only between October 1 and January 15; that shore birds which may under the State law from October 1 to February 28, may not at all under the Federal law until September 1, 1918, the black-breasted and golden plover and the Wilson snipe. These latter under the State law may be taken November 15 and April 30, while the season under the law is from September 1 to December 15.

-ding that the Federal law is valid, sportsmen may be that its terms and provisions will control all State regulation that is to say that the hunter cannot shoot at all in the forbidden by the Federal law. A State will not have the enlarge the open seasons fixed by the Federal law, but in the power further to restrict those seasons so that with the gun can use it only for those seasons which the fix within the latitude of the Federal provisions. this is under the concession of the validity of the Federal on. Here we make haste to say that we hope it may be in all its dips, spurs, angles and sinuosities. We hope artment of Agriculture may prove worthy of this trust, and pass and enforce much more complete and rules than it has yet promulgated, and that amongst ill be one absolutely prohibiting the sale of game. For language of Wm. T. Hornaday, director of the New York Park, and the greatest living American naturalist and y on wild life, "There is an inexorable law of nature to ere are no exceptions. No wild species of bird, mammal le can withstand exploitation for commercial purposes." onstration of the fatal operation of this law in his late "Our Vanishing Wild Life" is as convincing as it is ing and saddening. Therefore, we repeat, we hope that eral laws may be upheld, may be complete in terms and in enforcement. For the time for such actions cannot yed and the Legislatures of the States have shown utter ty and cowardice in dealing with these problems.

the question of the legality of this Federal legislation is e fought by the market hunter and game-hog, and that is by no means easy of answer. No reader of THE NE needs be told that each sovereign State of the United has surrendered to the Government of the United States much of its independent sovereignty as is actually y by the terms of the Constitution, and such other incidents as may be necessary to give effect to those formally (Const. 13th and 14th amendments.)

ownership and right of control over all forms of wild life its territory is unquestionably an attribute of State gnty. Wild game belongs to the State within which it is The individual citizen acquires a property in it only after taken it into actual physical possession. These are state-of axiomatic legal truths.

question then is, where in the Constitution have the surrendered to the United States this power of sovereign over the game and wild life within their borders. For not in the Constitution, the power is still with the States with the United States. We are familiar with the laws touching game and wild life, made applicable in to the territories. But this class of legislation is only the of sovereignty by the United States over lands ady within its exclusive control. (Art. IV, Sec. 3.)

the commerce clause of the Constitution be invoked? e recently witnessed a remarkable extension and appli- of this commerce clause (Art. I, Sec. 8) in the Diggs-tti convictions. The United States could not within its have made the acts of these young men a crime if com- within any State. Only because their acts included to another State was the strong hand of the Federal Gov- able to reach them, and that not because of their real over which, we repeat, the United States had no juris- but because of an immaterial incident to their conduct- ly, that by accident they crossed the State's border. Yet ver in question is scarcely referable to the commerce all expansive as that clause is shown to be.

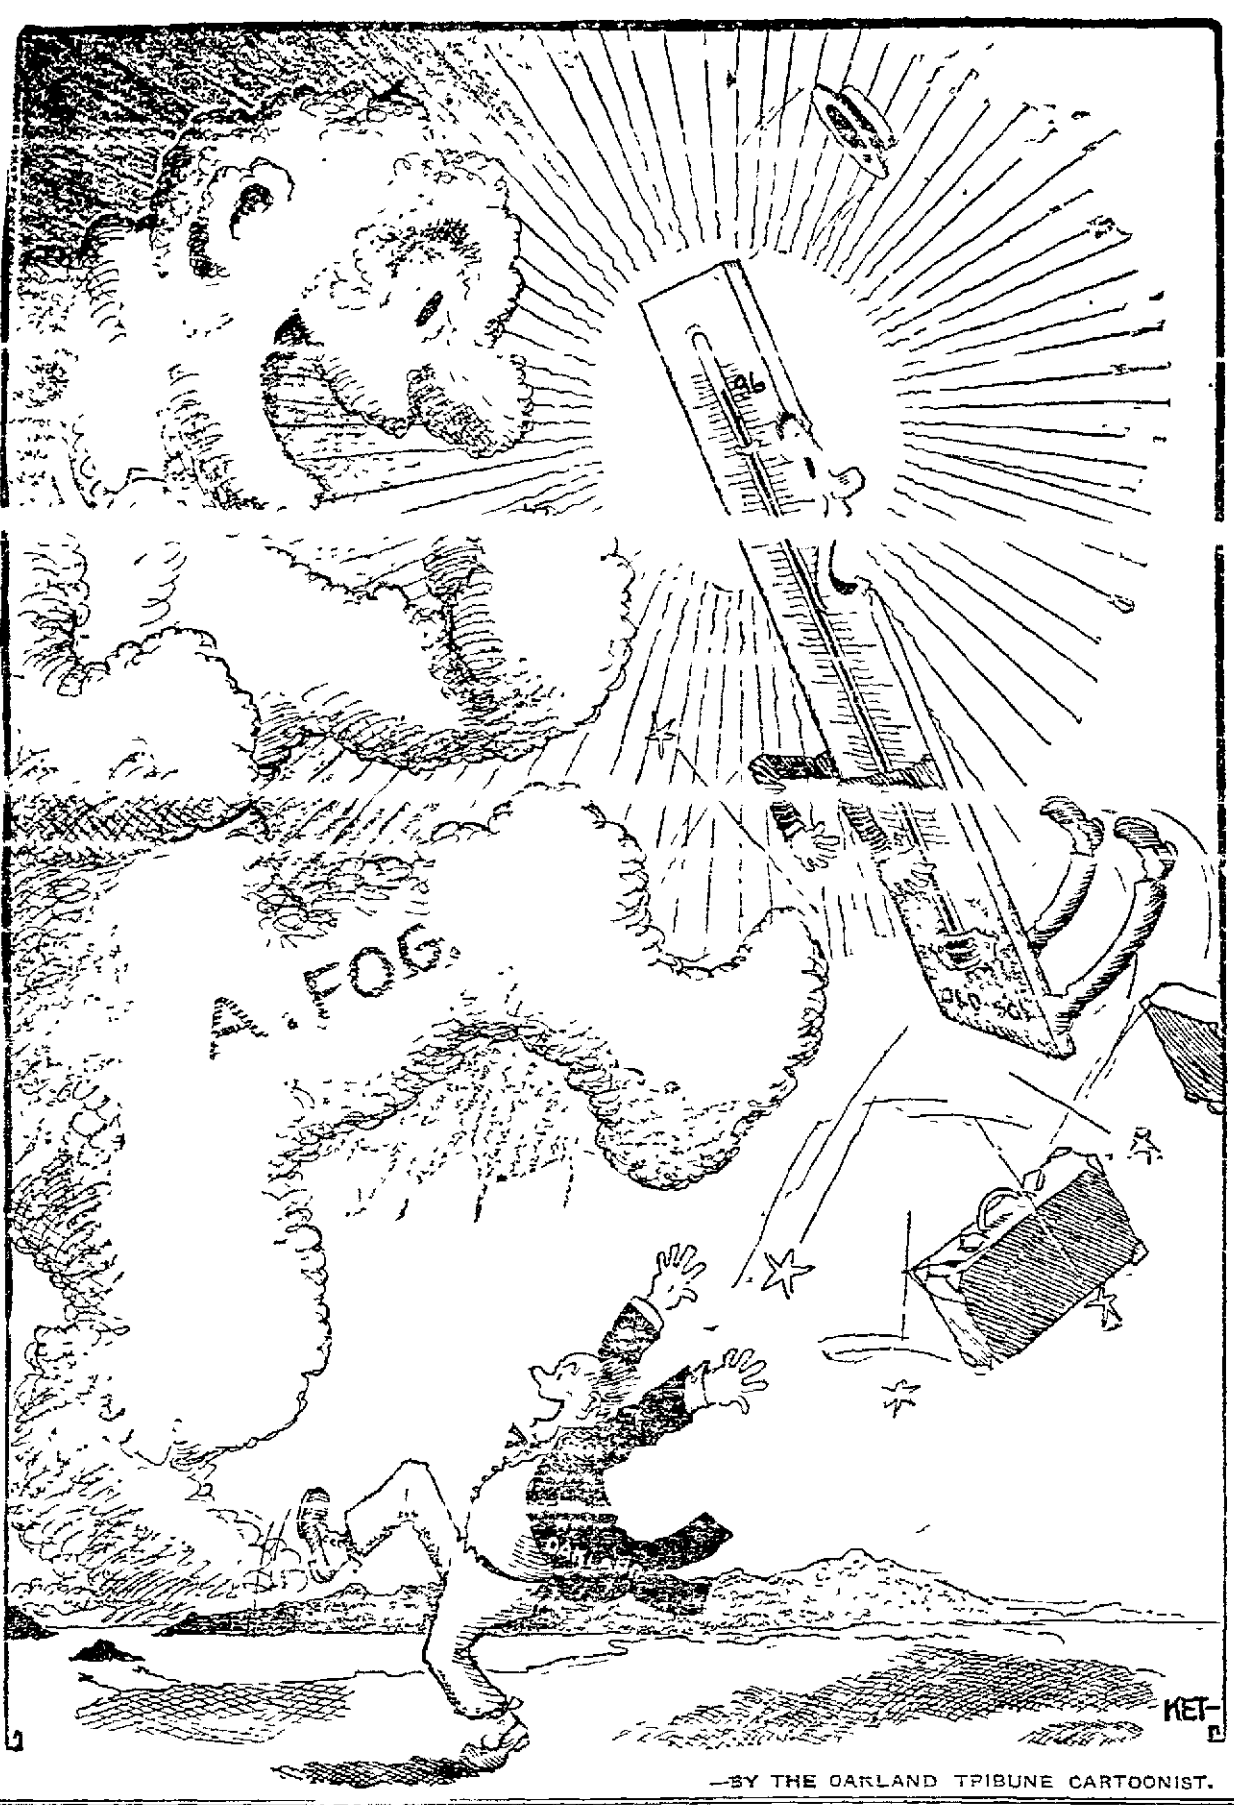

General Government also has power over post-roads. We ok for aerial post-roads. Migratory birds travel in well de- erial courses. But no exponent of our new science of ment has yet contended that the post-road power justifies over such aerial flights and the flyers themselves.

word "migration" is once used in the Constitution (Art. 9), and here may be thought to be a reference to our But that migration has to do with immigration, and of the millions now landing annually at Ellis Island and llions more that are expected on the Pacific Coast with the y of the Panama Canal, praise must be accorded our fore- der their happy provisions in the use of the word. But e not thinking of birds.

ment, the Constitution may be searched in vain for any y by the States of their sovereign police power over this It is from the great undefined "police power" that such e draws its warrant—the power to limit private rights y for the good of all—the power which wittily has been e that which makes an unconstitutional law constitu-

we ask the learned jurists at Washington er where the States have surrendered that power or e of it which justifies game legislation affecting the

wild life within their sovereign jurisdictions. Particularly we ask that great constitutional lawyer, Secretary Bryan, so reply. And at his next Chautauqua when he does reply, will he also explain how and why under the stern Democratic doctrine of State sovereignty he and the President can reconcile to their principles and consciences this bold and brazen encroachment upon the greatest and most cherished attribute of State sovereignty—the Police Power?

One branch of the Federal legislation is beyond the reach of successful attack. By virtue of the commerce clause of the United States Constitution it is unquestioned that the general government has full dominion over all navigable waters, and it may legislate concerning them as it wills. Therefore it may do as it has done and forbid shooting on certain waters. The only just complaint in this regard is that the regulations are not broad enough. Let us briefly instance the fate of the canvas-back duck. Its winter habitat were the shallow brackish bays, sounds and estuaries of the Atlantic Coast, notably Chesapeake Bay. It is a diving duck, getting its principal food from the small shell-fish and crustacea found in abundance in such waters. For its vegetable food it left the open waters and resorted to the nearby marshes. But the open waters were its winter home, its feeding ground and resting place. Here it congregated in flocks of thousands and tens of thousands. These flocks were known as "beds," and these beds of canvas-back not many years ago whitened these waters for acres.

But they were not protected in these watery "using grounds." They were harried by sneak-boxes and floating batteries; they were tolled within reach of the shore by trained dogs; they were pursued by sailing craft mounting swivel-guns; they were slaughtered at night in the same way, dazzled by the flare of lamps and torches. Of the myriads of canvas-back ducks that frequented the eastern waters, what are left? Let Mr. Hornaday answer:

"The canvas-back duck had the misfortune early in its history to attract the evil eye of the deadly epicure, whose look of approval is a blighting curse to any living creature on which it is bestowed. Because of this the unfortunate canvas-back is now little more than a bird of history. It is of no present interest outside of museums and the zoological parks and gardens which have been so fortunate as to receive a very few specimens. \*\*\* It is unnecessary to describe this species, for it is probable that no one of the readers hereof will ever see one wild and unlabelled." (Hornaday's Am. Nat. History.)

Such is the brief life history of the canvas-back duck of the Atlantic. We have the same duck on the Pacific Coast. It is peculiarly a North American duck, and when we have completed the extermination so successfully carried out on the Atlantic, it will be lost to the world. Its habits here are the same as in the East. It loves the shallow brackish waters of San Francisco Bay, and particularly of San Pablo Bay, where it used to congregate in myriads. The Greek and Italian fishermen gill-netted them by thousands and drowned canvas-backs sold in the San Francisco market for twenty-five cents a pair. Today their hosts have been so depleted that probably no more than ten thousand are left to winter in our tempting but hostile waters. Netting is no longer practiced. But the open waters are filled for miles with baited batteries; every Greek and Italian fishing boat is now propelled by power, and every such boat carries shotguns for harassment and slaughter; countless swift launches move down on them for their destruction in violation of the law. For what can the Fish and Game Commission do for the patrolling and protecting of these waters with one launch?

It is certain that before five years have elapsed the history of the Pacific Coast canvas-back can be told in Mr. Hornaday's words. The Department of Agriculture should be asked to add this bird on the absolutely protected list, or should at least forbid its killing upon all navigable waters of the country. The City of Oakland is in a peculiar degree interested in seeing that this is done. In Lake Merritt, in the heart of the city, winter a thousand or more of these birds. They are under full local protection and become amazingly tame and confiding. They are a joy and a wonder to all visitors and nature lovers. Their fate is sealed unless national protection is extended to them.

RAILROAD-BUILT TOWNS

Empire building has become, in literal truth, a business of the railroad. In scores of instances a railroad bounds the town before the locomotive reaches there. Streets are laid out, contracts made for hotels, theaters, stores, and factories, all before a stone is turned a brick laid, or rail driven in the embryo city. As soon as the road begins to operate its trains it has good business. Town promotion follows, an activity in which the railroads annually spend millions. Such has been the origin of the Texas towns of Spur, Freepore, Haskell, Wichita Falls and Fort Stockton. Many others could be cited in other western states.

Probably the latest place to order town is Roaring Springs, Texas. A few months ago there was a barren plain at Roaring Springs. Then the Quaker Agency & Pacific Railway decided to extend there. Settlers began to pour in and located opposite the site in tents, shacks, and teams were put to work grading streets. A few days after the main street was graded temporary frame stores, restaurants, etc. were erected. These now will be replaced with stone, brick and steel structures, just as fast as the material can reach the city.

Where a few months ago the howl of a stray wolf would be heard, now appears a bustling little city of a thousand—Boston Transcript.

### "Marry or Go to Jail" He Says, But Judge Says "Nix"

SAN FRANCISCO, Sept. 19.—Aspasior Adams refused to marry James Phillips, of 723 Howard street, who had been paying her attentions and who had given her a \$75 watch. Phillips had her arrested for embezzlement and the case was called yesterday in Judge Sullivan's court. Phillips explained the situation.

"Well, then, if she marries you, what will you do?" asked the Court.

"I will have this case dismissed," said the complaining witness.

"And if she refuses to marry you?"

"She will have to go to jail."

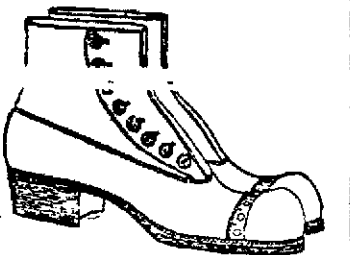

"Miss Adams said she wouldn't marry Phillips under any circumstances."

"I have to set aside your sentence," declared his honor. "The case is dismissed. Your remedy is in the civil court."

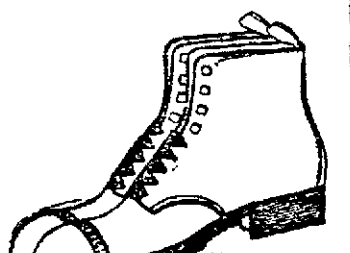

Style 37

### CROSS-COUNTRY WAGER IS WON BY WESTERNER

NEW YORK, Sept. 19.—C. H. Smith, a San Francisco theatrical man, is \$10,000 richer by reason of having crossed the continent in thirty days in an automobile. The \$10,000 represented wagers made with friends who did not believe the feat could be accomplished.

Smith left San Francisco at 6 p. m. August 19 and arrived at Broadway, N. Y., where he underwent an operation for appendicitis as a result of the strenuous trip.

A warm friend is one who is willing to divide his cold cash with us.

### RESINOL HEALS ITCHING ECZEMA

Completely Cured When Three Years of Other Treatments Did No Good.

June 14, 1913—"Four years ago I developed a bad case of eczema on my face which was not only bad to look at, but extremely annoying by reason of burning and itching. It was in very large sores, looked almost like boils.

"As soon as the disease healed a trifle in one place—always leaving the skin dark—it appeared in another, getting worse as it advanced. After three years' treatment it grew no better, until I found Resinol. I used both Resinol Soap and Resinol Ointment, and after two months not a trace of the eczema remained." (Signed) Miss Beulah Amanda Elliott, Greenwood, Del.

Resinol Soap and Resinol Ointment are also speedily effective in even the stubbornest cases of pimples, blackheads, dandruff, sores and piles. Prescribed by every druggist in the United States. For free trial, write to Dept. 18-R, Resinol, Baltimore, Md.

### BUICK ROADSTER HAS NEW RECORD

Speedy Motor Clips 17 Hours  
From S. F. to Portland  
Auto Time.

#### BULLETIN.

PORTLAND, Sept. 19.—Covered with dirt and almost exhausted from loss of sleep, C. A. McGee of San Francisco, driving a Buick roadster, drove up to the Oregon Hotel at 5:30 o'clock this morning and asked Night Clerk H. L. Luntz and a local automobile editor to sign a memorandum book recording that he had traveled from the ferry building in San Francisco in the remarkable time of forty hours and fifty minutes. McGee was checked out of San Francisco at 12:30 p. m. Tuesday, September 16. McGee was accompanied as far as Grant's Pass by Fred E. Gross. He was piloted through Oregon by Roy Wilson. The time for the 741 miles will stand as a record.

(By EDMUND CRINNION.)

Once again another Pacific Coast road record has been shattered, and once again the laurels go to a Buick car. The latest motor car achievement is the cutting of some seventeen hours from the record between San Francisco and Portland, Ore. The Luntz McGee Gross and Roy Wilson, members of the Howard Automobile Company's staff, go the house for the Portland trip from San Francisco. The Buick roadster, fully equipped, from here to Portland in 40 hours and 50 minutes. This time includes the two hours and 17 minutes consumed in making the boat trip from San Francisco to Vallecito. At 12:30 p. m. on Tuesday the Buick, with McGee and Gross, was checked out of the ferry building and just 40 hours and 50 minutes later the car was checked in at the Howard Company's headquarters in Portland, with McGee and Wilson aboard. The latter having taken Gross' place at Grant's Pass.

The total distance covered was 741 miles, which figures an average of 18 1/2 miles an hour, including the time consumed on the boat trip from San Francisco to Vallecito. Not one mechanical adjustment was required on the run, and only one of the Goodrich tires, with which the car was equipped, was changed, and that because of a puncture.

G. W. McCutcheon, owner and manager of the Howard Automobile Company, in speaking of the latest Buick victory, said: "This record between San Francisco and Portland is one to be proud of, for a car has not only traveled through some of the roughest country but must negotiate some steep, narrow and winding mountain roads that test every part of the mechanism of the car. The fact that the Buick's smallest model could clip seventeen hours from the mark set by a much higher-powered car and one that was driven with four sets of relay drivers is certainly a big thing."

That not one mechanical adjustment was required, which is remarkable, considering the fact that the car was in progress. We figure this showing is about the best record of any car that has ever been made.

#### SOME TRAVELING.

Don Biggs of Stockton has, in the past six months, driven 10,000 miles in a Buick. Six cylinder car. During this period of time Biggs has made ten trips over mountains, from Stockton to Reno. While Biggs does not wish to be considered as one of the owl species, most of his traveling is done at night, leaving Stockton about 8 o'clock in the evening and arriving at Reno about 8 o'clock the next morning, making the trip of 190 miles in 24 hours. Biggs believes he is the best record of any car in the country. His car now is practically as good as new. He is having the car repainted and new tires and wheels. There is \$8,000 to \$10,000 more in the car.

#### LINZ GOES HUNTING.

Fred J. Linz, one of the best known motor car dealers of the bay cities who has recently announced his intention of withdrawing from the Maxwell car agency interests on the coast, left Oakland yesterday for a three weeks' hunting and fishing trip through Idaho and Lassen counties and southern Oregon by motor. On the return trip Linz will journey over to the northern part of Nevada and back by way of Reno, Lake Tahoe, Emigrant Gap, Sacramento and Oakland.

### MRS. COGGINS IS SEEKING A DIVORCE

A suit for divorce against Charles S. Berry, head of the Berry Hotel and Commercial Agency, was filed in the Supreme Court yesterday. Mrs. Berry, who was the widow of Charles Sanford Coggins, a wealthy San Francisco lumberman, alleges that her husband's acts of misconduct began shortly after they were married on March 42, 1912, at Auburn Park, after a courtship of six weeks. Mrs. Berry charges that her husband

### JOHN D. SIEBE, FORMER COUNTY ASSESSOR, DEAD

SAN FRANCISCO, Sept. 19.—John D. Siebe, wholesale liquor dealer and long a resident of this city, died yesterday at his home, 2217 Sacramento street, following an illness of about a month. He was 79 years old, and some time ago suffered a general physical breakdown. He was prominent among the Germans of the bay cities and a member of many fraternal organizations. He was born in Germany, coming to this country in 1870. He lived continuously in this city and early became identified with the city. He was a Republican and served as county assessor.

### MUST FACE OPERATION.

WALLA WALLA, Wash., Sept. 19.—Astrack, with a long history of illness, ex-United States Senator Levi Ankeny is seriously ill at his home and may have to go on the operating

### S. F. HOTEL PROPRIETOR TO LIVE IN OAKLAND.

M. Israel, proprietor of the Hotel S. F., is planning to move his headquarters to Oakland and live in the city. He has a daughter, Miss Gertrude Israel, who is a guest at the Hotel Oakland.

### FREE THEATRE TICKETS

Watch for your name and address in the Tribune—cut it out and bring it to the Tribune office and two seats to the Pantheon Theatre free.

## COUNTRY CLUB'S BACKERS TO MEET

One Hundred and Twenty-five  
Charter Members Will  
Be Named.

SAN FRANCISCO, Sept. 18.—The new Country club, which is to have its grounds and golf links on the old Haynes ranch in the foothills back of Elmhurst, in Alameda county, has now been underwritten, and the forty-four men who have undertaken the task of launching the club will hold a meeting on Tuesday at noon in the red room of the St. Francis hotel for the purpose of organizing.

It is probable that 125 charter members will be named at this meeting, and the complete list will include 350 men, each of the club.

The meeting will elect a chairman of the executive committee, who will name the other members of the committee, and a membership committee, will also be appointed. There is a long list of applications for membership in the club.

The land which has been secured for the golf links is extensive enough to lay out a course of championship length. The club has plenty of water and figures on estimating a green fairway all the year round.

The men who have undertaken to finance the club are:

## JUPITER'S SUCCESS SPELLS PROGRESS

Electrically Driven Vessels Are  
Proven Practical, Is  
Report.

SAN FRANCISCO, Sept. 18.—The following has been received from the Jupiter:

"U. S. S. Jupiter, Sept. 18.  
"Jupiter exceeds expectations of builders. A complete success, notwithstanding terrific head seas. This will revolutionize method of ship propulsion."

Electrical propulsion for ocean-going vessels is a success, according to the above message received yesterday from the naval collier Jupiter.

It spells the revolution of the driving apparatus of warships, as well as commercial vessels.

There are 110 naval vessels now on the ways in the various yards of the world that, it is said, are waiting the message from the Jupiter and ready to adopt the new style of machinery the moment that it is officially pronounced a success.

By generating electricity and then driving the big propellers by motors, the Jupiter has shown the greatest improvements ever made in modern machinery has been accomplished. While, in the present style of vessel, the cost is practically as much whether the vessel is moving slowly or at top speed, the cost of operating the electric-driven motors reduces with the speed.

Another saving in the new device is that of the space. In the modern war vessel every inch of space is utilized and valuable. The new style of machinery can be installed in practically half of the space of the old style.

It is also expected that the speed of vessels will be increased materially and that the shaking and trembling of vessels will be done away with.

## BOY IS INJURED BY EXPLOSION

Lad Drops Lighted Match Into  
Gasoline Drum: Is Seriously Injured.

Curiosity of a small boy brought disaster to 11-year-old Svend Nielsen, 1275 Ocean avenue, Emeryville, last evening, when he dropped a lighted match into the bung hole of an empty gasoline drum at the Southern Pacific stock yards. Heat had generated a considerable quantity of gas in the container and there was a terrific explosion, which blew the head from the drum. Pieces of the iron struck the boy in the left leg, causing a compound fracture, while he was severely burned about the face. A number of other children who were playing nearby were endangered. While young Nielsen was seriously injured it is believed that he will recover.

## INSPECTOR WHITE FINDS WEAK MILK

After Test by Officer Fluid Is  
Poured Into the  
Estuary.

Following the throwing out of many gallons of milk which had soured because it had not been cooled sufficiently during transportation in the warm weather, Deputy Milk Inspector D. W. White visited the dock at the foot of Broadway last night and asked to inspect a consignment of milk which had just arrived. He was refused by the Milk Dealers' Association, on the ground that the milk had been "sealed" and that the association would not permit the breaking of the seals.

The association was represented by Silvera & Shaw. White tried every means to induce the milk dealers to permit the inspection of the milk and they telephoned to the police.

Lieutenant William Woods responded with several patrolmen, and ordered the cans opened. When the inspection was made White declared that the milk was below standard as to butter fat, and the milk of six large cans was poured into the estuary. The dealers' association protested against this action. The milk was the property of the Jersey Milk, Cream and Butter Company.

## TO LECTURE ON TURKS THIS EVENING

"Constantinople and the Turks" will be the subject of a lecture of unusual interest to be given as a part of the regular school schedule tonight at Fremont High school by Rev. H. K. Sanborn, a well-known Oakland clergyman, who was for four years an instructor in Roberts College, near Constantinople. He will appear tonight in Turkish costume and will present 100 stereopticon slides of Turkish scenes, life and customs.

The lecture will be free to the public.

## The Story of a City That Beat the World

for rapid growth and development  
will appear in the Real Estate Section of next SUNDAY'S TRIBUNE.

# COME TOMORROW

The Great Variety of Instruments offered and the remarkably Low Prices for Good Player-Pianos and Pianos are breaking our Sales records IN THIS GREAT

## Clearance of Pianos and Player Pianos

The new Wm. Knabe & Co., J. & C. Fischer, Vose & Sons, B. Shoninger, Kranich & Bach, Kohler & Chase and Andrew Kohler player pianos and pianos are arriving faster than we can make room for them, and we are selling at most remarkably attractive prices to make the room.

A visit to our warerooms will prove to you in a few minutes what you can save by selecting your player piano or piano now at this clearance.

Special this week on  
**Rental Pianos**  
Every Piano rented means that much money for you.  
We will make exceptionally attractive rent terms this week.

Log Cabin Bakery, 18th st. and San Pablo Ave.

Open Tomorrow Evening Until 9:30 o'Clock

**CASCARETS' THE  
BEST LAXATIVE**

If constipated, bilious, headachy,  
Stomach sour—Clean  
up to-night!

Get a 10-cent box now.  
You men and women who can't get  
feeling right—who have headache,  
coated tongue, foul taste and foul  
breath, dizziness, can't sleep, are  
bilious, nervous, and upset, bothered  
with a sick, gassy, disordered stomach  
or have backache and feel worn out  
Are you keeping your bowels clean  
with Cascarets, or merely forcing a  
passage every few days with salts,  
cathartic pills or castor oil?

Cascarets work while you sleep;  
cleanse the stomach, remove the sour,  
undigested, fermenting food and foul  
gases; take the excess bile from the  
liver and carry out of the system all  
the constipated waste matter and  
poison in the bowels.

You out by morning—a 10-cent box  
from any drug store will keep your  
stomach sweet; liver and bowels regu-  
lar, and head clear for months. Don't  
forget the children. They love Casca-  
rets because they taste good—never  
grape or sicken.

**CRACK OF RIFLE  
AT SHELLMOUND**

The Schutzen Verein Members  
Take Part in Annual  
Shoot.

Ninety-six members of the San Fran-  
cisco Schutzen Verein participated in  
the fifty-fourth annual eagle shoot and  
family outing yesterday at Shell Mound  
Park, which was featured by some of  
the finest rifle marksmanship displayed  
this season. About 500 persons attended  
the event.

Henry Dierks, prominent member of  
the Schutzen Verein, shot down the last  
part of the eagle and was decorated as  
"king" of the shoot. Miss Elmina  
Schuster and Miss Gertrude Peters,  
who won the high honor of the shoot, fired  
1000 shots had been fired at the "eagle"  
in a high pole. The shooting was set on  
at twenty-five yards.

Besides winning the honor of "king,"  
Dierks was presented with a gold and  
a handsome scarf. The official "crown-  
ing" of the "king" will take place Thurs-  
day night at the German House, when a  
banquet will be given in honor of the  
winner.

Others who captured prizes were A.  
Huebner, first prize, by shooting the ring  
and head from the bird; William Dresser  
displayed excellent marksmanship by  
shooting off the scepter and right leg;  
Fred Attervorth the neck; John Schmidt,  
the left wing and Fred Goss the left leg.  
The right leg and head was all that was  
left when Charles Oldag exhibited skill  
by hitting the former and Adolf Grantz  
the tail, which left only a small piece of  
the center of the "bird."

WELLS, well, I haven't told you anything  
about metal tubes for a long while,  
but of course, you are always aware  
of the fact that rubber of any kind

will rot under any circumstances--so in talking  
Player Pianos we won't consider any but the  
metal tubed players, for we are not buying our  
Player Pianos for a day or a month or a year,  
but for a lifetime of service. Satisfactory and  
permanent results cannot be obtained from rub-  
ber tubes--so we did away with them several  
years ago--others followed our example, and  
now there is a stampede to get on the metal tube  
wagon--which spells success. Next year or  
the year after you may be able to purchase  
metal tubes in any player piano, but TODAY the  
Autopiano stands alone and supreme in this and  
other essentials. The Autopiano automatic  
tracking device is unfailing and insures perfect  
tracking of all kinds of music at all times. The  
five-point motor has the same advantage over  
the other type as a six-cylinder car has over the  
old two-cylinder. It means continuous and uni-  
form power--not the jerky, lumpy music so often  
heard on players.

AGAIN WE INVITE YOUR COMPARISON.  
We would like you to look at Player Pianos else-  
where, shop around all you want to and don't  
look at anything under \$700. Be sure you see  
and hear the best to be obtained for \$700. Then  
come here and get a better Player Piano, better  
in the artistic rendering of your favorite selec-  
tions, better in tone and better in construction  
for exactly \$457--a saving of \$243. We have  
the Player you would eventually buy even if it  
cost you more money than any of the others--  
but the Ellers enormous business of forty retail  
stores and our little-profit-per-piano-plan en-  
ables you to buy a better article at a saving of  
\$243.

You do yourself and your purse an injustice  
if you fail to investigate this statement.

Terms of \$2 per week may be arranged on  
this wonderful player. Music rolls gratis with  
free exchange library privilege. (A statement  
as strong as the above warrants investigation if  
for no other reason than that of curiosity.) Store  
open every evening until 10 o'clock. Phone Oak.  
340 and our automobile will call for you.

Ellers Music House, 1448 San Pablo avenue,  
next to the new Kahn building.

**SEEK PRICE OF  
LOST CLOTHING**

Parents of Married Woman  
Bring Suit for  
\$232.75.

SAN FRANCISCO, Sept. 19.—Testi-  
mony was taken yesterday in an ac-  
tion by D. H. Bibb, wealthy lumber  
dealer, and his wife, Clara A. Bibb,  
1111 Pine street, against the Morton  
Special Delivery Company to recover  
\$232.75, the alleged value of lost  
clothing belonging to their daughter,  
Mrs. J. A. Spears, 1644 Taylor street.  
The clothing was lost prior to Mrs.  
Spears' marriage.

According to the testimony Mrs.  
Spears arrived in this city on August  
18, 1912, from Paradise Springs, with  
one large straw suitcase containing  
31 pieces of wearing apparel, which  
she turned over to the defendants to be  
delivered to her home.

Among the articles which Mrs.  
Spears avers were not recovered by  
the defendants are:  
One white dress, hand-em-  
broided, Irish lace, \$150.00  
One petticoat, lace trimmed, 1.50  
One white silk hose, 1.50  
One black silk hose, 1.50  
One combination, 2.50  
One piece lingerie, 2.00  
One dress, hand-embroidered, 15.00  
One white embroidered dress, 13.00  
One linen dress, 10.00  
One pink dress, 8.00

PACIFIC COAST MAY  
GET NEW NAVY YARD

NEW YORK, Sept. 19.—Secretary  
Daniels paid a visit of inspection to the  
Commencement exercises yesterday, the site  
to which Captain L. S. Vanduzer,  
formerly commandant of the New York  
Navy Yard, recommends that the New  
York yard be transferred at a cost of  
\$1,000,000. Daniels listened while Van-  
duzer outlined the advantages of the  
Jersey site, but the Secretary of the  
Navy, in diplomatic fashion, finally in-  
dicated that there was small chance for the  
Jersey proposition. Indeed, in cautious  
vein, he intimated that the next navy  
yard to be built would be on the Pacific coast.

"Captain Vanduzer," said the Sec-  
retary of the Navy, "has devised a plan  
which will put the whole Navy in a yard  
on this site, and Captain Vanduzer is a  
very able man. But the crux of the Navy  
situation just now is the opening of the  
Panama canal. We need a big naval sta-  
tion on the Pacific. The Navy needs dry  
dock more than anything else. We have  
new in the East, but fewer still in the West."

"If it should be decided to build a  
big yard on the Pacific would that inter-  
fere with plans for a large one here?"  
the Secretary was asked.  
"It probably would cause delay," he  
replied. "Congress, of course, has to  
make the decision, and if I should recom-  
mend two yards Congress probably would  
say that there was only enough money  
for one."

**LATEST NEWS FROM  
CITY OF RICHMOND****RICHMOND ELKS  
HAVE NEW HOME**

Second Anniversary Will Be  
Celebrated in \$80,000  
Building.

RICHMOND, Sept. 19.—Tonight will be  
a gay one for the Richmond lodge of  
Elks. The celebration of its second an-  
niversary is to take place, this time in its  
new \$80,000 lodge building on the corner  
of Tenth street and Macdonald avenue.

For the celebration and ceremonies which  
are to be held this evening and the com-  
mittee announced that everything will  
be in readiness for the big event, not-  
withstanding the fact that the home is  
not yet entirely completed. Today are  
lights are being installed in the second  
story of the new four-story building,  
where the lodge rooms are located. The  
lodge will start at 8:30 o'clock with a  
short address by Dr. Rowell, of Berkeley,  
followed by short talks from the exalted  
rulers of Berkeley, Oakland, San Fran-  
cisco and San Jose.

ing A. C. Lang. There will be musical  
numbers by local and outside talent and  
a whole lot of interesting features. The  
whole to be followed by a banquet in the  
dining hall of the new building. The  
Berkeley Elks Club will be present and  
participate in the festivities, and a large  
number of members from all the bay  
cities have signified their intention to be  
on hand and help celebrate the new  
Elks' home.

Sixteen of the twenty bachelor quarters  
in the upper stories of the building have  
been taken. Two rooms are to be kept  
for transient Elks.  
Several local and Oakland firms are  
bidding for the entire ground floor on a  
long term lease.  
Much interest is being shown in the  
work of the day sculptor who is model-  
ing the designs for the club and lodge  
rooms. The statue glass for the lodge  
rooms arrived yesterday. Besides the  
lodge, club, banquet, billiard and lounge  
rooms the second story will also in-  
clude a ladies' reception room, a dining  
room and everything is to be fur-  
nished in an elegant, but substantial  
manner.

**MANGLED BENEATH  
SANTA FE TRAIN  
EAST BAY CITIES  
IN GREAT PARADE**

George Hayes, of Truckee, Is  
Killed Near San Pablo While  
Walking Track.

RICHMOND, Sept. 19.—George Hayes,  
unknown here and who had every ap-  
pearance of being a workman, while walk-  
ing along the Santa Fe tracks just north  
of this city yesterday afternoon about 3  
o'clock, was struck by a train in charge  
of Engineer Runyon and instantly killed.  
He was thrown from the track by the  
impact of the engine pilot and was hor-  
ribly mangled before the train stopped.  
The body was instantaneously removed  
and was taken to the San Pablo station.  
The train was backed into this city  
where it was taken charge of by Deputy  
Coroner Smallwood. On being searched  
the clothing was found to consist of a  
sweater, a pair of trousers, a shirt and  
a pair of shoes. The name and address of  
George Hayes, of Truckee, California, and  
the authorities there were at once wired  
for information. It is possible information re-  
garding the unfortunate victim of the ac-  
cident.

According to Engineer Runyon and the  
train crew they whistled twice for the  
man to get off the track and he did not  
he would. For some unknown reason he  
paid no attention to the whistle and kept  
on walking down the middle of the track,  
whereupon the brakes were applied and  
the train brought to a speedy stop as  
possible under the high rate of speed it  
was moving.

**RAILROAD OFFICIALS  
MAKE VISIT TO RICHMOND**

RICHMOND, Sept. 19.—A party of dis-  
tinguished railroad officials of the Santa  
Fe system arrived in Richmond yesterday  
on a tour of inspection of the company's  
properties. Incidentally to look over Rich-  
mond and note the progress made here in  
a general way, and especially as to manu-  
facturing and shipping interests. They  
were met by Station agent Trull and  
Master Mechanic E. H. Harlow and es-  
corted over the yards, machine shops,  
carshops and other departments of the  
company here. A thorough inspection was  
made of the Santa Fe mole, the new  
ferry slips, new buildings and extension  
of the long wharf which composed the party were W.  
E. Storey, vice-president; A. G. Wells,  
general manager; L. L. Hubbard, general  
superintendent; J. W. G. O'Brien, di-  
vision superintendent; F. L. Bean, Super-  
intendent of machinery; G. W. Finston,  
trainmaster. They expressed themselves  
as pleased with the progress made here  
and made by their company at this  
important shipping terminal, and amazed  
at the rapid growth of Richmond.

**RICHMOND NOTES**

RICHMOND, Sept. 19.—The local lodge of  
Moore has completed arrangements for a  
big minstrel show to be given the first week of  
next month in the Richmond theater.  
To inaugurate Smith has been very busy every  
day this week, enforcing the new dog-eating  
ordinance, and has captured and put to death  
about forty about four hundred dogs as  
guinea of extermination. The ordinance pro-  
vides that all dogs running at large must be  
muzzled and be under the control of their  
owners. Police Arnold is now on favorites and let  
be guilty dog escape.

Deputy Sheriff Price, W. J. J. Ravello,  
accompanied by Miss Josephine McLean,  
arrived here yesterday to take Mrs.  
P. H. Hall to Martinez for examination by an  
insanity commission, but were confined that  
the woman was only ill and not insane, and  
went back without her. An insanity charge  
was made by her husband.

A new hydroplane being constructed by the  
Richmond Hydroplane Club will be ready to  
be given a trial within the next ten days.  
The local Moose lodge is planning to con-  
solidate with the lodge of that order in Pinola.  
The Pinole members are to come and join the  
Richmond organization and take an interest  
in the direction of the proposed new lodge  
building which is to be one of the best in the  
city.

Deputy District Attorney A. F. Ormsby  
of Martinez was in town here yesterday on  
local matters pertaining to the office, and in  
an interview acknowledged that he would not  
decide the nomination for district attorney to  
the next political campaign in this county.  
Assemblyman T. D. Johnson is also a candidate  
for this office. Both men have many friends  
in this community.

A basket social in Triton castle next Monday  
evening, at which a large attendance is ex-  
pected.

Miss Annie Weiland, who has been an ac-  
tive member of the past few years, has  
been named as assistant county librarian under  
Miss Whitbeck and will take charge of her  
new position October 1.

G. F. Michelbacher, investigator for the state  
accident board, is holding several new here  
concluding studies regarding the liability of  
accidents in local industrial plants.

**LARGE ATTENDANCE  
BY TEACHERS**

Third Day's Session at Rich-  
mond Made Interesting  
by Lectures.

RICHMOND, Sept. 19.—The third day  
of the Contra Costa Teachers' Institute,  
now in session at the auditorium of the  
Lincoln school here, proved to be one of  
the most interesting ever held. The at-  
tendance was the largest yet.

One of the principal addresses de-  
livered yesterday afternoon was that of  
Prof. T. F. Brownson, superintendent  
of the Santa Rosa public schools, who  
spoke on "Final Examination for Gradu-  
ation from Elementary Schools." The  
lecture was well received and was an in-  
teresting feature of the day.

to show that the present methods of ex-  
aminations were wrong. He showed from  
many letters that one-fifth of the edu-  
cators of the state are opposed to the  
prevailing form of examinations, and  
that the method of grading scholars is  
much more satisfactory.

Mrs. Alice Whitbeck, county librarian,  
delivered an interesting address on "The  
Relation of the County Library to the  
Public Schools," saying in part that the  
creation of the new county library is to  
be a great help, not only to the general  
citizenship, but also toward educating  
the young, because of the children's de-  
partment to be established in connec-  
tion with the library. She said, would also  
be a great help to the teachers of the  
county, as it would provide them with  
all manner of valuable reference books  
and educational volumes from the state  
library and other sources. Mrs. Whit-  
beck's address was an able and in-  
teresting one, and was well received by the  
large gathering.

**ALAMEDA AND RICHMOND MAK-  
ING EXTENSIVE PLANS FOR  
PORTOLA.**

Alameda and Richmond are now mak-  
ing plans for representation during the  
festival of October 22 to 25. The Portola  
committee has been notified by the Alameda  
Chamber of Commerce through its  
secretary, Miss J. Kilham, that that or-  
ganization will be represented by a float,  
two bands, a drum corps, and a mounted  
guard of twenty-five. The plans are in  
charge of a committee named by Presi-  
dent H. Rosenthal.

Richmond will have in line fifty de-  
corated autos, for which a prize will be of-  
fered by the Richmond Industrial Com-  
mission, whose secretary, H. W. Welton,  
has announced the plans. D. A. Knowles,  
appointed commissioner by the Richmond  
city council, is co-operating on the city's  
share in the celebration.

Four thousand members will represent  
the United Ancient Order of Druids in the  
Portola parades next month. The order's  
plans for participation have been an-  
nounced by C. D. Dorn, Past Noble Grand  
Arch for California. Dorn will be grand  
marshal of the Druids section of the pa-  
rades, according to the announcement.  
There will be in line 3,000 men and 1000  
women.

**RICHMOND CONTRACTOR  
BOUND OVER BY COURT**

RICHMOND, Sept. 19.—E. F. Gaylord,  
a local contractor who has been in trouble  
with the police and who was recently or-  
dered on a warrant sworn to by his wife  
for failure to provide, was given his pre-  
liminary examination in Judge Lindsey's  
court yesterday afternoon and bound over  
to the superior court for trial. Gaylord's  
bail was fixed at \$1000, which he has so  
far been unable to procure, and accord-  
ingly he will take him to Martinez this  
afternoon and place him in the county jail.

**MAKE RESERVATIONS  
FOR NEW YEAR'S EVE**

Although the big night is still three  
months ahead, the Hotel Oakland is al-  
ready crowded with table reservations  
for New Year's eve. For this reason the  
hotel has already engaged space, according  
to Maitre d'Hotel Petersen. Notices are  
being sent out to hotel patrons, that they  
may not be disappointed.

**Pruritis a Severe  
Form of Eczema**

A Method of Home Treat-  
ment that is Very  
Effective.

There is probably no other remedy  
so well known as S. S. S. for the blood.  
And it is for this reason that it is the  
best form of skin disease known as pruritis,  
or intense itching. The action of S. S. S.  
is rapid. It cleanses the blood, and the  
active purpose of which is to stimulate  
the system to the healthy selection of  
its own essential nutriment. And the  
medical elements of this matchless  
blood purifier are just as essential to  
well-balanced health as the nutritious  
elements of the meats, grains, fruits and  
sugars of our daily food. These facts  
are brought out in a highly interest-  
ing book on skin diseases, compiled by  
the medical department of the Swift  
Specific Co., 184 Swift Bldg., Atlanta, Ga.  
It is mailed free, together with a  
valuable bottle of S. S. S. to all who re-  
quest it.

Get a bottle of S. S. S. to-day of your  
druggist. It will surprise you with its  
wonderful action in the blood.

Don't accept anything offered you as  
"just as good." The only reason why  
anyone should not try to sell you  
S. S. S. is the large profit made on  
something cheaper from crude drugs.  
Beware of any attempt to persuade you  
to buy something in place of S. S. S.

**VIEW OUR WONDERFUL DISPLAY OF  
Ladies' Trimmed Fall Hats \$4.85**

which we have grouped together for a brisk Saturday selling. A glance at our Wash-  
ington street show windows will quickly convince you that these are not ordinary  
\$4.85 hats, generally advertised as a leader or special by other millinery emporiums,  
but actual \$7.50 to \$8.00 values, showing just that touch of smartness which the Abra-  
hamson Bros. Millinery Dept. is noted for. Come in plush, velvet, satin and smart com-  
bination effects in all the approved colors of the season, and in styles that are depend-  
able, refined and becoming.

**Collapsible \$2.95  
Push Hats**

The tendency of Fashion calls  
for Push Shapes—as usual Abra-  
hamson's Millinery Department an-  
ticipated for the demand and offer  
you for tomorrow selling a most  
stunning assortment in black only  
at the moderate price of \$2.95

**Paonette \$1.95  
and Velvet Sailors**

Another one of our leaders for  
tomorrow's selling is a collection of  
about 50 Velvet and Paonette  
shapes which arrived yesterday by  
express. These come in black only  
at the moderate price of \$1.95.

**MISSIE'S  
TRIMMED \$2.75  
Fall Hats**

The little ones have not been  
neglected either. In our Millinery  
Section and as they enjoy being  
dressed up just like grown up  
folks, we have made up in our  
own workroom a group of about  
25 models in Plush, Velvet and  
Satin, showing the late drooping  
effects, neatly finished with Novelty  
ribbons and flower flowers.

**Ostrich \$2.25  
Ringers**

The latest and smartest of all  
Millinery Novelties which makes  
almost a complete hat trimming.  
We have taken from our regular  
stock an assortment of about 25  
Ringers in all leading shades—  
genuine \$4.00 values and marked  
them for tomorrow's selling at  
\$2.25

Others Ranging in Price  
From \$5.00 to \$10.00

**Come and See Our Late Arrivals in  
Ladies' Tailored \$14.95  
Fall Suits**

Actual \$22.50 values in a complete assortment  
of Women's sizes up to 44. Materials are Diagon-  
als, Cheviots, Mixtures, etc. In the much wanted  
shades of grey, tan or brown. Smart cutaway  
models with either round or square corners.

**Women's \$12.50  
Smart Fall Coats**

These arrived yesterday and are made of fine  
quality half line striped Zibeline—a material  
noted for its splendid wearing qualities. Come in  
¾ length styles in black, navy and brown, trimmed  
with large fancy buttons and rich looking black  
plush on collar and cuffs.

**Our Fall Line in Children's  
Coats and Hats**

is ready for your inspection on our 4th floor. Mothers  
who have been thinking of purchasing a new hat or  
coat for their little ones, cannot make any mistake in  
selecting same at Abrahamson's—the home of fashion  
where style, quality and low price go hand in hand.

**The Coats The Hats**

are too pretty to give ex-  
haustive descriptions here.  
Drooping styles and tui-  
roed effects and come in  
Plush, Velour, Astrachan  
rich and tastefully  
trimmed.

**Confirmation Dresses**

In Crepe de Chine, Marquisees, Voiles and Lingerie  
ribbon and embroidery trimmed, very modern in  
price.

**Main Floor Attractions****Fancy Neck Ruffs**

Broken lines in  
Vests, Tights,  
and Pants. Val-  
ues to 50c. Special  
garment

**SEQUOIA CLUB HOLDS  
IMPORTANT MEETING**

RICHMOND, Sept. 19.—An important  
meeting of the Sequoia Commercial Club  
was held last evening in the club rooms,  
at which several matters of importance to  
Richmond were discussed. The club was  
appointed to take up the franchise of  
the state highway, from Martinez to  
Richmond, along the route of the old  
link in the highway constructed from  
Sacramento to Oakland and San Fran-  
cisco. The local club members are all in  
favor of doing everything possible to have  
this link in the highway constructed, and  
ways and means of securing same for the  
state highway bonds sufficient to  
build the road in this county was the  
principal subject of the evening. State  
Senator J. C. Owens, one of the committee  
named and president of the club, attend-  
ed the meeting and took part in the dis-  
cussion. He stated that the committee  
meeting at the St. Francis hotel in  
San Francisco Wednesday and the same  
matter was under discussion there. He is  
to urge upon the supervisors of this coun-  
ty the advisability of the purchase of as  
many of the state highway bonds as the  
franchise of the county will permit. Other  
members of the committee are H. D. Chapman,  
E. L. Groves and Bert Kerley.

A campaign of general advertising for  
Richmond was also decided upon and E.  
H. Harlow, Jr., C. E. Buede, H. H. Luley  
and A. H. Burnett were named as a  
committee to attend to the details of or-  
ganizing widespread publicity.

**COAL ROAD FAILURE:  
RECEIVER APPOINTED**

SEATTLE, Sept. 19.—The strike for the  
right of way from Seattle to the  
river coal fields, over which the battle of  
years' crossing was fought several  
years ago, and which Rex Beach has im-  
mortalized in one of his novels, was re-  
solved upon by Superior Judge R. Albertson  
yesterday morning when William Wray,  
a local attorney, brought suit against the  
Alaska Pacific Railway and Terminal  
company for a debt of \$100 and asked for  
a receiver.

The complaint said the company owes  
\$600,000, and that apart from twelve miles  
of grading and some trackage it has no  
property.

The court appointed T. J. Rigger, a  
representative of the Pennsylvania cap-  
italists, as receiver of the property. The  
company is a subsidiary of the Alaska  
Pacific Railway and Terminal company, a  
better harbor and built the Copper  
River and Northwestern road from there.  
The Pennsylvania capitalists abandoned their con-  
struction when they found they could not  
enter the coal lands.

**FINDS HIS PANAMA HAT ON  
FAIR STENOGRAPHER'S HEAD**

One Panama hat, that wasn't, was the cause of turmoil in the Com-  
mercial Club rooms at the Hotel Oakland this morning. Assistant Sec-  
retary Gilbert C. Farley had it, or rather, formerly had it. Now, trim-  
med with gay ribbons, it graces the blonde head of Miss Elsie Coombs,  
a pretty stenographer.

The why and wherefore is as follows: Farley left the hat, about a  
month ago, on a hat rack in the club. The weather was cold, and he  
did not return to it today, being warm, he decided to don it. It  
was gone. The assistance of the office force was enlisted and the place  
turned topsy turvy in the search. Then, at last, the facts became known.

Covered with dust, the hat stayed there until Miss Coombs asked  
whose it was. Managing Director Cairne didn't know. "Take it if you  
want it," he said. "No one seems to belong in it."

Miss Coombs took it. A little work with a needle and some red rib-  
bon and the hat presented a far different appearance. When Farley  
finally heard the details he ratified the gift and Miss Coombs still owns  
her new headpiece.

**Looking Out For Better Heat?**

Heat that is moist and soft, and clean? Heat that costs less in fuel and  
diesel? The answer is in the Campbell Water-Chaser Furnace.

In short, your present heating apparatus is not a Campbell Water-  
Chaser Furnace. You had better see us at once. For whatever your present  
system may be we can quickly make the change which will surprise you by  
the advanced efficiency.

**CAMPBELL Water-Chaser  
CHIMNEY DECK FURNACE**

represents the final achievement in the perfect heating of home from every  
standpoint of health, economy and convenience. So in fact the water-  
chaser furnace is a real advance in the heating of

## Wyer's Sarsaparilla

Breaks and alleviates. Increases strength. Restores healthy functions. No alcohol. Sold for 60 years.

## PANAMA AT OUTS WITH CHINESE OFFICIAL

PANAMA, Sept. 19.—A rupture has occurred in the relations between the Panama government and Ou Yang-Keng, the Chinese consul-general, as a result of which the consul's exequatur has been returned to him.

The government officials allege that the consul has been unduly active in creating opposition among his countrymen to the provisions of the new law which requires them to register.

## MILITARY SURGEONS CLOSE CONVENTION

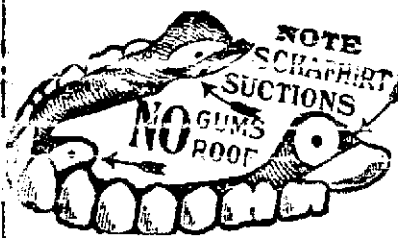

DENVER, Sept. 19.—Again today the delegates to the American Military Surgeons' Association closed their convention.

the time in sightseeing trips among the mountains near Denver. Today's session brought the formal convention to a close and the reading of technical papers constituted most of the routine work of the day.

**A MARVELOUS ESCAPE.**  
"My little boy had a marvelous escape," writes P. F. Bastians of Prince Albert, Cape of Good Hope. "It occurred in the middle of the night. He was a very healthy child, but he was very restless. I had a large bottle of Chamberlain's Cough Remedy in the house. After following the directions for an hour and twenty minutes he was through his cough. He was very healthy and happy." Sold by Goodrich Bros. Drug Stores. —Advertisement.

## Made Teeth for 21 Years

I have devoted my entire life to the study of artificial teeth. A college boy with three years' experience can make a set of teeth, but will they fit and look natural and give comfort?

I have talked to you for years about this set of Teeth Without Plates, which costs just a little more than a good plate, because it is worth more. Let me explain my new type of "Schafhirt Suctions."

If you cannot afford my work I make good plates from \$8.00 up.

## GREAT WATERWAY SOON WILL BE REALITY

Population Being Moved From Path of Rising Waters in Gatun Lake.

Big Blast to Destroy Dam Next Month and Complete Canal.

WASHINGTON, Sept. 19.—Details of how the denizens of the jungles and the inhabitants of the small towns in the interior of the isthmus of Panama were driven out of their homes by the rising waters in Gatun

revelation, were told in a dispatch received today.

During the last 18 months 70 per cent of the population has been moved out of the area to be flooded.

In one case 350 people were collected and moved by rail and water a distance of 60 miles and set down upon a townsite arranged for them. The government of Panama is selling these people building material and food at cost and has even supplied a schoolhouse and a church.

**CONNECT LOCKS AND SEA.**  
With the opening of the Panama canal from the Miraflores locks to the Pacific ocean communication also is being established on the Atlantic side between the great Gatun locks and the sea. This has followed the removal of the railroad trestle between the locks and the ocean. To make the opening navigable about 157,000 yards of earth in the railroad dike must be removed and two pipe line suction dredges are engaged in the work, which should be completed by October 1.

When the work is completed there will remain only one obstruction to free communication in the whole length of the canal—the dike at Gamboa, which restrains the waters of Gatun lake from flowing into Culebra cut. A big suction dredge now is removing the earth and silt that has accumulated in the bed of the canal between this dike and Gamboa lake since the cut was made three years ago, and early in October another, and the last, tremendous blast will destroy the dike itself, leaving a clear waterway across the isthmus.

## CHILD BADLY BURNED; COMPANION TO RESCUE

SAN FRANCISCO, Sept. 19.—Y. M. Paul Taylor, age 11, an orphan, lies at the point of death from burns received yesterday on the grounds of the Armistice Orphanage, San Mateo, when his cowboy suit caught fire while he was at play.

The lad's flaming clothes started a grass fire and the alarm was turned in, the fire department responding.

Nevil Tilston, age 14, proved himself a hero by attempting to extinguish the flames. The injured lad would have perished immediately had not Tilston thrown him to the ground and rolled him in the sand.

## HAY WAGON BURNS

CHICO, Sept. 19.—J. Whitcomb, driving a wagon load of hay near Palmer, discovered that the hay was on fire yesterday, when the flames burned a hole in his trousers. Then he tried to throw the hay out with his bare hands and was severely burned. Burning hay struck the horses, set their tails on fire and they started to kick and run. Whitcomb jumped off the wagon and, running beside the horses, cut the traces. As he cut the last horse loose the animal kicked him through a fence. The hay and wagon were burned.

## BOOK CONCERN SHOWS PROFIT

Employs 1100; Average Wage for Women Is \$11.

PACIFIC GROVE, Sept. 19.—With 1100 employees the Book Concern is showing a profit of \$11,000 for the year ending September 30. The concern is the largest of its kind in the world, and the lowest wage for girls is \$11 weekly and the lowest wage for girls is \$11 weekly.

Rev. F. V. Fisher, representing the directors of the Methodist Book Concern, spoke and asked the conference to cooperate for the success of the Exposition. It has been the custom to secure a professor from one of the theological seminaries, who should give a course of lectures on topics relating to the Christian church and its ministry. This year the choice fell on Drew Theological Seminary, Madison, N. J. The Rev. F. Watson Hannan, D. D., professor of pastoral theology, lectured on "The Minister and His Message." On succeeding week-day mornings he will speak on "The Sufficient Motive," "The Other Man," "The Sunday-school," "The Pastor's Opportunity," and "The Soul Winner."

The routine business of the conference was enlivened by brief and witty addresses from Dr. H. C. Jennings, Dr. R. Forbes, the Rev. Grant Stuart and the Rev. E. G. Talbot.

Superintendents of Districts Drs. George Pierson, M. H. Alexander and S. T. Hutsinger gave their yearly report. In the afternoon and evening the following gatherings took place: Anniversary of Woman's Foreign Missionary Society; meeting of the Retired Ministers' Association, followed by a banquet at the Congregational Church; Ministers' Wives' Association, fourteenth annual reception and banquet; anniversary of the Board of Foreign Missions; fifth annual reunion of the Brethren of British Birth.

## 21 CENTS PAID FOR SONOMA HOP CROPS

SANTA ROSA, Sept. 19.—The hop market is looking up again and yesterday and today more than 2000 bales were sold. The highest price paid this season was 21 cents for a choice lot of 7 bales. Yesterday 1500 bales were sold at 20 cents. Some 1912s were sold at 16 1/2 cents. This practically cleans up all of the old hops. Growers expect further advances.

Grape prices here started yesterday when John Greott of the Alpine Winery announced that he would pay \$26 a ton.

The Healdsburg and northern vineyards have been having \$26 for the season.

## NATIONAL PARK BUREAU URGED

Prof. Miller Outlines Plan for Handling Problem of Yosemite.

YOSEMITE, September 19.—Assistant Secretary of the Interior Professor A. C. Miller, accompanied by Mrs. Miller, arrived in Yosemite at 10:10 a. m. yesterday, via automobile from Berkeley. They were the guests of P. J. Walker, president of the California Automobile Association, who drove them in his car from Berkeley to Yosemite.

"The purpose of this visit," said Professor Miller, "in addition to the inspection of work, is to inspect the roads from Yosemite to Glacier Point and Wawona with a view to determining their fitness for automobile travel. What we wish to do is to make this park more accessible to the public at large, but I believe that safety should be one of the first considerations in this movement, not only for the people in the automobile, but also to people in animal-drawn vehicles. In the future development of the park, with more and more people visiting it every year, the space on the floor of the valley will become more and more congested. It must be devised to systematize things to take care of these conditions."

Up to the present time the different administrations in the history of the park have been very successful in coping with the situation, but what is really needed for all national parks is a national park bureau, to be an arm of the Department of the Interior, to have charge of all such matters in the national parks. Such a bill is now pending in Congress.

## HOW YOU MAY THROW AWAY YOUR GLASSES

The statement is made that thousands wear glasses who do not really need them. If you are one of these unfortunate, then these glasses may be ruining your eyes instead of helping them. Thousands who wear glasses if they can get them without glasses if they will get the following prescription filled at once. Go to any active drug store and get a bottle of Ostense: fill a two-ounce bottle with water and drop in one Ostense tablet. With this harmless liquid solution bathe the eyes two to four times daily and you are likely to be astonished at the results right from the start. Many who have been told that they have astigmatism, eye-strain, catarrh, sore eyes, weak eyes, conjunctivitis and other eye disorders, report wonderful benefits from the use of this free prescription. Get this prescription filled and use it; you may so strengthen your eyes that glasses will not be necessary. Thousands who wear glasses have required them if they had cared for their eyes in time. Do not become one of these victims of needless eye-glasses are only like crutches and every few years they must be changed to fit the ever-increasing weakened condition, so better see if you can, like many others, get clear, healthy, strong magnetic eyes through the prescription here given.

of the best sort not only to meet the present demands, but also the demands of the next 25 or 30 years.

Walker will take the party in his car to Glacier point, a distance of 25 miles from Yosemite village, thence return again to Yosemite and tomorrow the party will leave for Wawona and out of the park by way of Modoc.

Professor Miller, after inspecting the road from Yosemite to Wawona, will then be in a better position to judge the feasibility of opening this route to automobile travel. Until that time it will be impossible for him to say whether or not this route will be thrown open to motorists. He will do all possible to have every road practically opened to automobiles.

## BITE OF DOG KILLS BOTH HORSE AND MAN

SANTA ROSA, Sept. 19.—A horse owned by C. R. Linville, the Sebastopol farmer who died here yesterday from the bite of his dog, exhibited signs of madness yesterday after being bitten by the same dog and was shot. On the day when Linville fell violent pains in the arm and neck, where he was bitten, the horse also sickened, according to word sent to Dr. J. W. Jesse, the physician who attended Linville.

Herman Schultz, Linville's partner, and Perlo Linville, his son, who were also bitten by the dog, so far have not experienced any signs of the trouble. They will probably be inoculated with serum.

## NEW COMET FOUND.

CHICAGO, Sept. 19.—Another new comet, the second to be discovered this month, has been located in the constellation Pegasus, west of the star Gamma. It was discovered by Neujmin, an European astronomer. The first comet was found by the Rev. Joel Metcalf on September 1. The new comet will not become visible to the naked eye, but can be seen through a five-inch telescope.

being bitten by the same dog and was shot. On the day when Linville fell violent pains in the arm and neck, where he was bitten, the horse also sickened, according to word sent to Dr. J. W. Jesse, the physician who attended Linville.

Herman Schultz, Linville's partner, and Perlo Linville, his son, who were also bitten by the dog, so far have not experienced any signs of the trouble. They will probably be inoculated with serum.

## CHILD IS KILLED IN MOTORCYCLE ACCIDENT

ASHLAND, Wis., Sept. 19.—Robert Ewer, son of H. G. Ewer, 5 years old, was killed yesterday when he was riding a motorcycle, lost control of his machine while competing in a race at the Fair grounds and crashed through a fence separating the track from the spectators. Ewer was not injured.

## THIEVES TAKE \$4390 WHILE DRIVER LOOKS

ST. LOUIS, Mo., Sept. 19.—A package containing \$4390 in cash and negotiable checks was stolen off a wagon today within the view of William O'Leary, the driver, who had stopped at a bank to deposit the money. While he was attaching a weight to the horses two young men snatched the package and ran.

## OUTLOOK IN MEXICO DARK

U. S. Would Not Hasten the Recognition

This Nation Is Likely to Wait for Stability in Republic

BULLETIN.  
MEXICO CITY, Sept. 19.—The outlook in Mexico is dark and gloomy. The general feeling was that the return of Diaz meant a compliance with President Wilson's principal demand that General Huerta should not be a candidate. So far as arguing an era of peace, however, the outlook was described as discouraging. While the American government is on record with a promise to extend recognition to the government set up by a legal and free election, it is said to be practically certain that the United States would not hasten to recognize Diaz if he were elected, but would wait in accord with the precedents of President Hayes' administration to determine whether the resulting government was strong enough to maintain peace and enforce its laws.

WASHINGTON, Sept. 19.—News that General Felix Diaz, nephew of Porfirio Diaz, had been recalled to Mexico to become the candidate of the Huerta faction in the coming presidential election, aroused much interest here in official circles. The general feeling was that the return of Diaz meant a compliance with President Wilson's principal demand that General Huerta should not be a candidate. So far as arguing an era of peace, however, the outlook was described as discouraging. While the American government is on record with a promise to extend recognition to the government set up by a legal and free election, it is said to be practically certain that the United States would not hasten to recognize Diaz if he were elected, but would wait in accord with the precedents of President Hayes' administration to determine whether the resulting government was strong enough to maintain peace and enforce its laws.

U. S. COURSE UNDECIDED.  
Just what course the United States will pursue in utilizing the coming election has not been definitely decided. The claims of the Huerta government that while it does not control all the states of the north, it does directly have jurisdiction over the districts containing the great bulk of the Mexican population, has hampered American officials in predicting what their attitude might be. Certain it is, however, officials say, that if the election is conducted under military auspices and with large garrisons at the polls, the American government is not likely to construe the results as having been accomplished by a fair and free election.

The attitude of the United States for the next few weeks is likely to be that of an interested spectator, with John Lind being retained at Vera Cruz, however, to show the world generally that the United States stands ready to assist in the situation by pacific means if its friendly offices are desired.

## London Omnibus Strike Temporarily Averted

LONDON, Sept. 19.—The general omnibus strike in London was temporarily averted today by the action of the Board of Trade, which invited representatives of the men and employers to attend a conference at the Board of Trade office on Monday. The men employed by all the larger companies agreed to remain at work until the result of the conference was known.

## 'TO THE VICTOR GO THE SPOILS,' SAYS PENDLETON

SAN FRANCISCO, Sept. 19.—"To the victor go the spoils," said Cornelius Pendleton, former state senator, and until recently collector of customs at Los Angeles, to his successor, John B. Elliott, as the two men shook hands on the afternoon of the election. Pendleton, who is secretary of the Oil Producers and Consumers' League, is here attending a session of the railroad commission. He expects to take office in Los Angeles in about two weeks. Pendleton, who was elected to the office of collector of customs at Los Angeles, is a native of New York and has been in California for many years.

Wilson, endeavoring to make his political life after his head had been dropped into the basket, and therefore was with some misgivings on both sides that the two greeted each other as fellow passengers on the steamer. Pendleton has decided to relinquish gracefully his former office and Elliott is waiting to take his oath of office before he assumes authority.

## MISSING GIRLS LOCATED AND RETURNED

School Girls Who Abandoned Lessons and Left Home Have Returned.

Mysteries Bothering Police of Oakland, San Jose and San Francisco Cleared.

TWO young school girls who abandoned lessons and left home to see the world and shift for themselves were found and returned to relatives last night, thereby clearing two mysteries which have been bothering the police of San Francisco and San Jose.

The motives which prompted the girls to run away were almost identical. Lillian Bessie Hanna, a pupil at Lowell high school, San Francisco, 17 years old, who disappeared on Wednesday from the home of her uncle, Samuel Hanna, a bookkeeper, of 1924 Fillmore street, was located at the home of relatives in Oakland last night. She had been with a girl friend, "Diana," as she was known to her aunt, who has been a mother to her since her parents died, when she was 14 months old. She had been playing truant from school for six weeks and decided that she wanted to go to work and earn some pin money. Hanna is well-to-do and was anxious to give her a good education, insisting upon her going to school.

The second girl, Gertrude Bettencourt, was missed from her home in Santa Clara and the police of San Jose asked the authorities in Oakland and San Francisco to go their best to find her. She was located last night at the home of W. P. Teeters, a motorman for the United Railroads, at 711 Iowa street, San Francisco. She had come up to San Francisco, running away from school because she had not been promoted. She went at once to a nickelodeon on Third street, adjoining the negro quarter. She was frightened on reaching the inside and seeing Mrs. Teeters went and sat beside her and told her about her flight from home. The woman took her to her own house and cared for her and Wednesday persuaded her to write a note to her mother. Mrs. Bettencourt received the message last night and accompanied by Constable George Lyle hurried to San Francisco, found her daughter and a happy reconciliation was effected.

## DYNAMITES HIS HOME; 2 ARE KILLED

Madman Ties Explosive to Body; Plants Mines Under Beds.

Three Others Are Injured.

BLOOMINGTON, Ind., Sept. 19.—In a fit of insanity Mack Hurst, 50 years old, a stone mason, blew up his home with dynamite about 3 o'clock this morning, killing himself and two other daughters and demolishing the house. Mrs. Hurst, in some respects unrecognizable, was found in the ruins.

MACK HURST, 50 years old, one leg blown off, body mangled and almost unrecognizable. ELIZABETH HURST, 6 years old, body mangled.

But little is known of the tragedy beyond the results. Mrs. Hurst, who escaped injury, says that the madman, who she says was in the house at 2 o'clock and told them all to gather in his bedroom. After they had all entered he closed and locked the door and spoke only these few words: "We will all die together."

Police and firemen hastened to the scene and at once began a search of the ruins. The bodies of Hurst and his dead daughter were found in a mass of debris at the rear of the house. The other two daughters were in another part of the ruins. Both were unconscious and it was some time before they were revived. Neither was able to tell anything of the occurrence.

The shock of the explosion wrecked the house and was felt in the whole immediate neighborhood. Hurst, who had not been working, had been acting strangely.

REVENGE HIS MOTIVE.  
Hurst had been separated from his wife six weeks and yesterday she refused to take him back. It is believed that he then insanely determined to kill himself, his wife and his children.

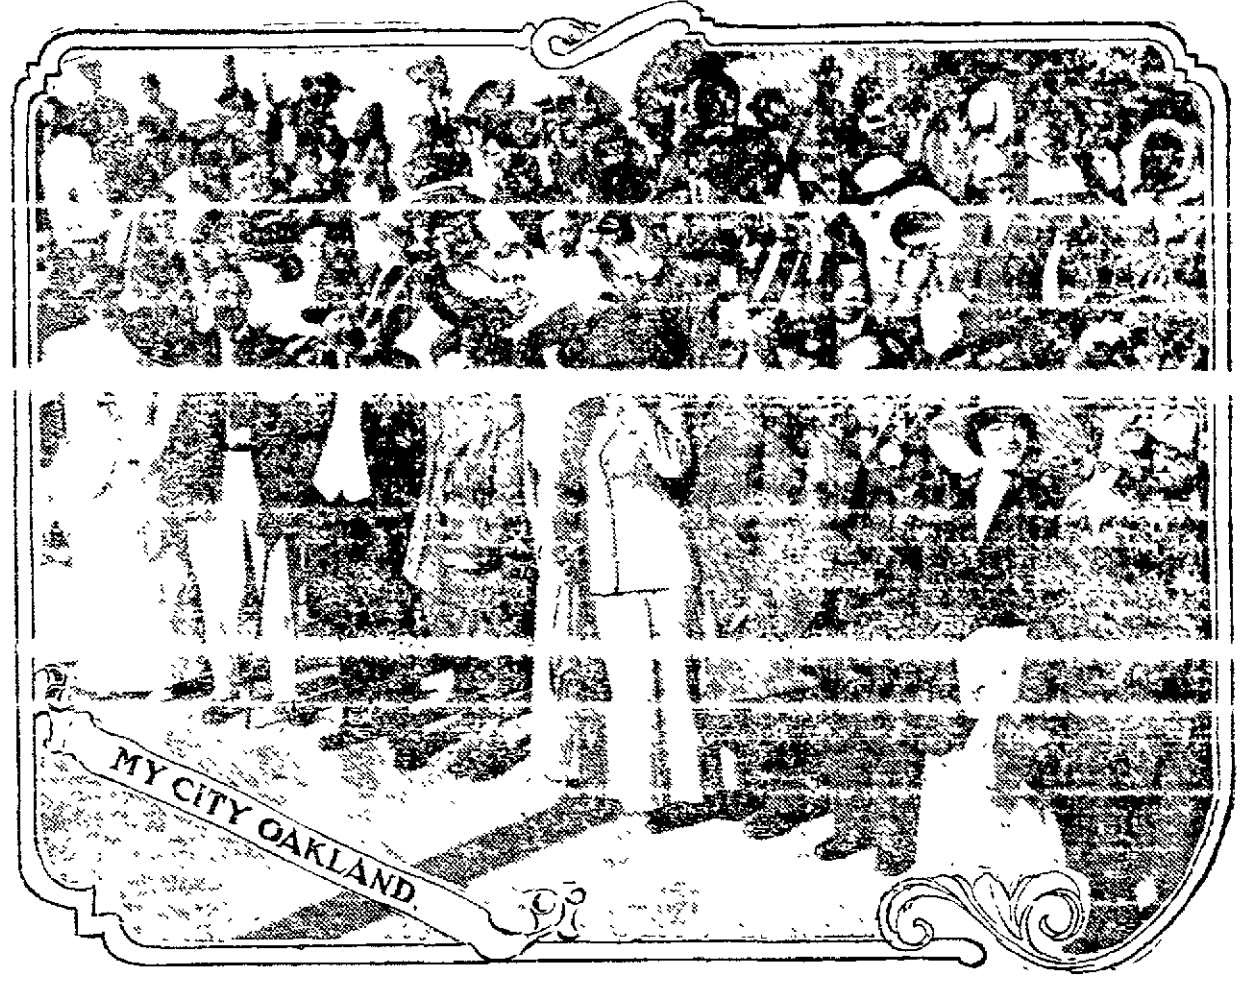

That the mother and daughter had changed beds for the night cost the daughter her life. Hurst, after putting a stick of dynamite under each of the three beds in the house, tied two sticks to his own body and exploded them. The bed he supposed was his wife's, but in which the three daughters, Maude, Fannie and Elizabeth, were sleeping. Fannie awoke to her father. "Stay still," Hurst replied. "We will all die together."

Before the girl could move the explosion rent the house and aroused the entire city. Four sticks of dynamite, unexploded, were found in the ruins and the fact that only one, and that one attached to Hurst's body, had exploded, accounted for the escape of the other members of the family.

## Free Text Book Law Causes Controversy

LOS ANGELES, Sept. 19.—A controversy involving a provision of the state free text book law developed here today when a Los Angeles public school student refused to pay a fine assessed against her for alleged damage to one of her books, and was thereupon barred from school. Members of the school board expressed fear of encountering difficulties in enforcing the law in this respect and agreed that the penalty of depriving children of school facilities would be too severe. An effort will be made by the board to effect a settlement which may be exercised as a precedent in similar cases throughout the state.

## Alamedans Throng State Fair Grounds Delegation Boosts County at Sacramento

ALAMEDA COUNTY BOOSTERS AT THE SIXTEENTH STREET DEPOT ABOUT TO BOARD THE TRAIN FOR THE TRIP TO THE STATE FAIR AT SACRAMENTO. THE ALAMEDA COUNTY DELEGATION IS DECLARED TO BE THE LARGEST EVER SENT TO THE ANNUAL STATE EXHIBIT.

Several hundred strong, the Alameda county boosters today took possession of the Sacramento State Fair. "Alameda County Day" is declared to be one of the biggest events of the exposition at the capital city and, according to the statement of those in charge, the excursion is the biggest ever to leave Oakland.

Waving banners, leading the county's resources, a crowd of happy men, women and children, under the auspices of the combined commercial organizations of Oakland, boarded the special train at sixteenth street this morning for the big trip to the state fair at Sacramento.

The party was under the personal conduct of L. Richardson, prominent booster and railroad official, who assumed the charge of the train. A. A. Denison, secretary of the Chamber of Commerce, Secretary Fred Goetz of the Manufacturers' Committee, L. A. Hearin, president of the Advertising Association, Secretary Wilbur Walker of the Merchants' Exchange, J. T. Phillips of the Manufacturers' Committee, Charles J. Heese-

man, and Paul Goldsmith, secretary of the Alameda County Exposition Commission, were assistants in directing the crowd. The official yell, written for the boosters by Ben F. Woelner, was given as the gathering boarded the train, and again during the trip, as new delegations were picked up at West Berkeley and Richmond.

WOMEN IN PARTY.  
Many women accompanied the boosters, it being estimated that over one-third of the total number on the trip were of the fair sex. The party was provided with small pastebord discs, bearing views of the Golden Gate and maps of Alameda county, these being thrown to spectators when the party arrived shortly before noon at Sacramento.

Upon arrival at Sacramento the Alameda county boosters were met by a delegation and lunch from the State Fair. Under the generalship of Colonel "Boss" Over, state agricultural commissioner, in charge of the Alameda county exhibit, forming in line, the boosters marched to the central portion of the fair, throwing the little pastebord "discs" to the crowd which lined the streets. The Golden Eagle Hotel was the destination of the gathering. There the official headquarters were made, and there the party disbanded for lunch. After lunch special cars took the visitors to the fair grounds, where the Alameda

county exhibit and other attractions of the fair were enjoyed.

The excursion, the joint work of Oakland's commercial organizations is the first of many which it has planned to give. With the co-operation of county officials and under the direct supervision of Secretary Goldsmith of the exposition committee, the party included manufacturers, professional men, members of the Board of Supervisors and citizens from every walk of life. According to Secretary A. A. Denison the showing made at the fair has been one of the best advertisements the county has ever had.

FRUITS ARE SHOWN.  
Alameda county has 600 varieties of fruits, vegetables, nuts, flowers and other products of the soil on exhibition. The Manufacturers' Committee has 100 varieties of manufactures on the ground.

A large range of products as shown by the agricultural exhibit, coupled with the manufactured, is causing a great deal of comment from visitors. While the men viewed the various varieties of peach or pear, women inspected patent heaters or improved mattresses manufactured in Alameda county.

The W. D. Nichols display of flowers and fruits is the attraction of not only the exhibit, but of the fair itself. The men viewed the various varieties of peach or pear, women inspected patent heaters or improved mattresses manufactured in Alameda county.

The W. D. Nichols display of flowers and fruits is the attraction of not only the exhibit, but of the fair itself. The men viewed the various varieties of peach or pear, women inspected patent heaters or improved mattresses manufactured in Alameda county.

## Fists Win Over Gun In Fight of Women

SAN BERNARDINO, Sept. 19.—An altercation between Mrs. F. A. Gonzales, armed with a revolver, and Mrs. Juanita Lopez, who was unarmed, resulted in the victory of the unarmed woman. Mrs. Gonzales expressed little hope for her recovery. It is understood Mrs. Gonzales expected to the friendship of her husband and Mrs. Lopez. She opened fire on Mrs. Lopez and the latter retaliated with her fists. Mrs. Lopez secured possession of the weapon and shot her adversary through the body.

## California Forest Fires Still Raging

BAXTER, Cal., Sept. 19.—One of the fiercest fires in the Cleveland National Forest and a portion of the water shed for the San Bernardino River near Mount Grayback this morning. There are three distinct fires. One is threatening the city of Baxter. The others, burning in the regions of the White Water river and Mission creek.

## LOAN SEED WHEAT TO FARMERS IN KANSAS

TOPEKA, Kas., Sept. 19.—A movement to loan the farmers in ten counties in western Kansas, where the wheat crop failed this year between thirty-five thousand and forty thousand bushels of seed wheat was started here yesterday. The Kansas Farmers' Seed Wheat Club was organized to raise the money necessary to buy the wheat. The farmers to whom the seed is loaned will give notes bearing 8 per cent interest for amounts equaling the value of the wheat received. The notes are to be paid August 1, 1914. The railroads have agreed to carry the seed wheat free in carload lots.

## WROTE "NO GOOD" UPON BACK OF HIS WILL

GRASS VALLEY, Cal., Sept. 19.—The suit to establish the validity of the will of the late Jerry Goodwin of 2001 2nd street was tried in the superior court yesterday. The court withheld decision. Goodwin was killed in a pistol fight with Leroy Clark, who was also killed, several months ago. Just before the tragedy he took the will from the safe, tore off the signature and wrote "no good" across the back. That he was insane at the time, Mrs. Clark, wife of Goodwin's victim, refused to be sworn while testifying, saying she stood in order to show her respect for the court.

## Los Angeles Chief Of Police Robbed

LOS ANGELES, Sept. 19.—Chief of Police Sebastian fell a victim to a sneak thief last night. Last Tuesday evening, Sebastian, leaving in the security of his office and believing that he had instilled sufficient fear into the hearts of burglars to at least keep them from the police station, placed in a drawer in his desk a \$125 diamond pin. This pin last night was missing and a search of the office and station failed to yield the gem, presented to the chief by the Sheriff.

## KNIGHTS TO MAKE TRIP.

ALAMEDA, Sept. 19.—Members of the Alameda County Knights of Columbus, are to accompany the big excursion to Livermore, Sunday.

## The Height of Beauty and Taste

is found in our exquisite Tea Room where luncheon, tea and refreshments may be thoroughly enjoyed.

## REMAINS OF GAYNOR IN N. Y.

Heavy Casket Lowered From the Liner Lucania

Police and Firemen Act as a Special Escort

NEW YORK, Sept. 19.—The body of William J. Gaynor, mayor of New York, who died at sea September 10.

It was lowered at 4 o'clock this morning from the upper deck of the liner Lucania to the city's best Corbett. Though a mist that lay heavy over the harbor, the Corbett seemed an hour and a half later to pier A at the Battery. There a picked squad of one hundred police, who had stood all night in the rain, formed its escort to Brooklyn.

The funeral ship glided into the harbor and came to anchor at quarantine at 10:20 this morning, the American flag at her stern drooping at half mast.

SAILORS LOWER CASKET.

A dozen sailors carried the body in its heavy lead casket from the mortuary to the deck. The casket of flowers and the American flag placed over the casket at Liverpool covered it as a windlass lowered it slowly 25 feet down an inclined plane to the deck of the Corbett. Aboard the smaller boat the body was taken to a heavily draped casket, on which rested a coffin. The body was placed in the coffin and the lid closed, a wreath and a branch of palms were placed above it. The casket was then lowered to the pier and a short distance away awaiting the coming of day. The black mist had changed to gray when the casket began to move and she started on her short journey to the Battery. The rain had ceased. It was full day when the Corbett came to rest in her slip. Eight 5-foot pallbearers, four in the uniform of the fire department and four in the uniform of the police, each man with a bit of crepe on his sleeve, lifted the casket to their shoulders and bore it over the gang plank to the hearse.

The long vigil of the picked squad of mounted police, sent at 9 o'clock last night to the mayor's home, there they stood at attention, each man at his horse's head, and as the casket was placed in the hearse and then mounting their horses led the funeral train through the deserted streets.

REACH THE GAYNOR HOME.

The route lay through lower Broadway and past the city hall to Brooklyn bridge. Over this bridge, which the mayor had so often passed on his way to and from his home, the funeral party went with measured tread. It was after 8 o'clock when they reached the mayor's home. There the body was taken to a large room. The committee appointed by the city to receive it withdrew; the hundred policemen clattered back to their posts.

The body was left with only the family around it.

It will remain there until tomorrow night. Private funeral services will be held there tomorrow afternoon and at their conclusion the body will be taken to the city hall, where it will lie in state till Monday morning, when public funeral services will be held in Trinity church.

With the committee on funeral arrangements that went down the harbor aboard the Corbett were Norman Gaynor, the mayor's son, and Harry Vinnet, his son-in-law, representing the family. No other member of the Gaynor household was aboard. It was Mrs. Gaynor's wish that as little publicity as possible be attached to the landing of the body.

## CAN YOU OPERATE STEAM ROLLER? LISTEN

The civil service board is calling for applicants for the position of steam roller engineer in the street department. This examination will be held on October 5, 1913, and applications therefor will be received from September 15 to September 30, inclusive. The salary for the position is \$135 per month, and there is a splendid opportunity for a steam roller engineer.

For further information and particulars pertaining to the examination apply to the secretary of the board.

# SENATE WILL BELIEVE BLIND HAVE BILL OCT. 6 MAN LEAPED TO DEATH

Currency Measure Expected  
Soon to Be Out of the  
Committee.

President Wilson Listens to the  
Arguments Against Pro-  
posed Law.

WASHINGTON, Sept. 19.—Fresh  
from its triumphant passage in the  
house entrance of the administration

Chairman Owen of the banking com-  
mittee that he expected the measure  
out of the committee and on the sen-  
ate floor for action by October 6.

President Wilson's conference last  
night with Senator Reed, one of the  
committee Democrats, who has criti-  
cized many provisions of the bill ad-  
versely, will be followed, it is ex-  
pected, by individual conference with  
other Democrats who have shown op-  
position to the measure.

With the aid of  
Secretary McAdoo, the President will  
confer with the committee on the  
arguments and bring the senate com-  
mittee to the support of the bill.

Should Senator Hitchcock continue  
opposition to immediate currency leg-  
islation his aid would enable the Re-  
publicans to prevent, by a vote, any  
affirmative action or reporting the  
bill at once to the senate.

**GLOBE TRAVELER IS  
OAKLAND VISITOR**

Travelling from Bangor, Me., around  
the world, George DeColigny, singing  
en route to pay his way, arrived in Oakland  
yesterday. Allowed only forty-eight  
hours in one city, by reason of rules un-  
der which he is making the trip in com-  
petition for the world tourist prize of  
\$7500, he is forced to visit small towns  
in the suburbs until Tuesday, when the  
first boat for Honolulu sails.

De Coligny is competing with four oth-  
ers for the prize. The rules are that the  
tourists must pay their way around the  
world. The first completing the circuit  
wins the prize. De Coligny's home is in  
Chicago. He has been a singer in  
theaters of the Middle West.

**WOMAN INJURED IN  
STREET CAR ACCIDENT**

Run down by a street car at Fifteenth  
avenue and East Fourteenth street, Mrs.  
M. P. Golden of 2175 Geary street, San  
Francisco, sustained a fracture of her  
right hip and numerous lacerations last  
night while on her way to visit friends.  
She was removed to the Emergency Hos-  
pital and later taken to Providence Hos-  
pital, where the care of Dr. C. C. Smith  
was secured. She will recover.

**WORKMAN INJURED.**  
ALAMEDA, Sept. 19.—Patrick Keen-  
an of 34 Sixth street, Oakland, a ma-  
chine's helper at one of the local ship-  
building works had his left hand badly  
crushed in a piece of machinery yester-  
day afternoon. He was treated at the  
local emergency hospital by City Physi-  
cian Arthur Hieronymus, and was later  
able to go to his home.

Alfred Overend's Body Found  
Bleeding on the  
Ground.

Grief Over the Death of Sister  
May Have Caused  
Suicide.

SAN FRANCISCO, Sept. 19.—Grief-  
ing, it is believed, over the death of  
his sister, who had been his "eyes" since  
he was stricken with blindness

man, killed himself by jumping from a  
window in the home of William W.  
Smith, 1831 Union street, early this  
morning.

Miss Elizabeth Overend of 81 Ord  
street, died at the Central Emergency  
hospital, September 18, as the result  
of injuries received in a street car  
accident. After she was first hurt  
and failed to return home, Overend  
wandered away and was not found  
for several days. Following her death  
the aged man to live with them.  
At 4 o'clock this morning members  
of the family heard a scream and  
were horrified to see the aged man  
lying on the ground bleeding from a  
wound in the head. The Central  
Emergency hospital was notified, but  
he was dead when the ambulance ar-  
rived. He was fully dressed and it is  
believed he deliberately jumped out  
of the window, although there is a  
possibility of his death having been  
due to accident.

Miss Overend was formerly a teach-  
er in the school department and was  
well known.

**THIEVES STEAL PLUMES  
VALUED AT \$1000**

Boxes of high priced plumes valued  
at \$1000, were stolen from a warehouse  
at 75 Seventh street last night. The  
plumes were a consignment from the  
firm of Holmes & Nathan to H. Mary-  
mont, a milliner of Thirteenth and Wash-  
ington. The consignment was brought to  
Oakland by H. Davidson, an employe  
of 510 Tenth street.

Dr. H. L. Dietz, 1240 Seventh street,  
reported to the police that burglar broke  
into his home during the night and stole  
a silver correct valued at \$50.

A sneak thief who entered the rooms  
occupied by the police at 2222 Third  
street, took several pairs of trousers and  
other articles valued at \$50.

L. G. Bush, 658 Thirtieth street, re-  
ported the theft of coats valued at \$15.  
Henry Abbott, 614 Seventh street, re-  
ported the theft of fur coats valued at \$50.

**MODERN WOODMEN WILL  
HAVE SHIRTWAIST DANCE**

ALAMEDA, Sept. 19.—The next  
series of shirt waist socials to be given  
by the Modern Woodmen of America,  
Alameda Camp, will be held in Nattie  
Som's (Moose) hall on Park street next  
Tuesday evening. The committee in  
charge announces another novelty dance.  
This will be the seventh monthly social  
of the lodge, and the committee an-  
nounces that the dances are growing in popu-  
larity.

# PUBLIC OWNERSHIP URGED BY FOUR PROMINENT SPEAKERS

Heywood, Parker, Mac-  
arthur and Heney  
Address Audience

Taking Over of Street  
Railways Given Con-  
sideration

BERKELEY, Sept. 19.—The as-  
sumption of public utilities offers in-  
side of the bay by the municipalities  
covered thereby was urged before a  
large audience last evening at the  
Berkeley High school auditorium by  
four speakers—Mayor Charles D. Hey-  
wood, Professor Carleton H. Parker,  
Francis J. Heney and Walter Mac-  
arthur. The meeting was held by the  
City Club and was marked by notable  
enthusiasm for the municipal owner-  
ship plan.

Mayor Heywood discussed in par-  
ticular the municipal ownership of the  
street railways and the conditions  
that have made the records of this  
company public, it will be almost  
impossible to pay any inflated value  
for this system.—Mayor Heywood  
There is just one way by which  
regulation of public utilities may  
be exercised without the danger of  
corruption, and that is, by chang-  
ing the ownership of the public  
utility from private to public hands.

The time limit after which every  
city in the United States should  
own and operate all of its public  
utilities.—Francis J. Heney.

There will be 21 directors, representing  
nine different cities and two counties.  
I claim that this is an ideal situation  
from a political standpoint. The fact  
that these directors represent differ-  
ent communities and have their own  
individual local interest at heart,  
coupled with the fact that the terms  
of office of these directors in their  
several communities terminate at dif-

ferent times, insures a body which is  
continually changing, and the possi-  
bility of political corruption is almost  
entirely removed.

This body of directors appoints  
three commissioners, who are the real  
managers of the system. They, as  
well as the directors, are subject to  
recall by the people, and from a busi-  
ness standpoint, I believe that the 21  
directors who will represent this dis-  
trict are just as capable of employ-  
ing capable experts to manage this  
system as are the private directors of  
the present company.

**COST NOT GREAT.**  
"As to figures, it is a little early to  
give out any definite figures of the  
probable cost of this system, since it  
is hard to tell what price will be  
asked by the corporation. The bal-  
ance sheet of June 2, 1913, of which  
I procured a copy from the railroad  
department of this state, shows the  
total resources and liabilities which  
are \$62,755,034.96. From this bal-  
ance sheet of costs there are the can-  
celsations between the resources and  
liabilities, which, from a general es-  
timate, I believe will leave the cost of  
the road to the people at approxi-  
mately \$25,000,000.

"There is a liability of a funded  
debt of \$20,194,000. That, of course,  
is now issued in bonds by the com-  
pany, and it is merely up to this dis-  
trict to take over these bonds and re-  
lease them. The taking over of these  
\$20,000,000 of bonds would not raise  
the taxes of the people, as there has  
been established a sinking fund, which  
is now in progress, and we could also  
take care of this amount out of the  
income of the present system, which is  
bound to increase. The statement of  
June 30, 1913, shows that the gross  
income was \$1,884,000. After paying  
the operating expenses, the rate of re-  
turn is about 6 per cent on \$31,000,-  
000. All of the bonds that have been  
issued by the corporation, excepting  
the last, have been issued at 6 per  
cent.

**COMMISSION CAN ASSIST.**  
"Of course, the real technical  
figures and the details of the con-  
sumption of this sale must be finally  
left to the directors, and, therefore,  
in discussing these questions we have  
kept, in a way, to generalities. But I  
maintain that with the help of the  
efficient railroad commission of this  
state, together with all the other con-  
ditions that have made the records  
of this company public, it will be al-  
most impossible, when we get down to  
details, to pay any inflated value for  
this system, and I say that we should  
not be afraid to take this step, because  
it has become almost a neces-  
sity for us to operate these lines  
correctly.

Walter Macarthur discussed the  
public utility privately owned but pub-  
licly regulated as a corrupting force.  
In part he said:  
"The contention frequently made  
that municipal ownership of public  
utilities would make for the corrup-  
tion of our politics is an inversion  
of the cause and effect. Politi-  
tics is not corrupted by, but itself  
corrupts the public utility.

"This situation arises inevitably  
from the relation of the privately  
owned public utility to the govern-  
ment. Under public ownership the  
motive and the power of corruption  
would be removed. Only by changing  
from private to public ownership can  
we free the public utility from cor-  
rupting influences and interests.

**REGULATION BY LAW.**  
"It is understood, of course, that  
the public utility is subject to regulation  
by law. This fact creates the neces-  
sity of self-protection on the part of  
the public service corporation. The  
corporation must 'go into politics' to  
protect itself against what it conceives  
to be harmful legislation. Hence the  
political bureau and its 'sack,' with  
which we are familiar as the adjuncts  
of the public service corporation.

"Of course the public utility must  
be regulated, and it is just as easy for  
the regulation to be exercised without  
the danger of corruption, and that  
is by changing the ownership of the  
public utility from private to pub-  
lic hands, thus removing both the in-  
centive and the power of the utility  
to retaliate upon the public.

Francis J. Heney spoke in the  
course of his address of the European  
situation with regard to public util-  
ities. In this regard he said:  
"In Europe many of the large cities  
have already acquired practically all  
the public utilities, and many more  
are rapidly securing them. They find  
that it is just as easy for a city to  
operate its street car system as it  
is to operate the fire department, and  
that it requires just as much engi-  
neering skill to build a sewer sys-  
tem as it does to build a street  
railway system. They find it re-  
quires just as much intelligence and  
brains to operate a water supply sys-  
tem as it does to operate a gas and  
electric plant or to operate a water  
supply system. They find, in other  
words, that the city can own and op-  
erate the profit-making utilities just  
as easily as it can own and operate the  
non-profit-making utilities.

**WILL PAY OVER EXPENSES.**  
"Moreover, they find that if the city  
owns all of the public utilities, the  
profits from the water supply street  
cars, gas and electric utilities and  
phones will pay the expenses of run-  
ning the fire department, police de-  
partment, schools, the hospitals, the  
insane asylums and the jails, and will  
maintain the sewer system and pave  
the streets.

"The time has arrived when every  
city in the United States should own  
and operate all of its public utilities."

## Four Opinions of Public Ownership

When a monopoly exists as an  
intimate provider of a public neces-  
sity the public will enter as a di-  
recting force.—Professor Carleton  
Parker.

With the help of the state rail-  
road commission and the conditions  
that have made the records of this  
company public, it will be almost  
impossible to pay any inflated value  
for this system.—Mayor Heywood  
There is just one way by which  
regulation of public utilities may  
be exercised without the danger of  
corruption, and that is, by chang-  
ing the ownership of the public  
utility from private to public hands.

The time limit after which every  
city in the United States should  
own and operate all of its public  
utilities.—Francis J. Heney.

There will be 21 directors, representing  
nine different cities and two counties.  
I claim that this is an ideal situation  
from a political standpoint. The fact  
that these directors represent differ-  
ent communities and have their own  
individual local interest at heart,  
coupled with the fact that the terms  
of office of these directors in their  
several communities terminate at dif-

ferent times, insures a body which is  
continually changing, and the possi-  
bility of political corruption is almost  
entirely removed.

This body of directors appoints  
three commissioners, who are the real  
managers of the system. They, as  
well as the directors, are subject to  
recall by the people, and from a busi-  
ness standpoint, I believe that the 21  
directors who will represent this dis-  
trict are just as capable of employ-  
ing capable experts to manage this  
system as are the private directors of  
the present company.

**COST NOT GREAT.**  
"As to figures, it is a little early to  
give out any definite figures of the  
probable cost of this system, since it  
is hard to tell what price will be  
asked by the corporation. The bal-  
ance sheet of June 2, 1913, of which  
I procured a copy from the railroad

this system, and I say that we should  
not be afraid to take this step, because  
it has become almost a neces-  
sity for us to operate these lines  
correctly.

Walter Macarthur discussed the  
public utility privately owned but pub-  
licly regulated as a corrupting force.  
In part he said:  
"The contention frequently made  
that municipal ownership of public  
utilities would make for the corrup-  
tion of our politics is an inversion  
of the cause and effect. Politi-  
tics is not corrupted by, but itself  
corrupts the public utility.

"This situation arises inevitably  
from the relation of the privately  
owned public utility to the govern-  
ment. Under public ownership the  
motive and the power of corruption  
would be removed. Only by changing  
from private to public ownership can  
we free the public utility from cor-  
rupting influences and interests.

**REGULATION BY LAW.**  
"It is understood, of course, that  
the public utility is subject to regulation  
by law. This fact creates the neces-  
sity of self-protection on the part of  
the public service corporation. The  
corporation must 'go into politics' to  
protect itself against what it conceives  
to be harmful legislation. Hence the  
political bureau and its 'sack,' with  
which we are familiar as the adjuncts  
of the public service corporation.

"Of course the public utility must  
be regulated, and it is just as easy for  
the regulation to be exercised without  
the danger of corruption, and that  
is by changing the ownership of the  
public utility from private to pub-  
lic hands, thus removing both the in-  
centive and the power of the utility  
to retaliate upon the public.

Francis J. Heney spoke in the  
course of his address of the European  
situation with regard to public util-  
ities. In this regard he said:  
"In Europe many of the large cities  
have already acquired practically all  
the public utilities, and many more  
are rapidly securing them. They find  
that it is just as easy for a city to  
operate its street car system as it  
is to operate the fire department, and  
that it requires just as much engi-  
neering skill to build a sewer sys-  
tem as it does to build a street  
railway system. They find it re-  
quires just as much intelligence and  
brains to operate a water supply sys-  
tem as it does to operate a gas and  
electric plant or to operate a water  
supply system. They find, in other  
words, that the city can own and op-  
erate the profit-making utilities just  
as easily as it can own and operate the  
non-profit-making utilities.

**WILL PAY OVER EXPENSES.**  
"Moreover, they find that if the city  
owns all of the public utilities, the  
profits from the water supply street  
cars, gas and electric utilities and  
phones will pay the expenses of run-  
ning the fire department, police de-  
partment, schools, the hospitals, the  
insane asylums and the jails, and will  
maintain the sewer system and pave  
the streets.

"The time has arrived when every  
city in the United States should own  
and operate all of its public utilities."

## AUTO SKIDS AND IS OVERTURNED

Passengers Thrown Out. But  
No One Is Seriously  
Injured.

Skidding on a newly sprinkled bit of  
slippery asphalt, a speeding automobile  
driven by H. P. Hurley, and occupied by  
two men and two women, turned turtle  
at Twenty-fourth and Webster streets  
last night, spilling the occupants out  
upon the street. By an extraordinary  
chance none in the car was hurt, al-  
though they sustained slight bruises.  
The party took the accident as a joke,  
and when Patrolman V. J. Coley ap-  
peared on the scene the driver gave his  
name as Hurley, refused to give his ad-  
dress or the names of the remainder of  
the party. The machine was quickly  
righted by men from a nearby garage.  
The party left on a street car, and the  
police learned nothing further concerning  
the affair. A brief report was made by  
Coley to the central station.

## ECHOES OF BANK CRASH ARE HEARD

Those of the Central Bank, San Francisco,  
and Trust Company of California, which  
heard in the local courts today when a  
suit brought against J. Daisel Brown and  
E. P. Vandercort by the bank of Wood-  
land for collection of a promissory note  
for \$25,000 was transferred from Yolo  
county. Property in Lake county which  
belonged to Brown was attached in the  
proceedings. The note was drawn April  
12, 1907, to run for three months. The  
Woodland bank sued for the amount on  
April 12, 1913.

## AEOLIANS AND ELKS TO CRUISE

Joint Clambake and Picnic of  
Two Clubs to Be Held at  
Angel Island.

ALAMEDA, Sept. 19.—Alameda lodge  
of Elks and the Aeolian yacht club are  
to hold a joint cruise and clambake at  
Blunt Point, Angel Island, the date of  
which is to be determined at the meeting  
of the lodge Monday night. The plans was  
decided upon at the last meeting.  
Many of the Elks are members of the  
Aeolian club and own yachts and the  
proposal was received from the sailor  
element of the lodge. The members  
having yachts and launches will be as-  
sisted by non-Elk Aeolians and practical  
the entire fleet will be used in trans-  
porting the two organizations to the point.  
A splendid program of events is being  
arranged by the joint entertainment com-  
mittee of the two clubs.

## COLD DINNER FOR THEM, BUT THEY LIKED IT

An original "hot dog dinner" was  
served today at the Hotel Oakland, when  
Edward Fortcamp, a Fresno lumber-  
dealer entertained a number of friends  
at a "hot dog" dinner. The dinner was  
on the mezzanine floor and was attended  
by four guests.  
Only cold food was eaten, the hot  
dogs being a block of ice. Crustier cor-  
nballs in blocks of ice, leaved butter in  
ice cups, cold lobster, colored blue by  
freezing stuffed tomatoes in cracked ice,  
and ice cream were on the menu.  
The dinner was designed by Matt  
Hotel Petersen, on Fortcamp's sugges-  
tion.

# OAKLAND MARKET TWELFTH ST. at BROADWAY

All street cars transfer at our corner.

and checks in black, blue, brown and  
green mixtures. They are all made under  
the most favorable economic conditions  
and are constructed with the idea of meet-  
ing every requirement of style and ser-  
vice. Details of their construction and  
style will be found below

# An Advertisement for Dentists

and any others who ought to know about real  
painless dentistry as done at 12th and Broadway

## BY PAINLESS PARKER

acquired with myself and associates and observe how the Painless Parker organization conducts its large business. We have no secrets, either from the dental profession or the public. We have methods of operation and special appliances that are used exclusively in the Painless Parker offices, but we are proud of them and will take pleasure in explaining them to anyone.

There are other dentists in Oakland who do not know me or my associates. They have never been in my office and know absolutely nothing about the kind of dentistry we are doing or how we do it. No doubt they classify our offices with other so-called painless dentists or "dental parlors" who are here today and gone tomorrow. Yet some of these dentists have made statements about me and my offices that are absolutely false in every particular, and if true would be a disgrace to the dental profession and show the dental laws of California to be a farce. I do not believe any dentist can gain anything by falsehood. The truth hurts no one. I feel sure these statements are made through ignorance of me and my offices. Therefore this plain statement of facts.

One dentist confidentially told one of his patients that there was no such person as Painless Parker; that Painless Parker was just a name or trade-mark used by a company.

Another declared I was not a dentist and did not claim to be one, but just a manager for a big company that hired dentists.

Another said that there was not a graduated dentist in my Oakland office and we were either all students or men who had never seen the inside of a dental college.

Not one of these statements are true. I am very much alive, or think I am, at least. I reside at 199 Twentieth avenue, corner of California street, San Francisco, with my wife and four children, and anyone can pick up a telephone directory and find my name, Dr. E. R. Parker, given at that address. My telephone number is Pacific 1380. I am a graduate of the Philadelphia Dental College, the second oldest dental college in America, numbering among its graduates and instructors such men as Professors Garretson, Flagg, Gilford, Stellwagen, Cryor and others. I will also say that I graduated under the instruction of these well-known authorities in dentistry.

Every operator in my Oakland office is also a graduate of a recognized dental college, and everyone of us has passed the examination of the State Board of Dental Examiners and is licensed to practice dentistry under the State dental laws of California. There are no students in this or any other Painless Parker office, and my associates in the Oakland office have practiced dentistry all the way from five to fourteen years. These facts are matters of record according to the laws of California governing the practice of dentistry, and

every dentist in this city knows what the law requires of a dentist. These facts can be verified by applying to the proper State officials. More than this, in the past four years 19 dentists associated with me have stood the examination before the State Board of Dental Examiners and every one has been given a license to practice in California.

There is no such thing as a Painless Parker Company. I do not believe any State should permit a company to practice dentistry, medicine or law. The Painless Parker organization is a co-operative organization owned and operated by myself and dentists associated with me. I stand ready to forfeit any sum from \$1000.00 to \$10,000.00 if the above statements are shown to be untrue.

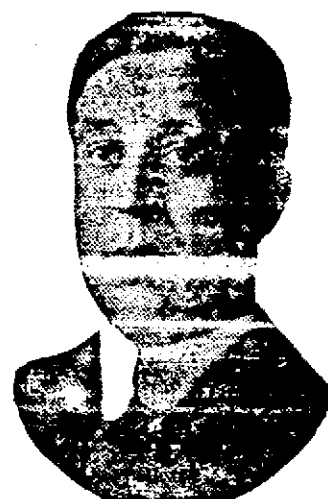

To the dentists of Oakland I will say:

I came here to conduct a high-class dental business as I have done in every city where I have an office. I have a five-year lease—as long as I could get—on the present location, and we have spent about \$25,000.00 to establish this business. My associates here came to this city to make it their home and rear their families. I assume that other dentists are entitled to any right I claim for myself. I believe you are living your life as you think best and practicing your profession as you see your duty. I would not assail the professional character of any dentist unless I knew I was speaking the truth, and I believe this a good rule for any reputable dentist to follow. I feel confident these mis-statements are due to ignorance, and that you may know the truth, you are welcome to visit my Oakland office at any time week days between the hours of 8:30 a. m. and 6 p. m.

Ignorance is no crime, but it is inexcusable in a dentist, and especially on subjects that he assumes to talk about. If I am worth talking about I am worth finding out about; for, sooner or later, your patients will learn the truth, and then they will reason that if you would tell them a falsehood about Painless Parker dentistry you would tell them a falsehood about your own dentistry.

I am doing the largest dental business in the world. I have built up that business—not by trying to tear down someone else—but by advertising HIGH CLASS PAINLESS DENTISTRY AT HONEST PRICES, and doing what I advertise. There are over 700,000 names on my dental register who are satisfied patients, and what I did for them I can do for others.

### SEEK FUNDS FROM PRIVATE SOURCES

The U. S. Bureau of Education  
Would Send Delegate to  
World Conference.

WASHINGTON, Sept. 19.—After inducing the Netherlands government to extend an invitation to the nations of the world to participate in an international conference on education to be held at The Hague in 1937, the United States now is relying upon private contributions to defray the

expense of its own representation at the gathering. Congress recently enacted a prohibition against the expenditure of any public funds for American representation in international conferences. Officials of the federal bureau of education, who projected the conference, are now moving to obtain funds from private sources to defray the expenses of sending one delegate from America—the probable extent of this nation's representation.

#### WEEVIL IS MENACE

WASHINGTON, Sept. 19.—The department of agriculture has information that a dangerous enemy of avocados, alligator pears, known as the avocado weevil, exists in Hawaii, Porto Rico, Mexico and other foreign nations of the world to participate in an international conference on education to be held at The Hague in 1937, and especially in California, there is danger of introducing this insect through importation of seed.

### SEND APPEAL TO FREIGHT SHIPPERS

Railroad Commission Asks Co-  
operation to Prevent Short-  
age of Cars.

On every station bulletin board and in all of its freight offices the Southern Pacific Company is posting printed copies of the letter issued by the California State Railroad Commission calling upon shippers to promptly load and unload freight cars to prevent a shortage. Railroad officials declare that the beneficial results from appeals sent out by the various commercial bodies in the state are already evident, but carelessness or delay may precipitate a stringency that would work immeasurable harm to the growers who wish to market their products.

Says the letter:  
"To All Shippers and Receivers of Freight: During the next few months the preponderance of traffic will be outbound from California, thereby lessening the number of cars which will be available for local traffic."

"The commission respectfully requests that shippers and receivers of freight in carload lots use every effort to load and unload cars in less than 48 hours free time permitted under our demurrage rules."

"Shippers are also requested to load cars to full capacity, which will materially reduce the number of cars needed to handle their business."

"Railroads are requested to handle promptly, when billed, all carload shipments and to move empty cars to loading points without delay; also to repair promptly for service all crippled and bad order cars."

"The commission feels that a co-operation of shippers and railroads will assist materially in preventing a serious car shortage. Respectfully,  
"By CHARLES R. DETRICK,  
"Secretary."

#### BRYAN ADDS \$350 TO HIS BANK ROLL

CHARLOTTESVILLE, Va., Sept. 19.—Here at the home of Thomas Jefferson and the seat of the University of Virginia, Secretary Bryan delivered last night his lecture on "The Making of a Man," to an audience of about 1500 persons. In spite of the wretched weather, Bryan's share in the receipts is estimated at \$350, and he is scheduled to deliver two lectures today, the first at Culpepper this afternoon and the other at Warrenton tonight.

LONDON, Sept. 19.—A Berlin dispatch to the Daily Mail says the Kaiser has invested heavily in land in Vancouver and elsewhere in British Columbia. The investments are purely personal. It is said that other emigrant Germans will follow his example. The lands are chiefly agricultural and forest. The business was conducted by Count Von Alvensleben.

### HOP CROP BRINGS HIGHEST PRICES

Biggest Yield Since 1907 Selling at 23 Cents, with a  
Competitive Demand.

PORTLAND, Ore., Sept. 19.—Hop growers in Oregon this year are enjoying the rare combination of big crops and high prices. The yield is one of the heaviest the state has ever had, and the market is going up at the rate of a cent a day. Figures compiled today show the yield will be the biggest since 1907.

Today the market reached the 23 cent level, when the buyer for a large New York exporter purchased a block of 1000 bales. Several thousand bales were bought during the day at prices ranging from this figure down to 21 cents.

Almost the entire crop is picked now and the farmers are busy with the baling process. As there are several buyers for every lot offered, the farmers are feeling bullish.

### TERRIBLE ITCHING OF SKIN TROUBLE

Small Red and Yellow Spots on Leg.  
Covered with Dry Scale. Had to  
Walk Floor Nights. Cuticura Soap  
and Cuticura Ointment Cured.

R. F. D. No. 3, Clarkfield, Minn. — "My trouble was of long standing. It started with some small red and yellow spots about the size of a pin head on my leg and every morning there was a dry scale on top covering the affected part and when those scales were falling off the itching was more than I could stand at times. The first year I did not mind it so much as it was only itching very badly at times, but the second year it advanced all around my leg and the itching was terrible. I had to be very careful to have my clothing around the affected part very loose. At night time I often happened to scratch the sore in my sleep. Then I had to stand up, get out of bed and walk the floor."

"Then I read the advertisement of Cuticura Soap and Ointment and I wrote for a sample and got it. To my surprise I was feeling relief after the second application. So I got a cake of Cuticura Soap and a fifty-cent box of Cuticura Ointment and when I had used them I was nearly over the itching, so I got another box and that healed it. I kept on with the Cuticura Soap for six weeks and the cure was complete." (Signed) S. O. Gordon, Nov. 20, 1912.

Cuticura Soap 75c. and Cuticura Ointment 50c. are sold everywhere. Liberal sample of each mailed free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. T, Boston." 3c. "You who shave and shampoo with Cuticura soap will find it best for skin and scalp."

Saves  
Time and  
Work

Cooking with gas has greatly reduced the work of housekeeping. It is clean, quick efficient. Apply a match any hour of the day or night and you have immediately a heat that is intense and even.

There's no 'sweating and fussing' when cooking with gas nor is the kitchen heated to an insufferable degree.

### READY TO WIELD PICK AND SHOVEL

**Cragmont and Hopkins Terrace Citizens to Improve New Park.**

BERKELEY, Sept. 19.—Residents in the vicinity of Cragmont Park have set aside October 4th as a labor day upon which they will expend their energies in setting the park square to rights. Men of the district will do the work, refreshed by luncheon which the ladies will serve. The

Fetch and Mrs. J. L. Patterson.

The city council recently set aside in the budget for this year the sum of \$1500 for improvements on the park, but found itself unable to pay for the labor necessary.

In this situation residents of the district surrounding the park decided to do the work themselves. Of the sum set aside \$240 will go for a year's rental of the park, which is the property of the Peoples Water company.

The volunteer workers are to be divided into squads, each of which will be assigned a certain part of the park.

Workers are to meet at the park at 1 p. m., the closing whistle blowing at 1 p. m.

Invited by a New England dinner, which the ladies of the district will serve, and a program of addresses, music and dancing.

Those in charge of the work plan the clearing away of all underbrush and the construction of trails, walks and other improvements. It is also proposed to lay the foundation for a new playground.

This time, to prepare for the installation of playground equipment and to erect a tennis court.

### RETURNS DISROBED AND DISHEVELED

**Suspicion That Miss L. A. Turner Had Met Foul Play, Dissipated.**

MISSISSAUGA, Sept. 19.—With her hair disheveled and her dress disrobed, Miss Lillian A. Turner, who mysteriously disappeared from her home at 530 Fifth Avenue, returned this morning to her home at 530 Fifth Avenue.

Miss Turner, who lives alone in a bungalow, built by herself, said by the neighbors to have met with foul play. She was seen coming from the bungalow several nights ago and since then the house has remained strangely quiet.

The police found the house unoccupied and an entrance, but Miss Turner was not found in the house. Her return clears up the mystery.

LAUNCHMEN ARE BACK FROM UP-RIVER TRIP

ALAMEDA, Sept. 19.—A. G. Dexter and Al. Bunker have returned from a trip up river in the Dexter launch Eunice. They were away for ten days. They visited Sacramento and on the return trip stopped over at Vallejo and Mare Island for a couple of days. The trip from Alameda to Vallejo was made through the "Indian passage," or South Slough. The men report that they experienced rough water from the beginning to the end of the trip, that portion between Petaluma and Red Rock being about as the little boat could take with the trip throughout was greatly enjoyed, nevertheless.

STAIRWAY FALLS WITH MOTHER AND CHILD

SAN LEANDRO, Sept. 19.—Mrs. J. P. Pettencourt, of Joaquin Avenue and East Fourteenth Street, and her little daughter, had a narrow escape from a serious injury last night when a stairway which they were climbing in their home collapsed.

Mrs. Pettencourt and her daughter were thrown 15 feet to the floor, but sustained only bruises and contusions. Pettencourt at first thought that his wife and child had been badly hurt, but after the assistance of a doctor was not necessary.

OPEN AIR STORY HOUR.

ALAMEDA, Sept. 19.—Mrs. Evelyn Mulford will hold a story hour at Lincoln park tomorrow morning at 10 a. m. Mrs. Mulford has arranged a program that will be of special interest to the smaller children.

"The difference between the clerk who spends all of his salary and the clerk who saves part of it is the difference—in ten years—between the owner of a business and the man out of a job."—John W. Wamaker.

### ALAMEDA SCHOOLS ARE OVERCROWDED

**Superintendent Asks That Pace Be Kept With Growing Population.**

ALAMEDA, Sept. 19.—Improvement and enlargement of the high, Porter, Everett and Washington schools is being urged by Superintendent of Schools Will C. Wood, and as a result the board of education is to hold a public hearing on the subject of a bond election. Superintendent Wood declares that the work he recommends is mandatory and that action should be taken immediately.

The high school, he declares, is inadequate and should be enlarged. The Porter school is not only inadequate, but antiquated. The Everett school is in the same condition. Superintendent Wood advocates new structures. The Washington school, he says, should have four rooms added as an addition to the main building.

PROGRESS IS RETARDED.

Progress in the schools is retarded, the superintendent says, by the lack of room and facilities. In the case of the Porter school the lack of room and facilities is so great that it is in poor condition and should be repaired at once. The board does not desire to hear any responsibility, and as a result the question of a new school will probably be put before the people in the form of a bond election.

The valuation of school property at present is \$568,510, and against this there is a bonded indebtedness of \$100,000. This indebtedness, Superintendent Wood says, has been incurred since 1901. All previous debts have been practically wiped out.

In concluding his report, Superintendent Wood says:

"A growing city can afford to take care of its children. A progressive city will do so. The school facilities of Alameda are safe and modern. The people of the city of Alameda are proud of the two school buildings recently erected; they recognize the good work of your honorable body in the construction of these buildings, and the sound public conscience of our people will undoubtedly approve any plan that will provide for the betterment of the high, Porter, Everett and Washington school plants. I therefore urge the matter for your consideration."

NURSE WILL LIVE DESPITE POISON

Mrs. Elizabeth Warren Recovering From Her Attempt at Suicide.

BERKELEY, Sept. 19.—Desperate efforts by physicians at the emergency ward at Roosevelt have probably saved the life of Mrs. Elizabeth Warren, 35, a nurse who took a heavy dose of morphine yesterday last evening with suicidal intent.

The society is the only agency engaged solely in this sort of work which has been in existence for many years. It is a branch of the State to secure its support by these means. With the income from every \$2000 which the society is able to save and invest it guarantees to place one child each year, place him in a good home and watch over him until he is legally adopted or attains his majority.

### Claremont Members Give Benefit in Good Cause

BERKELEY, Sept. 19.—On a board veranda at the Children's Home Frigate, Claremont members of the Claremont Club, who are in the city for the purpose of giving a benefit in good cause, are seen today.

None of them is over three years of age. The youngest is a little girl, a worky face and he is very much much but he does drink very much—much milk out of a bottle upon which he sucks all day long, when he is not asleep.

They need homes, these dozen babies. There were many girls at the home, too, but so many homes want girl babies that they never stay long and so few seem to want boy babies that these do stay. The society, which is endorsed by the State counties and corrections board, has its needs, too, in the way of funds. A big winter party recently held at the Hotel Shattuck netted a considerable sum. The dramatic section of the Claremont club is to give an entertainment, October 8, at the Twentieth Century club house for the same purpose.

ONLY A PART.

The 12 babies on the home's veranda are but a part of the 12 babies on the home's veranda. The 12 babies on the home's veranda are but a part of the 12 babies on the home's veranda.

The 12 babies on the home's veranda are but a part of the 12 babies on the home's veranda. The 12 babies on the home's veranda are but a part of the 12 babies on the home's veranda.

If you are sick and discouraged, I am the Doctor you need. Everything private and confidential. Hours: 9 a. m. to 8 p. m.

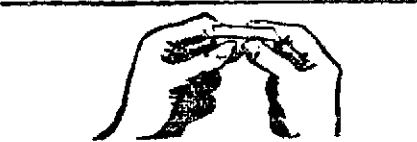

## FREE

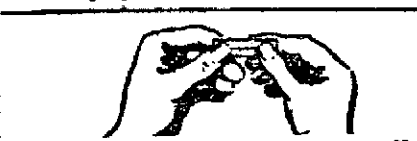

## The Right Way to Roll a Cigarette

I. In fingers of left hand, hold cigarette paper curved, so as to receive the tobacco. Pour right

of muslin sack with right hand, strewn tobacco evenly in paper.

II. Then place your two thumbs next to each other in the middle of the paper in this position.

III. And roll the cigarette on the lower fingers, so that the index fingers move up and the thumbs move down. With the thumbs, gently but firmly force the edge of the paper over the tobacco, and

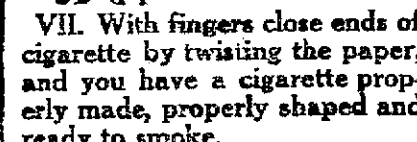

IV. Shape the cigarette by rolling it with the thumbs, as you draw them apart.

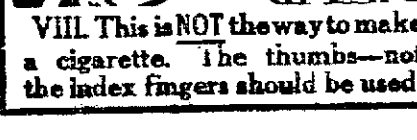

V. Hold the cigarette in your right hand, and

VI. Moisten the projecting edge of the paper.

VII. With fingers close ends of cigarette by twisting the paper, and you have a cigarette properly made, properly shaped and ready to smoke.

VIII. This is NOT the way to make a cigarette. The thumbs—not the index fingers should be used.

While the supply lasts, leading tobacco dealers in this city will give one of these really handsome 14-karat gold-plated Bull Watch Charms to every purchaser of a 5-cent sack of "Bull" Durham tobacco. (Only one Bull Watch Charm to each customer.) We want every smoker in this city to take advantage of this remarkable offer and to obtain one of these elegant Bull Watch Charms free. Remember, this beautiful Bull Watch Charm is 14-karat gold-plated, which shows what a valuable and attractive souvenir it is.

## FREE—While the Supply Lasts

This Handsome

## 14-Karat Gold Plated Bull Watch Charm

with a 5c sack of "Bull" Durham Smoking Tobacco

Every man in this city who sees this wonderful Bull Watch Charm will want one to wear on his watch-fob or watch-chain. Don't forget, this offer holds good for a few days only—so go to your dealer today—without fail—get a 5-cent sack of "Bull" Durham, and be sure to ask the dealer for one of these gold-plated Bull Watch Charms. Tell all the friends you meet about this remarkable offer—some of them may not see this announcement.

GENUINE

## "BULL" DURHAM SMOKING TOBACCO

(FORTY "ROLLINGS" IN EACH 5-CENT MUSLIN SACK)

This grand old tobacco has been the standard smoking tobacco of the world for three generations. Last year alone over 352,000,000 sacks were sold—nearly a million a day—more than all other high-grade smoking tobaccos combined! And the sales are still growing! This pure, good, honest tobacco, with the natural tobacco fragrance—unspoiled by "processes" or doctoring of any kind—affords a lasting enjoyment and thorough

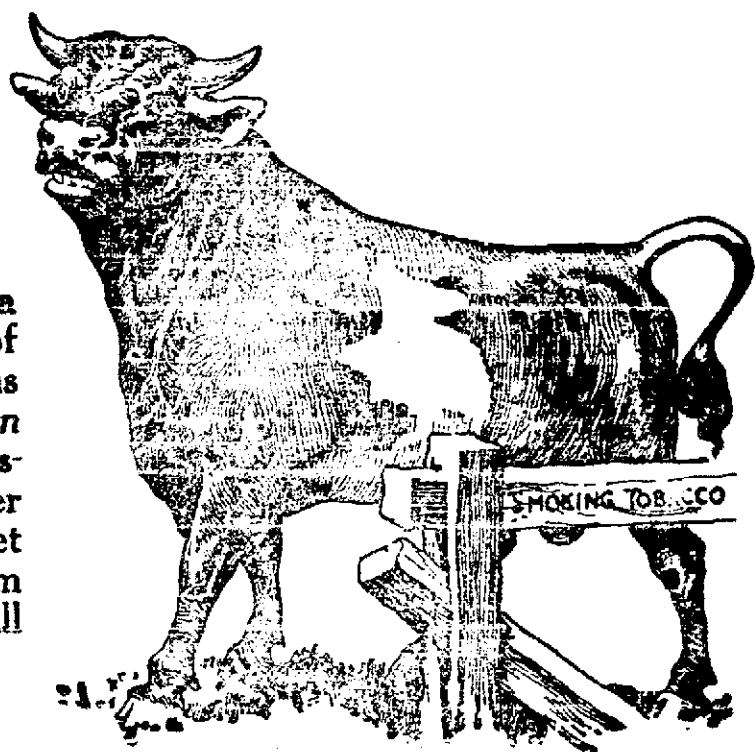

satisfaction that no other tobacco in the world can give.

"Bull" Durham is so downright good that no other tobacco has ever been able to take its place—and no other ever will! "Bull" Durham is not sold in painted tins, or fancy packages, which smokers have to pay for, but cannot smoke. It comes in a plain muslin sack, because the quality is all in the tobacco, where it belongs.

## Get a 5-cent Muslin Sack TODAY

If you have never smoked "Bull" Durham, take this opportunity to get acquainted with the tobacco that pleases more millions of men—in pipe and cigarette—than all other high-grade brands combined. Smoke a pipeful, or roll a cigarette, and you will understand why nearly a million sacks of "Bull" Durham are sold every twenty-four hours!

FREE Dealers have only a limited supply of "Bull" Watch Charms and cannot obtain more, so avoid disappointment by looking for Free Offer sign on a dealer's window today. Get a 5c muslin sack of "Bull" Durham tobacco and ask for the FREE Bull Watch Charm

## Special Notice to Dealers

We want every dealer in Oakland, Alameda, Berkeley and Richmond to be supplied with these Watch Charms. All dealers who have not yet secured a supply of these Watch Charms can do so by phoning E. Matlock, Oakland 6000, Hotel St. Mark, this evening from 6 to 9 p. m., Friday, September 19th.

**APTISTS TO HOLD ANNUAL MEETING**

San Francisco Association  
Completes Program for Convention.

The San Francisco Baptist Association, which includes all the Baptist churches in San Francisco, Alameda and Contra Costa counties, will hold its sixty-third annual meeting with the Twenty-third Avenue Baptist church, East Oakland, on Tuesday, Wednesday and Thursday, September 23-25. The general subject of the addresses of the association will be "The Book of the Acts."

The officers of the association are: Rev. F. M. Archer of Melrose, moderator; Rev. J. A. Sutherland of San Francisco, vice-moderator; Rev. A. V. Dahl, clerk; W. F. Gentile of San Francisco, treasurer.

The women's missionary meeting will be held on Thursday afternoon, September 25, Mrs. J. A. Sutherland presiding. Among the speakers will be Miss Helen Topping, missionary from Japan, and Miss Maurer, Methodist deaconess in charge of missionary work at Angel Island Immigration station.

**WHY NOT GET A GUARANTEE WHEN YOU BUY LIVER MEDICINE?**

Every Article of Merit That Is Sold These Days Is Guaranteed; No Guarantee Often Means No Quality.

There is very little excuse for anyone to claim that he has been "guaranteed" on a purchase. Fifty years ago the buyer had to look out, but now it is unusual to find a merchant who will not return the money on any article that has proved unsatisfactory.

Excellent example of this tendency for fair dealing is shown by the clean-cut guarantee that all drug stores are willing to give on Dodson's Liver Tonic.

Any person who pays 50c for a bottle of Dodson's Liver Tonic and does not find it a gentle and most pleasant liver tonic, harmless, but a sure reliever of constipation and to successfully take the place of calomel, can get his money back just as quick as the druggist can get it out of the money drawer.

Dodson's Liver Tonic is rapidly taking the place of calomel. It is absolutely harmless, sure in its action and causes no restriction of habit or diet. No wonder the drug people are glad to guarantee it, while other remedies that imitate the claims of Dodson's Liver Tonic are not guaranteed at all.

**Session Held by Delegates Entertainments Arranged**

LEFT TO RIGHT, OSCAR HOCKS, SECOND NATIONAL GRAND VICE-PRESIDENT; WILLIAM FOELSEN, NATIONAL GRAND PRESIDENT; C. J. VON ROSENBERG, FIRST VICE-PRESIDENT OF THE HERMANN SONS.

SAN FRANCISCO, Sept. 19.—The Hermann Son delegates in session here devoted their efforts today to the nominating of officers and winding up of routine business in order to be able to bring the convention's business to a close tomorrow. Although the event does not officially end until Sunday it is hoped to spend Sunday afternoon for an outing, while the evening will be featured by a grand ball at the German house in honor of the delegates and new officials. Incidentally this affair will bring to an end the session.

"The Alameda county branches of our great order," said William Foelsen, grand president of the order, at the banquet at the Piedmont Park last night, "are to be congratulated on their progressiveness. As hosts you cannot be excused; as boosters you are unshakable, and it is certainly a pleasure to be here as your guests."

Foelsen was also enthusiastic over the appearance of the Altemheim. "It is an institution such as this," he said, "that we all wish to have established in our own section. There are plans afoot for the establishment of numbers of these homes throughout the United States, and our visit to the local home certainly strengthens our determination to 'have more established.'" Foelsen complimented Albert Kaiser, president of the Altemheim Association, and Franz Jacoby, superintendent, on the upkeep of the building and grounds and the systematic manner in which they are run.

**8-WORD SENTENCE LOSES BIG SUM**

**Amendment of Auto License Bill Curtails State Funds.**

SACRAMENTO, Sept. 19.—By the omission of eight words, constituting a section of the original draft of the new motor vehicle act which amends the law regarding the registration and taxation of automobiles, the state of California will lose from \$125,000 to \$150,000 per year in revenues.

This measure provided for the payment of a tax on every automobile in the state based upon the horsepower of the machine and at the same time provided that not only chauffeurs who drove machines for hire should pay a license fee of \$2, but that every other operator of a machine should pay a fee of \$1.

This latter provision was couched in the following words: "For every original operators' license to operate, \$1."

The original bill passed the lower house of the legislature with this provision, but in the Senate the bill was amended at one point or another of its progress so that this section was left out, although professional chauffeurs are still charged the \$2 fee.

Thus it is that the bill reached Governor Johnson's pen without this section, and when State Engineer McClure asked Attorney General Webb a few days ago as to whether an operator, whether owner or relative of an owner of a machine, would have to pay a license fee of \$1 for running an automobile or other motor vehicle, Attorney General Webb replied that there was no provision in the existing law to require the payment of the fee.

It is estimated that the new act will bring in a revenue of \$1,250,000 per year to the state. The total number of registered machines in California today is in excess of 112,000, but the number of machines that are in actual operation, or are "alive," according to the trade term, is approximately 100,000.

**INSURANCE CONVENTION CLOSES ITS SESSIONS**

INDIANAPOLIS, Ind., Sept. 19.—C. F. Nigenback of McPherson, Kas., was elected president and Columbus O. G. elected as the next meeting place at the closed sessions of the annual convention of the National Association of Mutual Insurance Companies here last night. A committee which has been in conference with the insurance commissioners of Minnesota, Wisconsin, Pennsylvania and Michigan for three days regarding uniform laws for regulating mutual fire insurance companies, recommended that the matter be submitted to the National Association of Insurance Companies at a meeting to be held in New York in December.

**Excursion Rates to Pleasanton**

from Sept. 22d to 27th inclusive, to the Alameda County Fair at one fare and one-third for the round trip. Final return limit Sept. 28th.

There will be Stock Parades, Horse Shows, Harness Races, Motorcycle Races, Dancing, Music, Autos that fly in the air, and other amusements.

See Southern Pacific agents for further information.

**ALBANY MAY BOND FOR FIRE EQUIPMENT**

ALBANY, Sept. 19.—The town trustees are expected to act at their next meeting the date for a bond election, at which will be voted upon the proposed issuance of \$10,000 worth of bonds for fire purposes. It is possible that the town hall and courthouse bonds will be ready for submission at the same time. The council is in receipt of a petition signed by 117 residents asking for the fire bonds.

The sum proposed is to be divided as follows: Motor chemical, \$5000; other equipment, \$4000; maintenance, \$2000; building and furnishing, \$1000. Albany now has only a volunteer fire department.

**KENT REPORTED AS IN SENATORSHIP RACE**

WASHINGTON, Sept. 19.—Congressman William Kent will leave for California to look over his political fences and take a squint at the California senatorial situation. Recently Kent has received many letters urging him to get into the senatorial fight, although he is pledged to the cause of Francis J. Heney.

**"GET-RICH-QUICK" PLAN LEADS TO ARREST**

NEW YORK, Sept. 19.—Frenzied financing, as versatile as it is extensive in range, is charged up to the record of Walter G. Farnald, a "get-rich-quick" promoter, who was taken off the incoming White Star liner *Majestic* at the pier by Postoffice inspectors and detectives yesterday. Farnald is under indictment at Trenton, N. J., for conspiracy and using the United States mails to defraud.

This particular case grew out of the activities of the "Capital Security and Purchasing Company" and the "Imperial Trustee Company," which Farnald is alleged to have founded and operated in New Jersey.

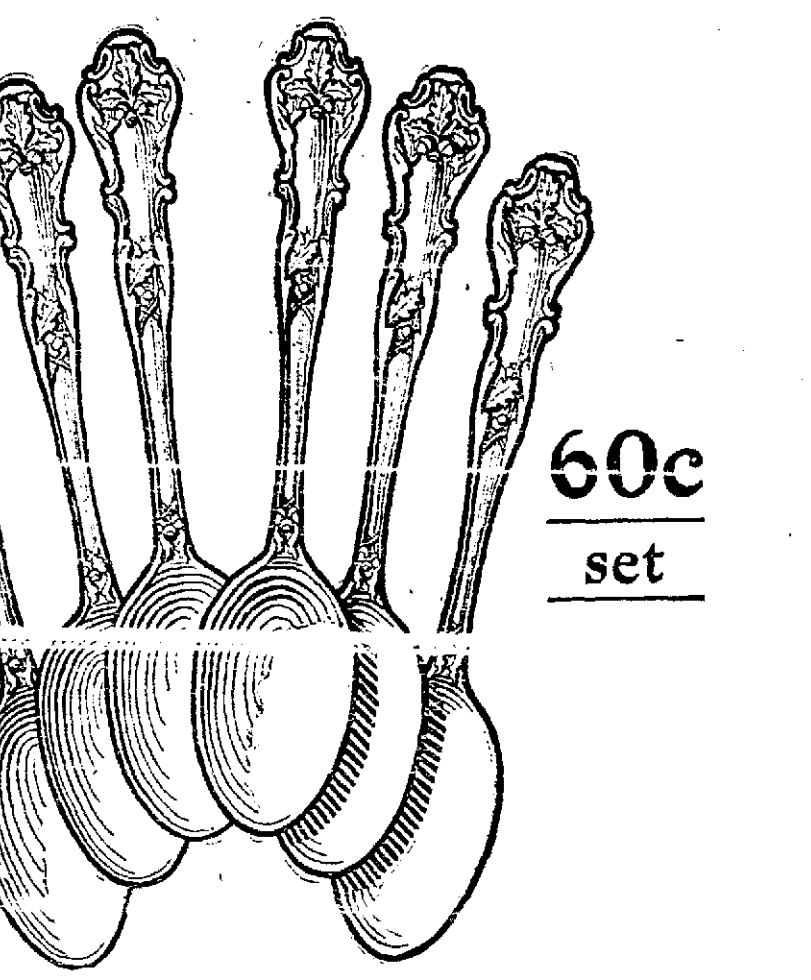

Farnald, in 1904, was convicted of receiving stolen goods in San Francisco, Cal., and sentenced to four years in San Quentin prison. He came East in 1909 and shortly after was sentenced to a term in Sing Sing for grand larceny.

**THE HIGH PRESSURE OF COMPETITION**

Commercially and socially, brings on a nervousness that influences the stomach, produces gas, disturbing digestion and producing gas. This is nervous dyspepsia, considered almost incurable until 2 years ago, when Bealman's Gas Tablets were discovered. Bealman's Gas Tablets have cured thousands of cases of nervous dyspepsia and particularly those that resisted all other treatments. You owe it to yourself to try them. All druggists sell the genuine in a yellow box for 50c, or mailed direct on receipt of price by J. Bealman Co., 345 Sutter St., San Francisco.

There is but one Piano today which clings unswervingly to the highest ideals of artistic piano construction—but one Piano which has never sought to enhance its position commercially by the building of Miniature Grand Pianos to meet the competition of low price, nor felt the necessity of installing the Piano-Player in its instruments in order to maintain the market for its product.

**The Mason & Hamlin Piano**

is the one perfect Piano of today—the one Piano which meets, unflinchingly, every demand, satisfies the most critical musicians, arouses the enthusiastic admiration of the most exacting critics; which, by the nobility, resonance and majestic quality in its tone, is winning new admirers, making new converts, building a home in the hearts of lovers of the truly artistic, and has created a demand that is the marvel of the music trades.

Mason & Hamlin Pianos invite severest comparison, yet recognize no competition. Because they are better made, embodying in their construction the finest materials obtainable, and because of their patented features, Mason & Hamlin Pianos cost more than other Pianos, yet, so superior is their quality, so perfect their architectural design, so beautiful their finish, that the additional cost is doubly justified.

All styles of Mason & Hamlin Pianos are shown at our stores, and are sold on easy payments when desired.
